Urban Tourism in the Global South Christian M. Rogerson, Jayne M. Rogerson, 2021-07-13 This book examines and addresses the particular character of urban tourism occurring in the global South. It presents research essays on tourism in urban areas of South Africa, a country which is associated with big 5 nature tourism but where urban areas are also major tourism destinations. The book contextualizes urban tourism in South Africa as part of the other half of urban tourism, an overlooked but energetic scholarship which is emerging on urban places in the global South. The volume moves to present a collection of original material variously on national perspectives on urban tourism following by a cluster of city level perspectives. The last three contributions turn to the role of tourism in small towns, the bottom rung in the urban settlement system. Issues of concern include gastronomic tourism, VFR travel, airports, landscapes, climate change, Airbnb and creative tourism. Finally, as COVID 19 is potentially a defining historical moment for urban tourism, the volume incorporates historical research perspectives in order to address the overwhelming present mindedness of mainstream urban tourism writings. The book highlights the challenges and opportunities for tourism development in the environment of the urban global South and is relevant to scholars of both tourism and urban studies as well as researchers in development studies.

Serving Higher Purposes Ihron Rensburg, 2020-11-05 Universities of the 21st century and beyond must be about teaching, learning, research excellence, creativity and innovation as much as they must be about enabling the destiny of students, communities and nations to realize their potential. UJ succeeded in her vision and responsibilities to transform the divisions, prejudices and limitations that often restrain the advancement of society. The story of UJ's transition to an inclusive, diverse, dynamic, bold and purposeful institution of learning demands to be read by everyone South African, African and beyond. It is a story of how to be an object rather than the subject of history while dynamically shaping our shared futures, laying a solid foundation for future generations to be advocates and architects for social change and cohesion. It is a story of courageous and visionary leadership. The book offers our nation profound lessons in leadership that should enrich all our efforts to transform institutions in a sustainable way to play a meaningful role in building ONE NATION.
