The Us Japan Security Alliance Regional Multilateralism:

The U.S.-Japan Security Alliance T. Inoguchi, 2011-09-12 In this book American and Japanese experts examine to what extent diverging priorities in the U S Japan alliance are real and whether they are not remedied with political and diplomatic leadership and other processes American and Japanese authors are paired to analyze the same topic where doing so is possible for comparing their perspectives *The U.S.-Japan Security Alliance in the 21st Century* Michael J. Green, Mike Mochizuki, 1998 In fall 1996 the Council on Foreign Relations formed a Study Group chaired by Harold Brown of CSIS and Richard Armitage of Armitage and Associates to reexamine current assumptions and explore the factors affecting the evolution of this crucial alliance *Japan and Multilateral Diplomacy* Philippe Régnier, Daniel Warner, 2017-10-05 This title was first published in 2001 Japan has a long history of being isolated from multilateral diplomacy With its increasing economic power Japan has become more concerned with external foreign relations and hence more involved in multilateral diplomacy This coherent and interrelated text brings together studies of the central issues involved written by prominent Japanese and Western scholars analyzing the emergence of Japan in multilateral fora from historical domestic and international perspectives Those concerned with international relations will find this text an essential guide for courses and research

The Shifting Sands of Japan's Security Landscape Oktay Kucukdegirmenci, 2024-10-31 This book examines how and where Japan's multi-tiered security approach which was put forward as a policy that emphasizes Japan's more active role in shaping the regional security order in the light of the changing geopolitical balances in the East Asia Pacific in the post Cold War period has evolved in the context of China's rise in the 2000s 2010s and present This book categorizes Japan's foreign and security policy into three tiers bilateralism multilateralism and minilateralism The book offers valuable insights into Japan's foreign and security policies within East Asia and the broader Asia Pacific region including the region's geopolitical landscape and Japan's relationships with major stakeholders It also contributes to understanding inter-regional dynamics and the application of balance of power theory The book targets policymakers involved in foreign and security policy decisions as well as academics researchers journalists and international relations students interested in Japan and the East Asia Indo Pacific region

Japan's Security Policy and the ASEAN Regional Forum Takeshi Yuzawa, 2007-03-27 Based on primary resources including documents and extensive interviews with Japanese policy makers this book provides a comprehensive and detailed empirical analysis of Japan's involvement in Asia Pacific security multilateralism after the end of the Cold War with special reference to the ARF Giving an in-depth account of new developments in Japan's post Cold War security policy Yuzawa also examines Japan's initial motivations expectations and objectives for promoting regional security multilateralism Japan's diplomacy for achieving these objectives and experiences in the ARF since its formation the effectiveness and limitations of the ARF with regards national and Asia Pacific security the effects of Japan's experiences in the ARF on its initial conception of regional security multilateralism and the implications of this for the direction of its overall

security policy problems and difficulties that arose as a result of Japan's post Cold War security policy of simultaneously pursuing two different security approaches namely the strengthening of regional security institutions and the Japan US alliance This book will be an invaluable resource for students and scholars of Japanese security studies as well as international relations Asian politics and international organizations

Shifting Power in Asia-Pacific? Enrico

Fels,2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour With a special emphasis on Sino US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing

Multilateral Asian Security

Architecture See Seng Tan,2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia's multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

Future of the U. S. -Japan Security Alliance Keith W. Allen,2003-06 The U S Japan Security Alliance was the

foundation of the United States bilateral alliance system during the Cold War The alliance suffered severe strains in the immediate aftermath of the Cold War primarily due to the loss of its primary mission containment of Soviet expansion The terrorist attacks of September 11 2001 breathed new life into the alliance Japan quickly joined in the anti terrorism coalition providing logistical support to U S forces involved in the War on Terrorism North Korea's October 2002 admission of a covert

nuclear weapons program also changed the strategic dynamic for Japan pushing it towards normal nation status
Multilateralism in Asia developed a life of its own during the 1990 s Numerous multilateral organizations were created to help resolve regional security issues China is attempting to use multilateral security forums as a means to balance against U S regional power Japan also proposed developing a new multilateral security regime in the Asia Pacific This thesis examines issues related to the future of the U S Japan Security Alliance and the possible emergence of a new multilateral security regime in the Asia Pacific The United States should enhance the U S Japan Security and lead the way on developing a new multilateral security regime for the Asia Pacific **Japan's new security partnerships** Wilhelm Vosse,Paul

Midford,2018-08-17 After decades of solely relying on the United States for its national security needs over the last decade Japan has begun to actively develop and deepen its security ties with a growing number of countries and actors in the Asia Pacific region and Europe a development that has further intensified under the Shinzo Abe administration This is the first book that provides a comprehensive analysis of the motives and objectives from both the Japanese and the partner countries perspectives and asks what this might mean for the security architecture in the Asia Pacific region and what lessons can be learned for security cooperation more broadly This book is for those interested in Japan s security policy beyond the US Japan security alliance and non US centred bilateral and multilateral security cooperation It is an ideal textbook for undergraduate and graduate level courses on regional security cooperation and strategic partnerships and Japanese foreign and security policy Multilateralism and National Strategy in Northeast Asia Nick Eberstadt,Ralph A. Cossa,1996

Security Multilateralism in Asia Ralph A Cossa,1999 ASEAN, Japan, and the United States in the ASEAN Regional Forum Noel M. Morada,2002 Regionalism and Multilateralism Amitav Acharya,2003 These essays written between 1990 and 2000 cover the most significant phase of multilateral institution building in the Asia Pacific region They deal with the emergence of regionalism in Southeast Asia ASEAN s transition to the post Cold War era the role of the ASEAN Regional Forum the engagement of China the changing relationship between sovereignty and regionalism and prospects for the regional institutions such as ASEAN APEC and the ARF after the Asian economic crisis The essays address the most challenging issues of regional order and articulate an institutionalist understanding of international relations in the region This updated second edition includes four new chapters and two revised chapters **The FSI Foreign Affairs Quarterly** ,1999 *Japan's Foreign and Security Policy in the Twenty First Century: Challenges and Alternatives* William Fujii,2009-06-16 Bachelor Thesis from the year 2008 in the subject Politics Region Other States grade 72% First Class Honours University of Greenwich language English abstract This paper argues that because of the new reality of the twenty first century where the United States is beginning to decline China is rising and North Korea has acquired nuclear capabilities Japan may need to rethink its foreign and security policy which are deeply anchored on its alliance with Washington In the light of these new challenges this paper considers potential problems and constraints in Tokyo s current

strategy and suggests it may not be in Japan's best interest to continue pursuing them. Finally alternatives to Japan's security policy are considered and this paper concludes that no single alternative could replace the U.S.-Japan alliance as an effective security policy in the foreseeable future. Rather all the alternatives pursued together would potentially lead to an efficacious option consequently providing Japan's foreign policy with greater independence from the United States. Reinventing the Alliance G. Ikenberry, T. Inoguchi, 2003-12-18 This is an edited volume that examines the U.S.-Japan security alliance the key to U.S.-Japanese relations since the end of US occupation in the 50s. The alliance has long been a source of both co-operation and stress between the two nations but with rapid changes in Asia it has grown more problematic. This book brings American and Japanese specialists together to examine the alliance within the wider regional environment and to determine whether and how the bilateral alliance can evolve and remain at the core of the region's security order. **Emerging Asian-Pacific Multilateralism** Vladimir I. Ivanov, 1992 **Japan's Foreign and Security Policy in the Twenty First Century** William Fujii, 2009-06 Bachelor Thesis from the year 2008 in the subject Politics International Politics Region Other States grade 72% First Class Honours University of Greenwich language English abstract This paper argues that because of the new reality of the twenty first century where the United States is beginning to decline China is rising and North Korea has acquired nuclear capabilities Japan may need to rethink its foreign and security policy which are deeply anchored on its alliance with Washington. In the light of these new challenges this paper considers potential problems and constraints in Tokyo's current strategy and suggests it may not be in Japan's best interest to continue pursuing them. Finally alternatives to Japan's security policy are considered and this paper concludes that no single alternative could replace the U.S.-Japan alliance as an effective security policy in the foreseeable future. Rather all the alternatives pursued together would potentially lead to an efficacious option consequently providing Japan's foreign policy with greater independence from the United States. Japan's Security Strategy and the Relevance and Difficulties of New Roles for the Japan Self-defense Force Junichi Araki, 2000 **New Perspectives on U.S.-Japan Relations** Curtis, Gerald L., 2000-12 How relevant today is an alliance that was forged between a powerful United States and a weak Japan in the context of a cold war struggle with the Soviet Union. In what ways have the changes in the relative power positions of the two countries and the structural changes in the world economy created new challenges to the U.S.-Japan relationship and how are the two countries responding to those challenges. These are some of the important questions addressed by the eight Japanese and American authors of this volume. Their focus ranges from issues of military relations trade and financial management and shifting security perspectives to the roles of the mass media in the bilateral relationship. A truly binational effort the book brings together the thinking of some of the best trained younger political scientists to focus on the present and future of one of the most important bilateral relationships in the world.
