Wandering Poets and Other Essays on Late Greek Literature and Philosophy Alan Cameron, 2015-10-01 This book presents a substantially revised version of some of the most important and innovative articles published by Alan Cameron in the field of late antique Greek poetry and philosophy Much new material has been added to the account of the Wandering Poets from early Byzantine Egypt and earlier judgment on their paganism is nuanced The story of Cyrus of Panopolis and the empress Eudocia takes into account important recent work on the poetry of Eudocia Several chapters discuss the date and identity of the influential poet Nonnus The longest chapter reviews the celebrated story of the so called closing of the Academy of Athens and the trip of its seven remaining philosophers to the court of the Persian king Chosroes rejecting the fashionable current idea that they set up a new school at Harran on the Persian border An entirely new chapter discusses a recently published papyrus containing poems of the Alexandrian epigrammatist Palladas rejecting the editor's claim that Palladas wrote almost a century earlier than hitherto believed A concluding chapter never before published reinvestigates the evidence for paganism in sixth century Byzantium Boldly and persuasively argued and drawing on a profound knowledge of the period the volume as a whole deepens our knowledge of the rich intellectual traditions of the late antique Hellenic world

Later Greek Epic and the Latin Literary Tradition Katerina Carvounis, Sophia Papaioannou, Giampiero Scafoglio, 2022-11-07 The volume offers an innovative and systematic exploration of the diverse ways in which Later Greek Epic interacts with the Latin literary tradition Taking as a starting point the premise that it is probable for the Greek epic poets of the Late Antiquity to have been familiar with leading works of Latin poetry either in the original or in translation the contributions in this book pursue a new form of intertextuality in which the leading epic poets of the Imperial era Quintus of Smyrna Triphiodorus Nonnus and the author of the Orphic Argonautica engage with a range of models in inventive complex and often covert ways Instead of asking in other words whether Greek authors used Latin models we ask how they engaged with them and why they opted for certain choices and not for others Through sophisticated discussions it becomes clear that intertexts are usually systems that combine ideology cultural traditions and literary aesthetics in an inextricable fashion The book will prove that Latin literature far from being distinct from the Greek epic tradition of the imperial era is an essential indeed defining component within a common literary and ideological heritage across the Roman empire

Greek and Latin Poetry of Late Antiquity Berenice Verhelst, Tine Scheijnen, 2022-06-30 Although Greek and Latin poetry from late antiquity each poses similar questions and problems a real dialogue between scholars on both sides is even now conspicuously absent A lack of evidence impedes discussion of whether there was direct

interaction between the two language traditions This volume however starts from the premise that direct interaction should never be a prerequisite for a meaningful comparative and contextualising analysis of both late antique poetic traditions A team of leading and emerging scholars sheds new light on literary developments that can be or have been regarded as typical of the period and on the poetic and aesthetic ideals that affected individual works which are both classicizing and un classical in similar and diverging ways This innovative exploration of the possibilities created by a bilingual focus should stimulate further explorations in future research The Genres of Late Antique Christian Poetry Fotini Hadjittofi, Anna

Lefteratou, 2020-10-12 Classicizing Christian poetry has largely been neglected by literary scholars but has recently been receiving growing attention especially the poetry written in Latin One of the objectives of this volume is to redress the balance by allowing more space to discussions of Greek Christian poetry The contributions collected here ask how Christian poets engage with and are conscious of the double reliance of their poetry on two separate systems on the one hand the classical poetic models and on the other the various genres and sub genres of Christian prose Keeping in mind the different settings of the Greek speaking East and the Latin speaking West the contributions seek to understand the impact of historical setting on genre the influence of the paideia shared by authors and audiences and the continued relevance of traditional categories of literary genre While our immediate focus is genre most of the contributions also engage with the ideological ramifications of the transposition of Christian themes into classicizing literature This volume offers important and original case studies on the reception and appropriation of the classical past and its literary forms by Christian poetry **Food,**

Virtue, and the Shaping of Early Christianity Dana Robinson, 2020-08-13 In this book Dana Robinson examines the role that food played in the Christianization of daily life in the fourth century CE Early Christians used the food culture of the Hellenized Mediterranean world to create and debate compelling models of Christian virtue and to project Christian ideology onto common domestic practices Combining theoretical approaches from cognitive linguistics and space place theory Robinson shows how metaphors for piety such as health fruit and sacrifice relied on food related domains of common knowledge medicine agriculture votive ritual which in turn generated sophisticated and accessible models of lay discipline and moral formation She also demonstrates that Christian places and landscapes of piety were socially constructed through meals and food production networks that extended far beyond the Eucharist Food culture thus provided a network of metaphorical concepts and spatial practices that allowed the lay faithful to participate in important debates over Christian living and community formation The Resurrection of Homer in Imperial Greek Epic Emma Greensmith, 2020-10-01 This

book offers a radically new reading of Quintus Posthomerica the first account to combine a literary and cultural historical understanding of what is the most important Greek epic written at the height of the Roman Empire In Emma Greensmith's ground breaking analysis Quintus emerges as a key poet in the history of epic and of Homeric reception Writing as if he is Homer himself and occupying the space between the Iliad and the Odyssey Quintus constructs a new poetics of the interval

At all levels from its philology to its plotting the *Posthomeric* manipulates the language of affiliation succession and repetition not just to articulate its own position within the inherited epic tradition but also to contribute to the literary and identity politics of imperial society This book changes how we understand the role of epic and Homer in Greco Roman culture and completely re evaluates Quintus status as a poet

The Paradigm of Simias Jan Kwapisz, 2019-02-19 This book's concern is with notoriously obscure ancient poets riddlers whom it argues to have been an essential albeit necessarily marginal element of the literary landscape of Antiquity which in addition exerted subtle yet lasting influence on European culture The three first essays in this book trace a direct line of influence between the early Hellenistic scholar poet Simias of Rhodes the late Republican Roman experimentalist Laevius and Constantine the Great's virtuoso panegyrist Optatian Porphyry whereas the fourth essay discusses the preservation and transformation of the model invented by Simias in Byzantium The Appendix reflects on the triumph of this intellectual paradigm in Neo Latin Jesuit education by investigating the case of a peripheral yet highly influential Central European college at the turn of the sixteenth and seventeenth centuries This book is at once a contribution to the scholarship on the reception of Hellenistic poetry and to the study of ancient technopaegnia i e playful poetry and their cultural influence in Antiquity Byzantium and post mediaeval Europe

Urban Developments in Late Antique and Medieval Rome Gregor Kalas, Ann Dijk, 2025-10-01 A narrative of decline punctuated by periods of renewal has long structured perceptions of Rome's late antique and medieval history In their probing contributions to this volume a multi disciplinary group of scholars provides alternative approaches to understanding the period Addressing developments in governance ceremony literature art music clerical education and the construction of the city's identity the essays examine how a variety of actors from poets to popes productively addressed the intermittent crises and shifting dynamics of these centuries in ways that bolstered the city's resilience Without denying that the past both pre Christian and Christian consistently remained a powerful touchstone the studies in this volume offer rich new insights into the myriad ways that Romans between the fifth and the eleventh centuries creatively assimilated the past as they shaped their future Historiography and Space in Late Antiquity Peter Van Nuffelen, 2019-08-29 The later Roman Empire was

shrinking on the map but still shaped the way historians represented the space around them Wisdom's House, Heaven's Gate Teresa Shawcross, 2024-09-14 Taking as its starting point an investigation into the physical topography and symbolism of the two cities of Athens and Jerusalem this book offers a cultural history of the rival superpowers the Byzantine Empire and Fatimid Caliphate that between them dominated the Mediterranean world during the Central Middle Ages It shows that the destruction of the Church of the Holy Sepulchre in Jerusalem on the orders of al Hakim punctuated a century of heightened interaction resulting from changing patterns of warfare trade and pilgrimage Resettlement of both Christians and Muslims from Syria Palestine in Asia Minor and the Balkans introduced these migrants host culture to new forms of religious and artistic expression In Hellas a flurry of building projects reinvented Athens as a New Jerusalem and the Parthenon as a New Temple The Acropolis became famous for its miraculous lamp and elaborate liturgy The clergy who performed the sacred mysteries justified them with reference to concepts of hierarchy illumination and divinisation These concepts were derived from a philosophical tradition over whose ownership the two superpowers competed The resulting political theology was the creation of male intellectuals but female patrons and worshippers also had an impact *The Argonautika* by

Orpheus Alexandra Maria Madela, 2024-12-02 Is it possible to be better than Homer For most literary critics in late antiquity the answer was an unequivocal no but the anonymous author of the *Argonautika* by Orpheus disagreed This book the first English monograph on this late antique epic poem demonstrates that the idea of competing with Homer is central to the *Argonautika* by Orpheus Through a series of case studies on the poem's diction and compositional technique it proposes a novel approach Since the mythological bard Orpheus is ostensibly the poem's author readers are invited to view it from two perspectives simultaneously as a late antique epic modelled on Homer's works but also a prehistorical model for Homer's works Latin and Coptic: Languages, Literatures, Cultures in Contact Maria Chiara Scappaticcio, Alessia
