Vanderbilt Law School Aspirations And Realities:

Vanderbilt Law School Don Welch, 2008 The Law Department was one of two departments that opened for classes in the fall of 1874 in the newly founded Vanderbilt University The operation of the institution in the nineteenth century was governed by a quasi proprietary model which was abandoned in 1900 when the University made the school a more integral part of the academic enterprise The first half of the twentieth century was a struggle for survival The School faced a number of obstacles including the educational and cultural headwinds that all Southern educational institutions faced limited resources and a University hesitant to embrace national trends in legal education These realities resulted in the School's expulsion from the Association of American Law Schools in 1926 A renaissance of sorts began under Dean Earl C Arnold a few years later but was ultimately snuffed out by the Great Depression and then the onset of World War II The Law School's doors were closed in 1944 Vanderbilt Law School reopened in 1946 and John W Wade's twenty year deanship beginning in 1952 set the School on a new path While the institution's continued existence was no longer in doubt the School encountered new tensions and conflicts Vanderbilt became the first integrated Southern private law school in 1956 as part of a broader movement to diversify its faculty and student body The movement from regional to national aspirations created new fault lines among the School's constituencies as did the debate among the faculty over the relative priorities of teaching and research Throughout the century developments in the academic program reflected and contributed to the new modern understandings of legal education This history is based on interviews and extensive archival research in personal papers reports Board of Trust and faculty meeting minutes The Crusade for Equality in the Workplace Robert Belton, 2014-04-14 On March 8 1971 the Supreme Court of the United States decided a case *Griggs v Duke Power Co* brought by thirteen African American employees who worked as common laborers and janitors at one of Duke Power's facilities The decision in plaintiffs favor marked a profound and enduring challenge to the dominance of white males in the workplace In this book Robert Belton who represented the plaintiffs for the NAACP Legal Defense Fund and argued the case in the lower courts gives a firsthand account of legal history in the making and a behind the scenes look at the highly complex process of putting civil rights law to work Title VII of the Civil Rights Act of 1964 eliminated much blatant discrimination but after its enactment and before *Griggs* businesses held the view that a commitment to equality required only eliminating policies and practices that were intentionally discriminatory the disparate treatment test In *Griggs v Duke Power Co* the Supreme Court ruled that a disparate impact test could also apply that the 1964 Civil Rights Act extended to practices with a discriminatory effect In tracing the impact of the *Griggs* ruling on employment practices this book documents the birth maturation death and rebirth of the disparate impact theory including its erosion by later Supreme Court decisions and its restoration by congressional action in the Civil Rights Act of 1991 Belton conducts us through this historic case from the original lawsuit to the Supreme Court decision in *Griggs* and beyond as he traces the post *Griggs* developments in the lower courts the Supreme Court and

Congress he provides informed insights into both litigators and judges perspectives and decision making His work situates the case in its legal social and historical contexts and explores the relationship between public and private enforcement of the law with a focus on the Legal Defense Fund s litigation campaign against employment discrimination A detailed examination of the development of legal principles under Title VII this book tells the story of this seminal decision on equal employment law and offers an unprecedented close up view of personal conviction legal strategy and historical forces combining to effect dramatic social change
