Twelve Clocks Camino Del Sol:

Twelve Clocks Julie Sophia Paegle, 2015-02-19 From the fall of Troy recorded at the beginning of Western poetry to the ongoing mass extinction of species *Twelve Clocks* meditates on the temporality of loss across the many scales of our experience and knowledge Framed by central images of beginnings and ends this collection searches six cities and intervals of time for the measures of loss labor and care Through formal innovations derived from the second the minute the hour etc and the methods of their measure these poems move from the stark violence of Homer's tale to the terrible precision and power of the atomic age As the reader is transported from Las Vegas to Argentina to the landscapes of Ancient Greek epic poetry *Twelve Clocks* explores the connections between song ancestry family loss and time If the imagery of the collection hints Troy might be an image of the wrecked Argentine economy under neoliberal economics the poems eschew the abstractions of politics in favor of a vivid and sensuous lyricism The interconnectivity of the poems in *Twelve Clocks* is mirrored by different elements transcendence throughout the collection The clock that goes missing in one poem turns up in another characters vanish and reappear matter destroyed in one poem reoccurs as energy in another and then matter and energy both go missing Taken together the poems confront the literary legacy of Western poetic tradition and our shared future
