The Varnished Truth Truth Telling And Deceiving In Ordinary Life:

The Varnished Truth David Nyberg, 1993-06 Everyone says that lying is wrong But when we say that lying is bad and hurtful and that we would never intentionally tell a lie are we really deceiving anyone In this wise and insightful book David Nyberg exposes the tacit truth underneath our collective pretense and reveals that an occasional lie can be helpful healthy creative and in some situations even downright moral Through familiar and often entertaining examples Nyberg explores the purposes deception serves from the social kindness of the white lie to the political ends of diplomacy to the avoidance of pain or unpleasantness He looks at the lies we tell ourselves as well and contrary to the scolding of psychologists demonstrates that self deception is a necessary function of mental health one of the mind's many weapons against stress uncertainty and chaos Deception is in our nature Nyberg tells us In civilization just as in the wilderness survival does not favor the fully exposed or conspicuously transparent self As our minds have evolved as practical intelligence has become more refined as we have learned the subtleties of substituting words and symbols for weapons and violence deception has come to play a central and complex role in social life The Varnished Truth takes us beyond philosophical speculation and clinical analysis to give a sense of what it really means to tell the truth As Nyberg lays out the complexities involved in leading a morally decent life he compels us to see the spectrum of alternatives to telling the truth and telling a clear cut lie A life without self deception would be intolerable and a world of unconditional truth telling unlivable His argument that deception and self deception are valuable to both social stability and individual mental health boldly challenges popular theories on deception including those held by Sissela Bok and Daniel Goleman Yet while Nyberg argues that we deceive among other reasons so that we might not perish of the truth he also cautions that we deceive carelessly thoughtlessly inhumanely and selfishly at our own peril

You Won't Get Fooled Again Conner O'Seanery,2006 Catalogs the lies found in daily life paying particular attention to the falsehood filled occasions such as business negotiations job interviews used car shopping and more This work covers identifying characteristics of liars including gender differences verbal slips and physical ticks and evidence of confused thinking

A Closer Examination of Applicant Faking Behavior Richard L. Griffith,Mitchell H. Peterson,2006-05-01 The faking of personality tests in a selection context has been perceived as somewhat of a nuisance variable and largely ignored or glossed over by the academic literature Instead of examining the phenomenon many researchers have ignored its existence or trivialized the impact of faking on personality measurement The present volume is a much needed timely corrective to this attitude In a wide range of chapters representing different philosophical and empirical approaches the assembled authors demonstrate the courage to tackle this important and difficult topic head on as it deserves to be The writers of these chapters identify two critical concerns with faking First if people fake their responses to personality tests the resulting scores and the inferences drawn from them might become invalid For example people who fake their responses by describing themselves as diligent and prompt might earn better conscientiousness scores and therefore be hired for jobs requiring this trait that in fact they might not perform satisfactorily Second the dishonesty of the faker might itself be a problem separate from its effect on a particular score Someone who lies on a pre employment test might also lie about the hours he or she works or how much cash is in the till at the end of the shift Worse these two problems might exacerbate each other a dishonest applicant might get higher scores on the traits the employer desires through his or her lying whereas the compulsively honest applicant might get low scores as an ironic penalty for being honest Outcomes like these harm employers and applicants alike The more one delves into the complexities

of faking as the authors of the chapters in this volume do so thoroughly and so well the more one will recognize that this seemingly specialized topic ties directly to more general issues in psychology One of these is test validity The bottom line question about any test score faked or not is whether it will predict the behaviors and outcomes that it is designed to predict As Johnson and Hogan point out in their chapter the behavior of someone faking a test is a subset of the behavior of the person in his or her entire life and the critical research question concerns the degree to which and manner in which behavior in one domain generalizes to behavior in other domains This observation illuminates the fact that the topic of faking is also a key part of understanding the relationship between personality and behavior The central goal of theoretical psychology is to understand why people do the things they do The central goal of applied psychology is to predict what someone will do in the future Both of these goals come together in the study of applicant faking

Knowledge And Civilization Barry Allen,2018-02-15 Offers a new original way of framing questions about knowledge Knowledge and Civilization advances detailed criticism of philosophy's usual approach to knowledge and describes a redirection away from textbook problems of epistemology toward an ecological philosophy of technology and civilization Rejecting theories that confine knowledge to language or discourse Allen situates knowledge in the greater field of artifacts technical performance and human evolution His wide ranging considerations draw on ideas from evolutionary biology archaeology anthropology and the history of cities art and technology

Media Ethics Goes to the Movies Howard Good,Michael J. Dillon,2002-03-30 Certain films seem to encapsulate perfectly the often abstract ethical situations that confront the media from truth telling and sensationalism to corporate control and social responsibility Using these movies including Ace in the Hole All the President's Men Network and Twelve Angry Men as texts authors Howard Good and Michael Dillon demonstrate that when properly framed and contextualized movies can be a powerful lens through which to examine media practices Moreover cinema can present human moral conduct for evaluation and analysis more effectively than a traditional case study can By presenting ethical dilemmas and theories within a dramatic framework Media Ethics Goes to the Movies offers a unique perspective on what it means for media professionals to be both technically competent and morally informed

Fifty Synagogue Seminars Jeremy Hugh Baron,2010-07-08 During the last twelve years Dr Baron has led fifty pre Sabbath service seminars at the Society for the Advancement of Judaism New York and or the New London Synagogue These didactic essays explore the Bible theology liturgy social responsibility and the arts from Who wrote the Bible to Mark Twain's Concerning the Jews Each chapter examines a problem that had perplexed Baron and for which he provides a detailed evidence based review together with sources He pursues each issue from hundreds or thousands of years ago to the present including both the Diaspora and Israel He looks at what countries bordering Palestine had discussed and practiced and scrutinizes the attitudes of other Abrahamic and Eastern religions and their differing denominations Finally he attempts to assess the relevance of each topic for the twenty first century

Lying and Deception Thomas L. Carson,2010-04-29 This is the most comprehensive and up

to date investigation of moral and conceptual questions about lying and deception Carson argues that there is a moral presumption against lying and deception that causes harm he examines case studies from business politics and history and he offers a qualified defence of the view that honesty is a virtue
