Connecting the Dots Peggy Wireman, 2017-09-08 Despite its size and social diversity the United States is one nation and what happens in one city or neighborhood ultimately affects all Americans *Connecting the Dots* addresses the complex relationships between family and community and between community and other players affecting family and community life including the private sector government nonprofit groups and religious organizations Contrary to much rhetoric Wireman argues that America does not suffer from a loss of family values but from a shift in business practices and public commitments The American dream of work hard buy a home and give your children a better life is no longer realistic for millions of workers both white collar and blue collar At an individual level millions of Americans face significant challenges as they go about trying to meet the everyday responsibilities of earning an income feeding their families maintaining their health finding housing handling everyday household chores and caring for their children Besides identifying top down structures laws and attitudes that create a supportive context for family life the book includes bottom up anecdotal examples to ground its policy oriented discussion It also provides statistical data needed to develop realistic solutions Wireman examines diversity as well since how America handles racial and ethnic differences remains crucial to its future She discusses ways in which communities have created social capital community cohesion and local organizational ability Wireman provides a framework for policymakers local community leaders and neighborhood activists to use in analyzing their situations and selecting the best approach she also describes what various players can and must do to uphold the American dream *Connecting the Dots* will be of keen interest to sociologists political scientists economists and social workers

How Families Matter Simply Complicated Intersections of Race Gender and Work explores the ways adults make sense of their family lives in the midst of the complicated debates generated by politicians and social scientists Given the rhetoric about the family this book is a well overdue account of family life from the perspective of families themselves The purpose of this book is to provide the reader with a whole view of different types of families The chapters focus on contemporary issues such as who do we consider to be a part of our family can anyone achieve family life balance and how do families celebrate when they get together Relying on stories shared by a racially ethnically diverse group of forty six families this book finds that parents and siblings cultivate a family identity that both defines who they are and influences who they become It is a welcomed installment to conversations about the family as families are finally viewed within a single study from a multicultural lens

Marginal Groups and Mainstream American Culture Yolanda Estes, 2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair's England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers Identity on the Margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its

harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change
