The Weather in Proust Eve Kosofsky Sedgwick, 2011-12-20 At the time of her death in after a long battle with cancer Eve Sedgwick had been working on a book on affect and Proust and on the psychoanalyst Melanie Klein This volume edited by Jonathan Goldberg brings together a collection of her last work Novel Relations Alicia Mireles Christoff, 2022-05-17 The first comprehensive look at how Victorian fiction and British psychoanalysis shaped each other *Novel Relations* engages twentieth century post Freudian British psychoanalysis in an unprecedented way as literary theory Placing the writing of figures like D W Winnicott W R Bion Michael and Enid Balint Joan Riviere Paula Heimann and Betty Joseph in conversation with canonical Victorian fiction Alicia Christoff reveals just how much object relations can teach us about how and why we read These thinkers illustrate the ever shifting impact our relations with others have on the psyche and help us see how literary figures characters narrators authors and other readers shape and structure us too For Christoff novels are charged relational fields Closely reading novels by George Eliot and Thomas Hardy Christoff shows that traditional understandings of Victorian fiction change when we fully recognize the object relations of reading It is not by chance that British psychoanalysis illuminates underappreciated aspects of Victorian fiction so vibrantly Victorian novels shaped modern psychoanalytic theories of psyche and relationality including the eclipsing of empire and race in the construction of subject Relational reading opens up both Victorian fiction and psychoanalysis to wider political and postcolonial dimensions while prompting a closer engagement with work in such areas as critical race theory and gender and sexuality studies The first book to examine at length the connections between British psychoanalysis and Victorian fiction *Novel Relations* describes the impact of literary form on readers and on twentieth and twenty first century theories of the subject *Tourist Distractions* Youngmin Choe, 2016-03-10 In *Tourist Distractions* Youngmin Choe uses hallyu Korean wave cinema as a lens to examine the relationships among tourism and travel economics politics and history in contemporary East Asia Focusing on films born of transnational collaboration and its networks Choe shows how the integration of the tourist imaginary into hallyu cinema points to the region s evolving transnational politics and the ways Korea negotiates its colonial and Cold War past with East Asia s neoliberal present Hallyu cinema s popularity has inspired scores of international tourists to visit hallyu movie sets filming sites and theme parks This tourism helps ease regional political differences reimagine South Korea s relationships with North Korea China and Japan and blur the lines between history memory affect and consumerism It also provides distractions from state sponsored narratives and forges new emotional and economic bonds that foster community and cooperation throughout East Asia By attending to the tourist imaginary at work in hallyu cinema Choe helps us to better understand the complexities anxieties and tensions of East Asia s new affective economy as well as Korea s shifting culture industry its relation to its past and its role in a rapidly changing region *Queer Futures* Elahe Haschemi Yekani, Eveline Kilian, Beatrice Michaelis, 2016-04-15 Following debates surrounding the anti social turn in queer theory in recent years there

has been a renewed interest in the role of activism the limits of the political and the question of normativity and ethics Queer Futures engages with these concerns exploring issues of complicity and agency with a central focus on the material and economic as well as philosophical dimensions of sexual politics Presenting some of the latest research in queer theory this book draws together diverse perspectives to shed light on possible queer futures when different affective temporal and local contexts are brought into play As such it will appeal to scholars of cultural political literary and social theory as well as those with interests in gender and sexuality activism and queer theory

The Wallflower Avant-garde Brian Glavey, 2016 The Wallflower Avant Garde argues for the importance of a strain of modernist formalism based in ekphrasis the literary imitation of the visual arts Often associated with a conservative aesthetic of wholeness permanence and autonomy ekphrastic writing also involves excess failure and mimesis conjuring an aesthetic sense of closure and unity out of impossible imitations This choreography of imitation and autonomy resonates with many of the foundational insights of queer theory the way it situates identity as an effect of performativity artifice and mimesis Unlike many queer theorists however this book insists that we value both the imitations and the aspirations that guide them underlining not only the illusoriness of identity but also its allure This more capacious formalism allows aspects of modernists aesthetic that have seemed regressive or repressive to be read as generative forms of stasis quiet reserve shyness and so on

Reclaiming Queer Erin J. Rand, 2014-05-19 The activist reclamation of the word queer is one marker of this shift in ideology and practice and it was mirrored in academic circles by the concurrent emergence of the new field of queer theory That is as queer activists were mobilizing in the streets queer theorists were producing a similar foment in the halls and publications of academia questioning regulatory categories of gender and sexuality and attempting to illuminate the heteronormative foundations of Western thought Notably the narrative of queer theory's development often describes it as arising from or being inspired by queer activism In Reclaiming Queer Erin J Rand examines both queer activist and academic practices during this period taking as her primary object the rhetorical linkage of queer theory in the academy with street level queer activism

Queer Objects Guy Davidson, Monique Rooney, 2020-06-29 Pursuing the discursive or material effects of relational queerness this book reflects on how objects can illuminate affect and animate queer modes of being In the early 1990s the queer theorist Eve Kosofsky Sedgwick defined queer as multiply transitive relational and strange rather than a fixed identity In spite of this much of the queer theoretical scholarship of the last three decades has used queer as a synonym for anti normative sexual identities The contributions to this volume return to the idea of transitivity exploring what happens when queer is thought of as a turning toward or turning away from a diverse range of objects including bodily waste frozen cats archival ephemera the writing of Virginia Woolf the Pop art of Ray Johnson the podcast S Town and Maggie Nelson's memoir The Argonauts Relevant to those studying queer theory this book will also be of wider interest to those researching identity and the way in which it is represented in a variety of artistic disciplines This book was originally published as a special issue of Angelaki

recherche du temps perdu highlighting the songs significance by paying close attention to their lyrics music composers and histories Rushworth interprets these episodes through theoretical reflections on song and voice drawing particularly from the works of Reynaldo Hahn and Roland Barthes She argues that songs in Proust s novel are connected and resonate with one another across the different volumes yet also shows how song for Proust is a solo amateur and intimate affair In addition she points to Proust s juxtapositions of songs with meditations on the notion of mauvaise musique bad music to demonstrate the existence of a blurred boundary between songs that are popular and songs that are art According to Rushworth a song for Proust has a special relation to repetition and memory due to its typical brevity and that song itself becomes a mode of resistance in la Recherche especially on the part of characters in the face of family and familial expectations She also defines the songs in Proust s novel as songs of farewell noting that to sing farewell is a means to resist the very parting that is being expressed and demonstrates how songs in formal terms resist the forward impetus of narrative

Proust's Snobs, Inverts, and Jews Adeline Soldin,2025-03-06 An intersectional investigation of identity formation in Marcel Proust s magnum opus As metonyms for broader categories such as class sexuality and ethnicity the three most discussed identity groups in Proust s la Recherche du Temps Perdu snobs invertes and Jews prove to be deeply intertwined and perplexing representations Attentive to these interwoven complexities Proust s Snobs Inverts and Jews examines the novelist s exploitation of classification systems as a means to subvert the notion of a fixed identity To illustrate Proust s challenges to a social order that restricts our perceptions of identity Adeline Soldin addresses the inconsistencies and friction surrounding the portrayal of these key figures in his seven volume novel Many scholars have recognized that the narrator s formative journey in La Recherche leads to disillusionment and increased mockery of his fellow characters Soldin contends however that Proust does not merely deride characters behavior but rather interrogates their diverse motivations and tendencies thereby exposing the performative nature of identity Proust s Snobs Inverts and Jews draws on Judith Butler s theories of performativity to illustrate Proust s precocious portrayal of identity in La Recherche as an elusive unattainable idea that characters pursue yet consistently fail to establish Ultimately the enigmatic and anonymous narrator models fluidity and promotes fantasy and imagination to compensate for the limitations imposed on individuals by social and linguistic conventions
