to help female clients with sexual concerns can do so effectively even if they do not primarily consider themselves as sex therapists. Many women will experience difficulties with desire, arousal, orgasm, or pain with intercourse at some point in the course of their lives, yet most clinicians feel less equipped to treat sexual dysfunction than far less prevalent disorders. This book empowers general psychologists, therapists, and other practitioners to actively engage in the multidisciplinary treatment of sexual disorders and broaden their knowledge base about sexuality, an important component of most clients' quality of life. It is both a go-to resource for professional clinicians in their daily work and an ideal resource for students and practice-oriented continuing education.

Magnificent Sex Peggy Kleinplatz, A. Ménard, 2020-03-10. Winner of the 2021 SSTAR Consumer Book Award. What makes sex magnificent? What are the qualities of extraordinary erotic intimacy, and what are the elements that help to bring it about? Is great sex the stuff that people remember nostalgically from the honeymoon phase of their relationships, or can sex improve over time? *Magnificent Sex* is based on the largest in-depth interview study ever conducted with people who are having extraordinary sex. It gathers the nuggets for remarkable sex from the experts, distilling them into an attainable blueprint for ordinary lovers who want to make erotic intimacy grow over the course of a lifetime. Looking at factors including individual and relational qualities, empathic communication, and the myths and realities of magnificent sex, this book offers accessible and evidence-based guidance for lovers and therapists alike. It is replete with frank and often humorous interviews with straight and LGBTQ individuals and couples, those who are vanilla and kinky, monogamous and consensually non-monogamous, and healthy and chronically ill. This illuminating book explores the implications of the findings to develop a model that effectively tackles the common problems of low desire and frequency. The cure for low desire is to create desirable sex.
