Turpin, 1998-07 Women play many roles during wartime This compelling study brings together the work of foremost scholars on women and war to address questions of ethnicity women and the war complex peacemaking motherhood and more It leaves behind outdated arguments about militarist men and pacifist women while still recognizing differences in men s and women s relationships to war Officer, Nurse, Woman Kara Dixon Vuic, 2010-01-01 Winner 2010 Lavinia L Dock Award American Association for the History of Nursing An American Journal of Nursing Book of the Year in History and Public Policy I never got a chance to be a girl Kate O Hare Palmer lamented thirty four years after her tour as an army nurse in Vietnam Although proud of having served she felt that the war she never understood had robbed her of her innocence and forced her to grow up too quickly As depicted in a photograph taken late in her tour long hours in the operating room exhausted her both physically and mentally Her tired eyes and gaunt face reflected the weariness she felt after treating countless patients some dying some maimed all like her forever changed Still she learned to work harder and faster than she thought she could to trust her nursing skills and to live independently She developed a way to balance the dangers and benefits of being a woman in the army and in the war Only fourteen months long her tour in Vietnam profoundly affected her life and her beliefs Such vivid personal accounts abound in historian Kara Dixon Vuic s compelling look at the experiences of army nurses in the Vietnam War Drawing on more than 100 interviews Vuic allows the nurses to tell their own captivating stories from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service Vuic also explores the gender issues that arose when a male dominated army actively recruited and employed the services of 5 000 nurses in the midst of a growing feminist movement and a changing nursing profession Women drawn to the army s patriotic promise faced disturbing realities in the virtually all male hospitals of South Vietnam Men who joined the nurse corps ran headlong into the army s belief that women should nurse and men should fight Officer Nurse Woman brings to light the nearly forgotten contributions of brave nurses who risked their lives to bring medical care to soldiers during a terrible and divisive war Understanding War Christian P. Potholm, 2016-08-03 The third book in Professor Christian Potholm s war trilogy which includes *Winning at War* and *War Wisdom* *Understanding War* provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material *Understanding War* is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes

Gender and Peacebuilding Maureen P. Flaherty,Thomas G. Matyók,Sean Byrne,Hamdesa Tusso,2015-10-16 The twenty first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety freedom and dignity of all Despite efforts to equalize women s status in the world evidenced by changes in many international projects requiring a gender focus women and men experience most of the world in very different ways according to gender Further the reality is that humans who do not all fall neatly into one of these categories male or female often find their lives further challenged In the 1980s Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace Since then there have been books about women and war women working at grassroots levels to build peace women and transitional justice women and peace education and women s views of human security All of these works have contributed to the discourse of our changing world This book brings together some of those themes and voices and adds more with the final product being more than the sum of its parts We add to the conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is
