Kripal,2011-09-07 Jeffrey Kripal here recounts the spectacular history of Esalen the institute that has long been a world leader in alternative and experiential education and stands today at the center of the human potential movement Forged in the literary and mythical leanings of the Beat Generation inspired in the lecture halls of Stanford by radical scholars of comparative religion the institute was the remarkable brainchild of Michael Murphy and Richard Price Set against the heady backdrop of California during the revolutionary 1960s Esalen recounts in fascinating detail how these two maverick thinkers sought to fuse the spiritual revelations of the East with the scientific revolutions of the West or to combine the very best elements of Zen Buddhism Western psychology and Indian yoga into a decidedly utopian vision that rejected the dogmas of conventional religion In their religion of no religion the natural world was just as crucial as the spiritual one science and faith not only commingled but became staunch allies and the enlightenment of the

scholars to engage with their affective experience of being in the archive illuminating how the space of the archive requires a different kind of deeply personal embodied research Out of the Closet Into the Archives represents the exciting directions for scholarship enabled by this rapid growth of new LGBTQ archives Although mindful of critiques of the archive as an institution of power and attentive to experiences and ephemerality that can escape it the essays published here practice forms of the archival turn that put relentless curiosity and unapologetic passion to use as methods for intellectual invention from the Foreword by Ann Cvetkovich

Silicon Valley Signals: Technological Enthusiasm & the Times Nima Moinpour, 2020-04-12 How might we account for the effectiveness of Silicon Valley during our times Both as a place and as a cultural icon Silicon Valley has generated a mystique about its power to produce economic and cultural effects It speaks loudly in our civilization today and there is an aura of mystery about it How has Silicon Valley arrived at this point in its development Companies such as Apple Google Hewlett Packard and Intel compose part of the legend that Silicon Valley has become but the roots of that legend extend further in time and geography Others have approached the same questions and have noted its industrial roots but only reached so far back My contention is the modern economic and cultural phenomenon of Silicon Valley crystallized because of its local geomorphology and the ensuing technological enthusiasm contributed to its historical and material conditions for such techno mediatic unfolding This work will distinguish itself from others not just by connecting geography to technical developments but also by exploring the epistemological disposition that Silicon Valley claimed and spilled over into upcoming milieus of technological development and civilizational progress By addressing the research questions through methods and concepts derived from Media Archeology methodology a methodology originating in the field of Media Studies I argue that the manifold inter involvements of geomorphology and technical enthusiasm account for the force of Silicon Valley in media history and the book takes you through various intersections of concrete pillars to build you a sound frame of mind about this mysterious region and culture
