Twenty Lessons In Environmental Sociology:

Twenty Lessons in Environmental Sociology Kenneth Alan Gould, Tammy L. Lewis, 2020 This is a textbook on environmental sociology **Elgar Encyclopedia of Environmental Sociology** Christine Overdevest, 2024-04-12 The Elgar Encyclopedia of Environmental Sociology serves as a repository of insight on the complex interactions challenges and potential solutions that characterize our shared ecological reality Presenting innovative thinking on a comprehensive range of topics expert scholars researchers and practitioners illuminate the nuances complexities and diverse perspectives that define the continually evolving field of environmental sociology *Building Something Better* Stephanie A. Malin, Meghan Elizabeth Kallman, 2022-04-15 As the turmoil of interlinked crises unfolds across the world from climate change to growing inequality to the rise of authoritarian governments social scientists examine what is happening and why Can communities devise alternatives to the systems that are doing so much harm to the planet and people Sociologists Stephanie A Malin and Meghan Elizabeth Kallman offer a clear accessible volume that demonstrates the ways that communities adapt in the face of crises and explains that sociology can help us understand how and why they do this challenging work Tackling neoliberalism head on these communities are making big changes by crafting distributive and regenerative systems that depart from capitalist approaches The vivid case studies presented range from activist water protectors to hemp farmers to renewable energy cooperatives led by Indigenous peoples and nations Alongside these studies Malin and Kallman present incisive critiques of colonialism extractive capitalism and neoliberalism while demonstrating how sociology's own disciplinary traditions have been complicit with those ideologies and must expand beyond them Showing that it is possible to challenge social inequality and environmental degradation by refusing to continue business as usual *Building Something Better* offers both a call to action and a dose of hope in a time of crises *Environmental Management* Peter R. Mulvihill, S. Harris Ali, 2016-11-25 The field of Environmental Management EM involves a broad and evolving repertoire of practices The field originated around 1970 in response to new policy regulation and public concern about environmental issues EM has undergone many changes and improvements since then progressing from a reactive compliance based focus toward in leading cases practices reflecting strong commitment to sustainability And yet EM remains for the most part ill equipped to deal with the complex and highly uncertain implications of the ecological crisis Environmental Management offers a rigorous critique of conventional EM and explores alternative ideas frameworks and approaches that are currently considered fringe but which have the potential to transform the practice of EM This book goes beyond narrow definitions and considers questions regarding the purpose roles scope and potential of environmental management EM is situated and contextualized within the evolving and expanding realm of environment and sustainability literature The book argues that new approaches to EM need to be more flexible imaginative and better equipped to address future environmental problems of a scale and severity previously unforeseen This book will be of great interest to students and scholars of environmental management

environmental planning resource management and environmental assessment What is Environmental Sociology? Diana Stuart, 2021 A succinct primer on how to think critically about society environment interactions **Getting Real About Inequality** Cherise A. Harris, Stephanie M. McClure, 2022-01-07 Getting Real About Inequality is a contributed reader for undergraduate courses in Race Class Gender Social Inequality or the Social Construction of Difference and Inequality It gives instructors in these courses a set of materials to help them moderate civil productive and social science based discussions with their students about social statuses and identities Like the book it is modeled after Getting Real About Race it is organized around myths and stereotypes that students might already believe or be familiar with through the media or popular culture A panel of expert contributors were enlisted to write short accessible essays address the same questions What is the myth or stereotype under investigation How do we know that the myth or stereotype is widespread What does the empirical data tell us and provide the same pedagogical features a summary of the research data discussion questions suggestions for further study suggested activities and assignments All of pieces in the book employ an intersectional perspective to help students see the nuanced mechanisms of power and inequality that are often lost in everyday discourse

Social Welfare Policy in a Changing World Shannon R. Lane, Elizabeth S. Palley, Corey S. Shdaimah, 2024-12-22 This textbook is designed to help students develop the nine core social work competencies outlined by the Council on Social Work Education CSWE in its 2022 Educational Policy and Accreditation Standards EPAS Visit the 2022 EPAS website to learn more about these standards and competencies Social Welfare Policy in a Changing World Second Edition offers an engaging student friendly approach that links policy and practice while employing a critical analytic lens to U S social welfare policy With particular attention to disparities based on class race ethnicity ability sexual orientation and gender Shannon R Lane Elizabeth S Palley and Corey S Shdaimah assess the impact of policies at the micro meso and macro levels The authors provide a brief foundation in history the policy process and theory while primarily helping students understand how policy shapes their lives communities and clients Connecting description theoretical analysis and advocacy this text challenges readers to critically assess policy development its consequences and future implications Students will come away with a newfound understanding of how to use the political process to address social justice issues and advocate for meaningful policy change Encyclopedia of Health Research in the Social Sciences Kevin Dew, Sarah Donovan, 2023-12-11 Featuring

state of the art contributions from leading experts in their respective fields the Encyclopedia of Health Research in the Social Sciences explores an extensive range of topics concepts research approaches and theoretical orientations aimed at providing guidance for those undertaking health research **The Ecological Revolution** John Bellamy Foster, 2009-02 The roots of the present ecological crisis Foster argues lie in capital s rapacious expansion which has now achieved unprecedented heights of irrationality across the globe Foster demonstrates that the only possible answer for humanity is an ecological revolution a struggle to make peace with the planet Foster details the beginnings of such a revolution in human relations

with the environment which can now be found throughout the globe especially in the periphery of the world system where the most ambitious experiments are taking place From publisher description **Anti-terrorism** Sandra Rollings-Magnusson,2009 This edited collection critically analyzes the concept of terrorism the Canadian and American government responses to terrorist activity since the events of 9 11 and the problem of government policies infringing on basic human rights and freedoms The authors direct their attention to various topics including the relationship between the capitalist economic system and the war on terror the legality and efficacy of the Anti Terrorism Act and the USA PATRIOT Act and the insecurities created by the new security regime The conclusion of this book highlights the need for an informed public debate about security and for society to question and re examine the need for enhanced security measures particularly when such processes counter democratic values Twenty Lessons in the Sociology of Food and Agriculture Jason Konefal,Maki Hatanaka,2018 **Local Environmental Struggles** Kenneth A. Gould,Kenneth Gould,Allan Schnaiberg,Adam S. Weinberg,1996-07-13 In recent years environmentalism in the US has increasingly emerged at the community level focusing on local ecological problems Correspondingly the American environmental movement has exhorted its supporters to think globally but act locally The authors examine this modern environmental mantra by analysing the opportunities and constraints on local environmental action posed by economic and political structures at all levels The difficulties involved in local activism are explored in three case studies a wetlands protection project water pollution of the Great Lakes and consumer waste recycling The final chapter then reflects on the challenges facing citizen worker movements in each case study and concludes that despite the inherent difficulties any successful attempt at mobilisation must have a local component

Treadmill of Production Kenneth A. Gould,David N. Pellow,Allan Schnaiberg,2015-11-17 Schnaiberg s concept of the treadmill of production is arguably the most visible and enduring theory to emerge in three decades of environmental sociology Elaborated and tested it has been found to be an accurate predictor of political economic changes in the global economy In the global South it has figures prominently in the work of structural environmental analysts and has been used by many political economic movements Building new extensions and applications of the treadmill theory this new book shows how and why northern analysts and governments have failed to protect our environment and secure our future Using an empirically based political economic perspective the authors outline the causes of environmental degradation the limits of environmental protection policies and the failures of institutional decision makers to protect human well being □□□□ ,2012 Bulletin University of Minnesota,1916 *The Bulletin of the University of Minnesota [Announcements]*. University of Minnesota,1927 World Agricultural Economics and Rural Sociology Abstracts ,1999 *Rural Sociology* Augustus Washington Hayes,1929 *Sustainability and University Life* Walter Leal Filho,1999 Presents case studies and experiences which illustrate how higher education institutions may pursue sustainability A range of perspectives illustrate how via projects networks academic programs curriculum greening initiatives and student involvement higher education institutions

in various countries are trying to bring sustainability closer to their institutional lives Some subjects are driving environmental strategy with stakeholder preferences managing US campuses with an ecological vision and sustainability and higher education in Asia Pacific Annotation copyrighted by Book News Inc Portland OR **NTIS Alert** ,1994
