Cronin, 2010-11-05 In carefully crafted official statements the European Union presents itself as an honest broker in the Middle East In reality however the EU's 27 governments have been engaged in a long process of accommodating Israel's occupation of Palestinian territories Journalist David Cronin interrogates the relationship and its outcomes A recent

agreement for more intense more fruitful more influential co operation between the EU and Israel has meant that Israel has become a member state of the Union in all but name Cronin shows that rather than using this relationship to encourage Israeli restraint the EU has legitimised actions such as the ill treatment of prisoners and the Gaza invasion Concluding his revealing and shocking account Cronin calls for a continuation and deepening of international activism and protest to halt the EU s slide into complicity

Europe and Global Security Bastian Giegerich,2017-10-03 In the twenty first century the European Union is confronted by myriad security problems that demand concerted action and cooperation As a negotiating power it seeks to persuade Iran to forswear a nuclear weapons programme As a crisis manager it seeks to contribute to global peace and stability through civilian and military operations Closer to home it is wrestling with questions about membership enlargement large scale migration and terrorist threats to the security of its populations and infrastructure European governments already under financial strain from ageing workforces and welfare systems face ever more difficult choices about budget cuts in security and defence after the near collapse of the global banking system Will it be possible to enhance cooperation between member states How can the EU complete its transition from a security actor with great potential to a player that credibly aligns available policy instruments and resources These and other issues about the very nature and identity of the Union are explored in this Adelphi From the need to establish its hard power credentials overcome its reluctance to demonstrate them against non compliant states and leverage its relationships with other great powers to attempts to break its dependence on Russian energy it is clear the EU has its work cut out But by affirming its commitment to multilateralism and defining a careful balance between closer cooperation and the national security concerns of EU member states this book suggests the European Union can build on its status as a global security power in the making
