

UbD: Stages of Backward Design

Stage 1. Identify desired results.

Guiding Questions

- What are the established goals?
- What "big ideas" do we want students to come to understand?
- What essential questions will stimulate inquiry?
- What knowledge and skills need to be acquired given the understandings and related content standards? What focus questions will guide students to targeted knowledge and skills?

Stage 2. Determine acceptable evidence.

Guiding Questions

- What is sufficient and telling evidence of understanding?
- Keeping the goals in mind, what performance tasks should anchor and focus the unit?
- What criteria will be used to assess the work?
- Will the assessment reveal and distinguish those who really understand versus those who only seem to understand?

3. Plan learning experiences and instruction.

Guiding Question

- What instructional strategies and learning activities are needed to achieve the results identified in Stage 1 and reflected in the assessment evidence specified in Stage 2?
