Rocking Wall Street Gary Marks, John Mauldin, 2010-12-15 Praise for Rocking Wall Street: the only four investment strategies you will ever need. I dare anyone to read this book and not wake up to the realities of Wall Street and change their investing habits on the spot. Steve Trager, Watson, Retired CEO and CIO of the hedge fund Watson Investment Partners LP. A true Renaissance man and teacher, Gary Marks adeptly explores four investment strategies that can achieve strong results and peace of mind, two concepts usually considered mutually exclusive in the world of Wall Street investing. Using his vast experience and folksy storytelling, Gary provides lessons, anecdotes and strategies that will help readers find multiple levels of success.

Mitch Levine, Founder and CEO, Enable Capital Management. Rocking Wall Street brings a musician's heart and soul to the investment process, balancing strategic investing with living your life. Marks's creative approach is sure to strike a major chord with both new and seasoned investors.

Kerry Paul Altman, PhD, Clinical Psychologist. Rocking Wall Street tips the scales over to the side of the investor and away from the hype masters and media experts whose lures and promises all seem to vanish in a bear market.

Michael J. Sell, Former auditor, CPA, Investment Consultant.

Wall Street Capitalism: The Theory Of The Bondholding Class E. Ray Canterbury, 2000-02-18 Breaking the chains of the bond market. This book goes behind the headlines of the Wall Street Journal to unmask the bondholding class, insulated from criticism by a self-serving ideology. The bondholders have redefined the indicators of economic well-being decidedly in Wall Street's favor. Created out of the fiscal folly of Reaganomics, fortified by Federal Reserve officials and patronized by the Clinton Administration, the bondholding class invented the Goldilocks economy: never too hot, never too cold. As this powerful class has amassed the greatest wealth in history, ordinary Americans have been losing ground to the ensuing global financial turbulence. In a tour de force, Ray Canterbury shows how the evaporation of personal savings, the Angels' share, is as necessary to Wall Street capitalism as it is damaging to growth and wages on Main Street.

F Wall Street Joel Ponzio, 2009-05-18 Look at market fluctuations as your friend rather than your enemy. Profit from folly rather than participate in it. Warren Buffett: Investors shouldn't hate the market because of its up and downs. In this book, Joe Ponzio gives an f you to Wall Street and teaches you how to become a sharp value investor who uses economic downturns to your advantage.
