Tribes And State Formation In The Middle East:

Tribes and State Formation in the Middle East Philip Shukry Khoury, Joseph Kostiner, 1990 Offering a fuller understanding of the complexities and particular patterns of state formation in regions where tribes have exercised a significant influence this volume focuses on the continuing existence of tribal structures and systems in contemporary times within contemporary nation states The contributors offer hypotheses as to why these groups have managed to survive and what impact they have had on modern states backcover *Tribes and State Formation in the Middle East* Philip Shukry Khoury, Joseph Kostiner, 1990-01-01 Tribes and State Formation is the first effort to bring together the disciplines of history anthropology and political science around a major topic that none of these alone is adequately equipped to address How and why did certain tribal societies metamorphose over time into states Scholars concerned with general questions of theory and methodology and the interaction of anthropology and history as well as political scientists and sociologists concerned with concepts of the state in the Middle East and other developing regions will be well served by this innovative work The articles by an array of distinguished scholars cover a wide range of topics the relationship of ideology to tribal and state power comparisons between different regional patterns of tribe state interaction historical case studies from North Africa the Arabian Peninsula and Iran extending to the contemporary period theoretical and methodological inquiries and systematic reviews of the literature on tribes and states The articles argue against a unilinear approach to the study of tribes and state formation by emphasizing that states often existed alongside tribes and even created tribes for their own purposes Some case studies emphasize the incompatibility of states and tribalism while others illustrate the many areas in which tribes actually enhanced rather than impeded state formation **Tribes and State Formation in the Middle East** Philip S. Khoury, 1990

regional development in light of dialectics between state and society this book will be of value to students and scholars with an interest in the Middle East Economics and International Relations

The Politics of Nuclear Non-Proliferation

Ursula Jasper, 2013-10-08 This book examines the puzzle of why some states acquire nuclear weapons whereas others refrain from trying to do so or even renounce them Based on the predominant theoretical thinking in International Relations it is often assumed that nuclear proliferation is inevitable given the anarchic nature of the international system Proliferation is thus often explained by vague references to states insecurity in an anarchic environment Yet elusive generalisations and grand abstract theories inhibit a more profound and detailed knowledge of the very political processes that lead towards nuclearisation or its reversal Drawing upon the philosophical and social theoretical insights of American pragmatism The Politics of Nuclear Non Proliferation provides a theoretically innovative and practically useful framework for the analysis of states nuclear proliferation policies Rather than recounting a parsimonious lean account of proliferation the framework allows for the incorporation of multiple paradigms in order to depict the complex political contestation underlying states proliferation decisions This pragmatist framework of analysis offers ways of overcoming long standing metatheoretical gridlocks in the IR discipline and encourages scholars to reorient their efforts towards imminent real world challenges This book will be of much interest to students of nuclear proliferation international security and IR theory

State-Building in the Middle East and North Africa

Mohammad-Mahmoud Ould Mohamedou, 2021-10-21 Why have state building projects across the MENA region proven to be so difficult for so long Following the end of the Ottoman Empire in the early 1920s the countries of the region began a violent and divisive process of state formation But a century later state building remains inconclusive This book traces the emergence and evolution of state building across the MENA region and identifies the main factors that impeded its success the slow end of the Ottoman Empire the experience of colonialism and the rise of nationalistic and religious movements The authors reveal the ways in which the post colonial state proved itself authoritarian and formed on the model of the colonial state They also identify the nationalist and Islamist movements that competed for political leadership across the nascent systems enabling the military to establish a grip on the security apparatus and national economies Finally in the context of the Arab Spring and its conflict filled aftermath this book shows how external powers reasserted their interventionism In outlining the reasons why regional states remained hollow and devoid of legitimacy each of the contributors shows that recent conflicts and crises are deeply connected to the foundational period of one century ago Edited by Mohammad Mahmoud Ould Mohamedou the volume features contributions by stellar scholars including Faleh Abdel Jabar Lisa Anderson Bertrand Badie Fran ois Burgat Benoit Challand Ahmad Khalidi Henry Laurens Bruce Rutherford Jordi Tejel and Ghassan Salam

Middle Eastern Societies in the 20th Century

Jerzy Zdanowski, 2014-10-16 This book provides a comprehensive overview of the last 100 years in the Middle East from the perspective of social history It is apt to date the beginning of the modern Middle East to the industrialization era while it

extends its reach into the present Taking its lead from modernization theory this book illustrates past expectations of the present and helps to understand everyday occurrences rather than sensational events It adopts a multi disciplinary perspective and concentrates on the relationship between history and social theory From a historical perspective the categories of social anthropology and social theory are referred to as social mobility urbanization migration cultural change gender identities and the young generation The book addresses the primary issues of importance for the region namely natural and human resources demography and its dynamics family life patriarchy and the emancipation of women class structure and social mobility ethnic and religious minorities migration and its impact on culture and politics refugees problems in historical and contemporary contexts urbanization in the Middle Eastern context the challenges of development and finally the social and political consequences of the Arab Spring

Nomadic Societies in the Middle East and North Africa Dawn Chatty, 2018-11-12 A scholarly volume devoted to an understanding of contemporary nomadic and pastoral societies in the Middle East and North Africa This volume recognizes the variable mobile quality of the ways of life of these societies which persist in accommodating the nation state of the 20th and 21st century but remain firmly transnational and highly adaptive Composed of four sections around the theme of contestation it includes examinations of contested authority and power space and social transformation development and economic transformation and cultures and engendered spaces

Legitimacy, Illegitimacy, and the Right to Rule Gordon K. Oest, 2012-02-04 This book explores the portrayal of the rise reign and demise of Abimelech in Judges 9 and asks about whose interests this portrayal may have served The negative depiction of Abimelech s kingship in this chapter coupled with Gideon s rejection of kingship in Judges 8 22 23 has led interpreters to view the passage as anti monarchic This perspective clashes with the pro monarchic stance of Judges 17 21 However while the portrayal of Abimelech s kingship is negative it may yet have served as a legitimation strategy for the monarchy In support this study examines Judges 9 through three methodological lenses a narrative analysis a rhetorical analysis and a social scientific analysis In addition anthropological data on early and developing states shows that such states attempt to prevent fissioning the tendency inherent within political systems to break up and form other similar units by subverting local leaders groups and institutions and so legitimate the centralization of power When read in this light Judges 9 supports monarchic interests by seeking to subvert localized rule and alliances in favor of a centralized polity

Nikolay Antov,2017-12-28 In the late fifteenth century the north eastern Balkans were under populated and under institutionalized Yet by the end of the following century the regions of Deliorman and Gerlovo were home to one of the largest Muslim populations in southeast Europe Nikolay Antov sheds fresh light on the mechanics of Islamization along the Ottoman frontier and presents an instructive case study of the indigenization of Islam the process through which Islam in its diverse doctrinal and socio cultural manifestations became part of a distinct regional landscape Simultaneously Antov uses a wide array of administrative narrative literary and legal sources exploring the perspectives of both the imperial center and regional actors in urban rural and nomadic settings to trace the transformation of the Ottoman polity from a frontier principality into a centralized empire Contributing to the further understanding of Balkan Islam state formation and empire building this unique text will appeal to those studying Ottoman Balkan and Islamic world history State Failure in the Middle East Neil Partrick,2025-09-03 The collapse of the regime of Bashar al Assad in Syria begs the question as to why that country so lacked institutional and organized capacity that the Syrian state melted away In neighbouring Lebanon the state has been absent in any meaningful sense for much of the country s independent history while powerful sectarian interest groups dominate governance and maintain their own armed options In Iraq the state has collapsed twice since the US led invasion of 2003 and is currently existing in parallel with armed sectarian militias whose political wings utilize governmental apparatus to further their narrow interests In Yemen there is no single state encompassing its internationally recognized boundaries but instead there are three competing authorities ruling different parts of the country This book assesses why the state is failing in these four particular cases and where relevant examines common explanatory themes while remaining mindful of each country s distinct domestic and international context Much of the material is based on research carried out in the countries themselves involving interviews with existing or former state officials their advisers senior analysts or those seeking state authority Through this process a debate is conducted as to where power lies in each of the four cases This book will be invaluable for anyone seeking to understand how the state does or rather does not operate in these four Middle Eastern examples including academics students and postgraduates and professionals with an interest in the Middle East

Kurdish Notables and the Ottoman State Hakan Ozoglu,2012-02-01 Kurdish nationalism remains one of the most

critical and explosive problems of the Middle East Despite its importance the topic remains on the margins of Middle East Studies Bringing the study of Kurdish nationalism into the mainstream of Middle East scholarship Hakan zog lu examines the issue in the context of the Ottoman Empire Using a wealth of primary sources including Ottoman and British archives Ottoman Parliamentary minutes memoirs and interviews he focuses on revealing the social political and historical forces behind the emergence and development of Kurdish nationalism Contrary to the assumption that nationalist movements contribute to the collapse of empires the book argues that Kurdish leaders remained loyal to the Ottoman state and only after it became certain that the empire would not recover did Kurdish nationalism emerge and clash with the Kemalist brand of Turkish nationalism

Tribal Nation Adrienne Lynn Edgar,2006-09-05 On October 27 1991 the Turkmen Soviet Socialist Republic declared its independence from the Soviet Union Hammer and sickle gave way to a flag a national anthem and new holidays Seven decades earlier Turkmenistan had been a stateless conglomeration of tribes What brought about this remarkable transformation *Tribal Nation* addresses this question by examining the Soviet effort in the 1920s and 1930s to create a modern socialist nation in the Central Asian Republic of Turkmenistan Adrienne Edgar argues that the recent focus on the Soviet state as a maker of nations overlooks another vital factor in Turkmen nationhood the complex interaction between Soviet policies and indigenous notions of identity In particular the genealogical ideas that defined premodern Turkmen identity were reshaped by Soviet territorial and linguistic ideas of nationhood The Soviet desire to construct socialist modernity in Turkmenistan conflicted with Moscow s policy of promoting nationhood since many Turkmen viewed their backward customs as central to Turkmen identity *Tribal Nation* is the first book in any Western language on Soviet Turkmenistan the first to use both archival and indigenous language sources to analyze Soviet nation making in Central Asia and among the few works to examine the Soviet multinational state from a non Russian perspective By investigating Soviet nation making in one of the most poorly understood regions of the Soviet Union it also sheds light on broader questions about nationalism and colonialism in the twentieth century

Between Empires Greg Fisher,2011-04-14 In *Between Empires* Greg Fisher tackles the problem of pre Islamic Arab identity by examining the relationship between the Roman Empire and the Empire of Sasanian Iran and a selection of their Arab allies and neighbours the Jafnids Nasrids and Hujrids Fisher focuses on the last century before the emergence of Islam and stresses the importance of a Near East dominated by Rome and Iran for the formation of early concepts of Arab identity In particular he examines cultural and religious integration political activities and the role played by Arabic as factors in this process He concludes that interface with the Roman Empire in particular played a key role in helping to lay the foundation for later concepts of Arab identity and that the world of Late Antiquity is as a result of enduring interest in our understanding of what we now call the Middle East
