Turner Life And Landscape Discoveries:

Turner Olivier Meslay, Joseph Mallord William Turner, 2005 Om den engelske maler William Turner 1775 1851

Turner and Constable Nicola Moorby, 2025-03-11 Born just fourteen months apart one in London and the other in rural Suffolk J M W Turner and John Constable went on to change the face of British art The two men have routinely been seen as polar opposites not least by their peers Differing in temperament background beliefs and vision they created images as dissimilar as their personalities Yet in many ways they were fellow travellers As children of the late 18 th century both faced the same challenges and opportunities Above all they shared common cause as champions of a distinctively British art Through their work they fought for the recognition and appreciation of landscape painting and in doing so ensured their reputations were forever intertwined and interlinked Nicola Moorby offers us a fresh perspective on two extraordinary artists uncovering the layers of fiction that have embellished and disguised their greatest achievements For Turner it is also the story of the triumph of landscape painting

Turner James Hamilton, 2009-03-12 J M W Turner was a painter whose treatment of light put him squarely in the pantheon of the world s preeminent artists but his character was a tangle of fascinating contradictions While he could be coarse and rude manipulative ill mannered and inarticulate he was also generous questioning and humane and he displayed through his work a hitherto unrecognized optimism about the course of human progress With two illegitimate daughters and several mistresses whom Turner made a career of not including in his public life the painter was also known for his entrepreneurial cunning demanding and receiving the highest prices for his work Over the course of sixty years Turner traveled thousands of miles to seek out the landscapes of England and Europe He was drawn overwhelmingly to coasts to the electrifying rub of the land with the sea and he regularly observed their union from the cliff the beach the pier or from a small boat Fueled by his prodigious talent Turner revealed to himself and others the personality of the British and European landscapes and the moods of the surrounding seas He kept no diary but his many sketchbooks are intensely autobiographical giving clues to his techniques his itineraries his income and expenditures and his struggle to master the theories of perspective In Turner James Hamilton takes advantage of new material discovered since the 1975 bicentennial celebration of the artist s birth paying particular attention to the diary of sketches with which Turner narrated his life Hamilton s textured portrait is fully complemented by a sixteen page illustrations insert including many color reproductions of Turner s most famous landscape paintings Seamlessly blending vibrant biography with astute art criticism Hamilton writes with energy style and erudition to address the contradictions of this great artist

Turner and the Masters Tate Britain (Gallery), 2009-09 J M W Turner 1775 1851 is widely regarded as the greatest painter Britain has ever produced Despite the many books and exhibitions that have been devoted to him there is one aspect of his extraordinary oeuvre that has never been thoroughly examined Uniquely in the history of European art he took on all comers past and present that he considered worthy of a challenge creating his own images in their styles These works were both acts of homage and a sophisticated form of art criticism demonstrating his understanding of great art and his ability to equal or better the most celebrated exponents of the landscape tradition No artist however revered was considered beyond challenge This unique habit is clearly a key to understanding Turner s art yet the issue is one that has so far never been thoroughly addressed on Turner and on British art of the 18th and 19th centuries In *Turner and the Masters* leading authorities explore this fascinating aspect of his career revealing new detail on the debts and rivalries that shaped his work in often unexpected ways Accompanying a major touring exhibition that brings together works by Turner with masterpieces by Claude Canaletto Ruisdael Van de Velde Poussin Rubens and Rembrandt as well as by Turner s contemporaries including Constable and Bonington this book firmly positions Turner in the company of the greatest painters of all time The contributors include Guillaume Faroult Sarah Monks Martin Myrone Kathleen Nicholson Philippa Simpson and Ian Warrell

Turner on the Seine Ian Warrell, Tate Gallery, 1999 Turner published two volumes of views of the River Seine in the early 1830s when he was at the height of his success All of the watercolours he completed for the project are reproduced in this book along with many of his preliminary studies As the text demonstrates the watercolours are born out of Turner's long familiarity with the river His views came as part of an explosion in the market for travel books particularly for the area between Paris and the coast and a number of these comparable publications with their illustrations by some of Turner's finest rivals are discussed The book also examines how Turner confronted the technical innovations of the new age making contemporary features such as canals and steamboats the subjects of his pictures and thereby preparing the ground for masterpieces such as *The Fighting Temeraire*
