UBUNTU Contributionism Michael Telling, 2013 *UBUNTU Contributionism A Blueprint For Human Prosperity* The path that brought us here as a species is not only filled with lies and deception of unimaginable proportion but also with continuous manipulation of the human race that goes back thousands of years all controlled by money Michael Telling has come full circle since his epic *Slave Species of God* in 2006 by proposing a blueprint for the emancipation of the slave species called humanity Telling exposes the previously misunderstood origins of money and the rise of the royal banking elite that have controlled the world for millennia and continue to do so today through the modern banking families He points out that money did not evolve from thousands of years of barter and trade but that it was maliciously introduced to the human race as a tool of absolute control and enslavement Telling makes a strong case that if we do not understand our human origins we cannot come to terms with why the world is so messed up in the 21st century He demonstrates that our current situation presents us with a unique opportunity to change the course of our destiny Michael Telling describes how the ancient African philosophy of UBUNTU will allow us to seamlessly move from a divided money driven society to united communities driven by people their passion for life and their God given talents Coming to terms with our enslavement as a species is critical to discovering the path to full enlightenment UBUNTU Contributionism presents a solid foundation for a new social structure to take us into a new era of true freedom from financial tyranny and real prosperity on every level of human endeavour Find out about the UBUNTU Movement's plan of action called ONE SMALL TOWN Will Change The World Get involved and become a seed of consciousness and real change in your community www.ubuntuplanet.org *Earthrise: Conscious Creation of UBUNTU/Contributionism Communities* Michael Moriarty, 2017-09-18 This book picks up where my last book *The Awakening of Humanity What You Need to Know* left off with a possible future timeline that leads to a New Earth The political and economic foundation of that New Earth civilization lies in UBUNTU Contributionism Communities In this book I explain what it will take to create attract such Communities and why it is of some urgency that those who wish to live in them begin to create attract them now *The Awakening of Humanity: What You Need to Know* Michael Moriarty, 2017-08-29 The book will seek to orient the newly awakened to the situation that they find themselves in on this planet to how they seem to be powerless but in truth are in possession of all power It will show them how they can liberate themselves from their seeming slavery Finally it will show them that by applying the Law of Attraction in order to create their own version of Paradise on Earth they can help heal Humanity heal the Earth and reintegrate the planet into the Galactic community as an ascended 4th Density civilization **Journal of Moral Theology, Volume 14, Issue 2** M. Macamo, Jean-Bernard Ouédraogo, 2019-01-17 How realistic is it to expect translation to render the world intelligible in a context shaped by different historical trajectories and experiences Can we rely on human universals to translate through the unique and specific webs of meaning that languages represent If knowledge production is a kind of translation then it is fair to assume that the possibility of translation has largely rested on the idea that Western experience is the repository of these human universals against the background of which different human experiences can be rendered intelligible The problem with this assumption however is that there are limits to Western claims to universalism mainly because these claims were at the service of the desire to justify imperial expansion This book addresses issues arising from these claims to universalism in the process of producing knowledge about diverse African social realities It shows that the idea of knowledge production as translation can be usefully deployed to inquire into how knowledge of Africa translates into an imperial attempt at changing local norms institutions and spiritual values Translation in this sense is the normalization of meanings issuing from a local historical experience claiming to be universal The task of producing knowledge of African social realities cannot be adequately addressed without a prior critical engagement with how

translation has come to shape our ways of rendering Africa intelligible Slave Species of God Michael Tellinger,2017-07-26
Were humans created by god as SLAVES Was Abraham the first human SPY Was Jesus an accidental MESSIAH Michael
Tellinger takes the readers on a remarkable odyssey of the true origins of humankind He masterfully weaves together a very
different tale of our origins by connecting the dots between history archaeology mythology religion scientific breakthrough
genetics and the startling information derived from the Sumerian clay tablets He points out the critical difference between
the GOD with a big G and the gods with a small g clearing up millennia of confusion and conflict in the name of God In Slave
Species of god Tellinger achieves the following draws clear and startling analogies between new discoveries in genetic
engineering and ancient archaeological finds highlights emerging scientific information overlooked in the past unravels the
Bible s often obscure stories by linking these to their original forms in Sumerian clay tablets and other prehistoric writings
provides explicit answers to why our modern world has become so senseless and chaotic by revealing the very secrets of our
prehistory While shattering myths about evolution and God Slave Species of god enables evolutionists and creationists to
finally co exist in one pond The arguments are compelling simple and refreshing retracing the path of human evolution from
the murky distant past to the religious dogma that haunts humankind today The question of who we are and where we come
from takes on a new meaning as we discover that our DNA may have been manipulated by our CREATOR some 250 000 years
ago to produce a less intelligent primitive species Tellinger delivers compelling evidence that Adam and Eve were not the
apple of God s eye as first suggested in Genesis Tellinger presents the many arguments and evidence succinctly and
convincingly pointing out the difference between GOD and god How did this genetic manipulation affect humankind How
have we evolved in 250 000 years Can we achieve immortality These are just some of the questions answered in this gripping
and astonishing work challenging all those who are looking for new answers in the 21st century **Adam's Calendar** Johan
Heine,Michael Tellinger,2008 Archaeological discoveries that answer the questions concerning the origins of man

Temples of the African Gods Michael Tellinger,Johan Heine,2009 Archaeologists have recently discovered that the first
civilization were also the people who carved the first Horus bird the first Sphinx built the first pyramids and built an accurate
stone calendar right in the heart of it all Adam s Calendar is the flagship among millions of circular stone ruins ancient roads
agricultural terraces and thousands of ancient mines left behind by a vanished civilisation which we now call the First People
They carved detailed images into the hardest rock worshipped the sun and are the first to carve an image of the Egyptian
Ankh key of life and universal knowledge 200 000 years before the Egyptians came to light This book graphically exposes
these discoveries and will be the catalyst for rewriting our ancient human history The book is a continuation of Tellinger s
previous books Slave Species of God and Adam s Calendar Publisher description Ubuntu Unleashed Matthew
