The Void A Brief Insight:

Arthur S. Eddington, The Nature of the Physical World H.G. Callaway, 2014-09-18 Arthur S Eddington FRS 1882 1944 was one of the most prominent British scientists of his time He made major contributions to astrophysics and to the broader understanding of the revolutionary theories of relativity and quantum mechanics He is famed for his astronomical observations of 1919 confirming Einstein's prediction of the curving of the paths of starlight and he was the first major interpreter of Einstein's physics to the English speaking world His 1928 book *The Nature of the Physical World* here re issued in a critical annotated edition was largely responsible for his fame as a public interpreter of science and has had a significant influence on both the public and the philosophical understanding of 20th century physics In degree Eddington's work has entered into our contemporary understanding of modern physics and in consequence critical attention to his most popular book repays attention Born at Kendal near Lake Windermere in the northwest of England into a Quaker background Eddington attended Owens College Manchester and afterward Trinity College Cambridge where he won high mathematical honors including Senior Wrangler He became Plumian Professor of Astronomy at Cambridge in 1913 and in 1914 Director of the Cambridge Observatory Eddington was a conscientious objector during the First World War By the end of his career he was widely esteemed and had received honorary degrees from many universities He was elected president of the Royal Astronomical Society 1921 1923 and was subsequently elected President of the Physical Society 1930 1932 the Mathematical Association 1932 and the International Astronomical Union 1938 1944 Eddington was knighted in 1930 and received the Order of Merit in 1938 During the 1930s his popular and more philosophical books made him a well known figure to the general public Philosophers have found his writings of considerable interest and have debated his themes for nearly a hundred years

Hidden In Plain Sight: A Study of the Revelation to John Uchenna Mezue, 2015-10-03 The Revelation to John has been with us for about 2000 years and has been the subject of diverse attempts at interpretation The Revelation as given is a vision of the end time work of the Son of Man and the sole purpose is to prepare humanity for that mission and offer them the chance to recognise the last Envoy of God when He does come It is only with this understanding in view that the Revelation can be appreciated All the promised messages for the end time are now available to us and I believe we are in a better position to understand the message of The Revelation Indeed I believe that we urgently need to understand its message The urge and pressure amongst all striving human spirits to unravel the mysteries of The Revelation represents this need This study is not a substitute for The Revelation but may be regarded as a call for a deeper study and hopefully an awakening to the need to experience the times in a more alert manner The work is offered in the recognition that the Revelation is being fulfilled in this epoch and as such is a must read for all striving human spirits
