The Urban Circus The Urban Circus:

Urban Circus Catriona Rainsford, 2013-05-21 A vivid personal account of Mexico's itinerant street performers Urban Circus Kate Downie, Collins Gallery, 1990 Urban Circus I-Ling Eleen Lin, 2007 Imagining Urban Complexity Frans-Willem Korsten, Anthony T. Albright, 2024-07-30 *Imagining Urban Complexity* introduces passionate and critical perspectives on the link between the humanities and urban studies. It emphasizes tropes, media, and genres as cultural techniques that shape complexity in urban environments by distributing affordances, modes of sensing, and modes of sense-making. Focusing on urban political and cultural dynamics in 24 global cities, the book shows that urban environments are thematized in literature and art but are also entities that are shaped, perceived, interpreted, and experienced through sense-making techniques that have long been central concerns of the humanities. These techniques, the book argues, activate a dialectic between urban imaginations and cancellations. Tropes, media, and genres are aesthetically and politically powerful; they propel imaginations and open up multiplicities of urban possibilities; they naturalize actualized orders and they cancel alternatives. The book moves between close readings of city spaces and more systemic and infrastructural approaches to urban environments, providing tools and strategies that can be adapted and extended to understand urban complexity in different cultural and political contexts. The book speaks to global audiences from a continental philosophical tradition. It is relevant to undergraduates, postgraduates, and academic researchers in the fields of critical urban studies, urban design, comparative literature, cultural studies, cultural analysis, ecocriticism, political theory, and ethics. **Rural Fictions, Urban Realities** Mark Storey, 2015-11 This study of late 19th-century American literature uses the period's rural fiction to reveal the increasingly intricate and sometimes problematic connections between urban and rural life. *Encyclopedia of Urban America [2 Volumes]* Neil L. Shumsky, 1998-10 This monumental work provides detailed definitions and context for the many terms and names encountered while studying the development and significance of the metropolis, the megalopolis, and of course the newly discovered edge city, among other strains of suburb. Includes 547 entries highlighting cultural and social phenomenon, economic and political issues, environmental concerns, transportation and infrastructure, ethnic and racial groups, the role of religion, and key figures in urban politics, literature, art, and music. The editor's introductory essay discusses the definition of urban and the development of urban studies. Annotation copyrighted by Book News Inc. Portland, OR.

Urban Design: Ornament and Decoration Taner Oc, Steve Tiesdell, 2007-06-07 *Urban Design: Ornament and Decoration* focuses on decorating the city and how ornament has been used to bring delight to the urban scene. The authors show how the pattern and distribution of street and square and other major elements in the city can be enhanced by the judicious use of decorative surface treatment and by the careful placing of hard and soft landscape features. This second edition, updated by Cliff Moughtin and now available in paperback, includes a new chapter on mud architecture. Case studies of city decoration are also outlined to bring together the ideas discussed and to show how ornament and decoration can be

used to emphasize the five components of city form the path the node the edge the landmark and the district **Urban Dreams and Realities in Antiquity**, 2014-11-20 A unique variety of approaches to all aspects of urban culture in the ancient world can be found in *Urban Dreams and Realities in Antiquity* a collection of 19 essays addressing ancient cities from an interdisciplinary perspective As the title indicates the volume considers both how ancient people lived in their cities as physical structures and how they thought with them as ideas and symbols Essays in this volume deal with texts and sites from Spain to South India but there is a particular focus on the archaeology and epigraphy of Roman era Italy civic identity in the Roman provinces the Hebrew Bible and Early Christian literature Vergil and other imperial Latin authors

Environment and Urban Development I. Mohan, 1992 With special reference to slums in India *Children, Nature, and the Urban Environment*, 1977 *The Beginnings of American Urban Life* Hattie Gertrude Hicks, 1923 Urban Design Cliff Moughtin, Taner Oc, Steven Tiesdell, 1995 This book offers a detailed analysis of urban design covering the streets squares and building that make up the public face of towns and cities It includes the arrangement design and details of these elements and the roles they play in city planning *Gas World*, 1901 New Urban News, 2001 The Urban Transformation of Medieval Rome, 312-1420 Torgil Magnuson, 2004 *The Annual Meeting - Association of Urban Universities* Association of Urban Universities, 1927 **Urban Democracy** Chester Collins Maxey, 1929 The Politics of Urban Development Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories *The Politics of Urban Development* argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference **Civilizing the Urban** Andy Croll, 2000 Early industrial Merthyr is synonymous with the darker side of the British urban experience This work considers the efforts of dedicated civic boosters to civilize the town's public spaces and its inhabitants and shows how this vision of Merthyr depended on the taming of popular culture
