Twentieth Century Theologians A New Introduction To Modern Christian Thought:

Twentieth-Century Theologians Philip Kennedy, 2010-01-30 One needs to be a lunatic to become a Christian the 19th century Danish philosopher Soren Kierkegaard once observed Had he lived in the 20th century he might have discerned even more of an obstacle to faith For during the last century the human condition changed more rapidly than during any previous era taking that condition far away from the historical circumstances in which Christianity was born In his new book Philip Kennedy explores the ways Christian theologians of the 20th century tried to live a productive religious life in a world overtaken by massive upheaval and innovation The book is distinctive in a number of respects First it differs from other surveys of theology by adopting a biographical method examining the lives of its subjects in historical context Second it is more progressive than its competitors covering many theologians other than white male professors especially women who have worked outside the academy or on the margins of the churches Third it is international focusing on theologians in all the continents of the world rather than just Europe or North America Fourth it makes no assumptions that its readers are religious or that theology is uniquely credible There is a need for a sensitive new textbook reassessing the subject in the light of modern concerns and scepticism about religion This book meets that need **The Modern Theologians** David F.

Ford, 2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century The legacies of Albert Schweitzer reconsidered Izak J.J. Spangenberg, Christina Landman, Amadi Enoch Ahiamadu, Johan Booyse, Pieter Botha, Cornel du Toit, Garth Mason, Menard Musendekwa, Eben Scheffler, Lovemore Togarasei, Andries van Aarde, 2016-12-31 This book on the legacy of Albert Schweitzer contextualises this remarkable intellectualist humanist medicine man theologian and Nobel Prize winner This collected work is aimed at specialists in the humanities social sciences education and religious studies The authors embrace philanthropic values to benefit Africa and the world at large The publication engages with peers on the relevance of Schweitzer's work for humanitarian values in Africa The essays in the book stimulate further research in the various fields in which Schweitzer excelled Its academic contribution is its focus on the post colonial discourse in contemporary discussions both in South Africa and Africa at large The book emphasises Schweitzer's reverence for life

philosophy and demonstrates how this impacts on moral values. However, the book also points to the possibility that Schweitzer's reverence for life philosophy is embedded in a typically European appreciation of mysticism that is not commensurate with African indigenous religious values. From an African academic perspective, the book advocates the view that Schweitzer's concept of the reverence for life supports not only the Biblical notion of *imago Dei* but also the African humanist values of the preservation and protection of life, criticising the exploitation of the environment by warring factions and large companies, especially in oil-producing African countries. It also argues that Schweitzer's disposition on ethics was influenced by the Second World War, his sentiments against nuclear weapons, and his resistance to the Enlightenment view of civilisation. With regard to Jesus studies, the book elucidates values promoted by Schweitzer by following in Jesus' steps and portraying Jesus' message within a modern world view. Taken over from Schweitzer, the book argues that Jesus' moral authority resides in his display of love and his interaction with the poor and marginalised. The book demonstrates Schweitzer's understanding of Jesus as the one who sacrifices his own life to bring the Kingdom of God to realisation in this world. The book commends Schweitzer's insight that we know Jesus through his toils on the one hand and through our own experiences on the other. It is in a mixture between the two that the hermeneutical gap between then and now is bridged. It is precisely in bridging this gap that Schweitzer sees himself as an instrument of God's healing. It defines Schweitzer as the embodiment of being a healer, educationalist, and herald of the greening of Christianity. His philosophy on the reverence for life prepares a foundation for Christians to think green about human life within a greater environment. He advocates aspects of education such as lifelong learning, holistic education, and a problem-based approach to education. Finally, the book analyses both critically and appreciatively Albert Schweitzer's contribution to the concepts of religious healing prevalent in African Christianity today.

The Modern Theologians: An Introduction to Christian theology in the twentieth century, Second Edition David F. Ford, 1997-01-30. This is a thoroughly revised and expanded edition of *The Modern Theologians* and is now available in a single volume. It provides a comprehensive and accessible introduction to the main Christian theologies of the twentieth century and is the ideal text for students at universities, colleges, and seminaries. Each chapter is written by a leading theologian and gives a clear picture of a particular movement, topic, or individual theologian.

Suspended God Maeve Louise Heaney, 2022-03-24. Heaney traces the hidden history of music's presence in Christian thought, including its often unrecognized influence on key figures such as von Balthasar, Barth, and Bonhoeffer. She uses Lonergan's theological framework to explore musical composition as a theological act, showing why, when, and how music is a useful symbolic form. The book introduces eleven ground-breaking theologians, and each chapter offers an entry point into the thought of the theologian being presented through an original piece of music, which can be found on the companion website <https://bloomsbury.pub/suspendedgod>. Heaney argues that music is a universally important means of making sense of life, with which theology needs to engage as a means of expression and of development. Musical composition is presented as an

appropriate and even necessary form of doing theology in its quest to engage with the past mediate truth to the present and tradition it into the future

Dialogue Derailed Ambrose Mong, 2014-11-17 Joseph Ratzinger has shaped and guided the church s understanding of its mission to proclaim the good news as well as to forge good relations with non Catholic Christian communities other religious traditions and the secular world at large Through a critique of Ratzinger s theology this book draws attention to the importance of theological discourses originating from non European contexts Mong highlights the gap between a dogmatic understanding of the faith

and the pastoral realities of the Asian church as well as the difficulties faced by Asian theologians trying to make their voices heard in a church still dominated by Western thinking While Mong concurs with much of Ratzinger's analysis of the problems in modern society such as the aggressive secularism and crisis of faith in Europe he focuses attention on the realities of religious pluralism in Asia which require the church to adopt a different approach in its theological formulations and pastoral practices *The New Werner Twentieth Century Edition of the Encyclopaedia Britannica*, 1906 **Modern Christian**
