The Urban Department Store in America, 1850-1930 Dr Louisa Iarocci, 2014-12-28 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Iarocci reaches beyond the analysis of the brick and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces *The Urban Department Store in America, 1850-1930* Louisa Iarocci, 2014 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants

The Making of Urban America Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition The authors extensively revised

introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city. With emphasis on the social, economic, political, commercial, and cultural aspects of urban history, these essays illustrate the growth and change that created modern day urban life. Dynamic topics such as technology, immigration, and ethnicity, suburbanization, sunbelt cities, urban political history, and planning and housing are examined. *The Making of Urban America* is the only reader available that covers all of U.S. urban history and that also includes the most recent interpretive scholarship on the subject.

Feeling Lucky Paul Franke, 2023-07-13. Monte Carlo and Las Vegas have become synonymous with casino gambling. Both destinations featured it as part of a broad variety of leisure and consumption opportunities that normalized games of chance and created emotional atmospheres that supported the hedonistic aspects of gambling. Urban spaces and architecture were carefully designed to enable a rapid growth of the casino industry and produce experiences on previous unimaginable scale. *Feeling Lucky* is a making of story about cities which acquired a strange and captivating allure of mystery around them. It is more than a mere descriptive account; however, combining urban history, the history of consumption, and sociological approaches, it presents a compelling comparative history of Monte Carlo and the Las Vegas Strip between the 1860s and 1970s. Paul Franke takes the reader on a journey from arriving at the cities through the carefully planned urban environments and into the famous casinos. The analysis follows the paths contemporary gamblers would have taken right to the gambling tables and to the shifting gambling practices across a century. Franke shows that casino entrepreneurs succeeded in producing and selling gambling experiences by controlling spaces, adapting leisure practices, and appealing to specific markets. Gamblers, on the other hand, regarded Monte Carlo and Las Vegas as places to engage in games of chance that would allow them to preserve their political, cultural, and moral identities.

Narrating the Landscape Matthew N. Johnston, 2016-04-14. The American nineteenth century saw a largely rural nation confined to the Eastern Seaboard conquer a continent and spawn increasingly dense commercial metropolises. This time of unprecedented territorial and economic growth has long been thought to find its most sweeping visual equivalent in the period's landscape paintings. But as Matthew N. Johnston shows, the age's defining features were just as clearly captured in and motivated by visual material mass produced through innovations in printing technology. Illustrated railroad and steamboat guidebooks, tourist literature, reports of geological surveys, ethnographic studies—all of these new print vehicles brought new meanings to the interplay of time, space, and place as American continental expansion peaked. Instrumental to that project of national and industrial growth, these commercial and scientific publications introduced readers, travelers, and citizens to a changing North American landscape made more accessible by new travel routes blazed between 1825 and 1875. More fundamentally, as Johnston shows in his nuanced analysis, by simulating new temporal frameworks through their presentation of landscape, these print materials established new models of consumption and new kinds of knowledge critical to expansion. Johnston relates these sources to traditional art historical subjects: the landscapes of the Hudson River school, luminist paintings, by

John Kensett and William Trost Richards Native portraits painted by George Catlin and photographs by Timothy O Sullivan to show how key discourses associated with expansion shifted away from picturesque strategies pairing imagery and narrative toward entirely new forms that gave temporal structure to viewers experience of an emerging modernity Revealing the crucial role of print and visual culture in shaping the nineteenth century United States Narrating the Landscape offers fresh insight into the landscapes Americans beheld and imagined in this formative era Urban Appetites Cindy R.
