Literature and Culture in Modern

Britain: Volume Three Clive Bloom, Gary Day, 2014-06-11 British culture has changed almost beyond recognition since 1956 Angry young men have been displaced by Yuppies Elvis by the Spice Girls and meat and two veg by continental cuisine What is more as the death of Diana Princess of Wales showed the British are now more famous for a trembling lower lip than a stiff upper one This volume the last in the series examines the transformations in literature and culture over the last forty years An introductory essay provides a context for the following chapters by arguing that although there have been significant changes in British life there are also profound continuities It also discusses the rise of theory and its impact on the humanities Each essay in the volume concentrates on a facet of British culture over the last half century from painting to poetry from the seriousness of the novel to the postmodern ironies of the computing age What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change not least of which is the new found relationship between literature and other arts which ushers us into the new millennium

Representing Scotland in Literature, Popular Culture and Iconography A. Riach, 2004-12-10 This fascinating new study is about cultural change and continuities At the core of the book are discrete literary studies of Scotland and Shakespeare Walter Scott R L Stevenson Arthur Conan Doyle the modern Scottish Renaissance of the 1920s and more recent cultural and literary phenomena The central theme of literature and popular representation recontextualises literary analysis in a broader multi faceted picture involving all the arts and the changing sense of what the popular might be in a modern nation New technologies alter forms of cultural production and the book charts a way through these forms from oral poetry and song to the novel and includes studies of paintings classical music socialist drama TV film and comic books The international context for mass media cultural production is examined as the story of the intrinsic curiosity of the imagination and the intensely local aspect of Scotland s cultural self representation unfolds

Incest in contemporary literature Miles Leeson, 2018-08-06 This is the first edited collection of essays which focuses on the incest taboo and its literary and cultural

presentation from the 1950s to the present day It considers a number of key authors and artists rather than a single author from this period The collection exposes the wide use of incest and sexual trauma and the frequency this appears within contemporary literature and related arts Incest in contemporary literature discusses the impact of this change in attitudes on literature and literary adaptations in the latter half of the twentieth century and early years of the twenty first century Although primarily concerned with fiction the collection includes work on television and film Authors discussed include Iain Banks A S Byatt Angela Carter Simone de Beauvoir Ted Hughes Doris Lessing Ian McEwan Iris Murdoch Vladimir Nabokov Andrea Newman and Pier Pasolini and Sylvia Plath

The Culture Series of Iain M. Banks Simone Caroti, 2018-07-26 This critical history of Iain M Banks Culture novels covers the series from its inception in the 1970s to the The Hydrogen Sonata 2012 published less than a year before Banks death It considers Banks origins as a writer the development of his politics and ethics his struggles to become a published author his eventual success with The Wasp Factory 1984 and the publication of the first Culture novel Consider Phlebas 1987 His 1994 essay A Few Notes on the Culture is included along with a range of critical responses to the 10 Culture books he published in his lifetime and a discussion of the series status as utopian literature Banks was a complex man both in his everyday life and on the page This work aims at understanding the Culture series not only as a fundamental contribution to science fiction but also as a product of its creator s responses to the turbulent times he lived in

Registering the Difference Lance St. John Butler, 1999 The concept of register is a tool for readers of all kinds of texts especially literary ones This book explains how register can be used without resorting to the full panoply of linguistic jargon
