inherently marginalized and isolated in the old world of television Rethinking Television Formats focuses on the unlikely Israeli turn of fortune in the era of the global format to tell a wider and alternative story about the very nature of formats In tracing Israeli television s rise to be a leader in designing and distributing globally tradable innovative televisual concepts this book explores the deeper reasons that allowed formats to so radically transform long held hierarchies in the global television system

Television Across Asia Michael Keane,Albert Moran,2003-10-16 This book explores the trade in television program formats which is a crucially important ingredient in the globalisation of culture in Asia It examines how much traffic there is in program formats the principal direction of flow of such traffic and the economic and cultural significance of this trade for the territories involved and for the region as a whole It shows how new technology deregulation privatisation and economic recession have greatly intensified competition between broadcasters in Asia as in other parts of the world and discusses how this in turn has multiplied the incidence of television format remakes with some countries developing dedicated format companies and others becoming net importers and adapters of formats
