Ugandas Economic Reforms Insider Accounts

**Tobias Hagmann, Professor Filip
Reyntjens**

Ugandas Economic Reforms Insider Accounts:

Uganda's Economic Reforms Florence Kuteesa,2010 This book represents the first consolidated account of the economic reforms undertaken by the Uganda government and their impact on growth and poverty reduction and includes contributions from those directly involved in the implementation of those reforms

Tax Reform in Uganda Dorothy Kwagala-Igaga,2016-12-14 In 1997 Uganda undertook extensive reforms in tax legislation This had been preceded by the structural reforms in tax administration that saw the creation of the Uganda Revenue Authority in 1991 The aim of the far reaching reforms was to improve the tax system and increase its revenue productivity This book demonstrates that the reforms were not as successful as anticipated and revenues have not improved in a sustained way The revenue from direct taxes only contributes about 20% to the total revenue well below the Sub Saharan average of 40% This has focused attention on the appropriateness of the reforms The focus of the reforms on achieving efficiency did not sufficiently take into account the fundamental importance of equity within the system As a result the Income Tax Act 1997 embodies distortions and inequalities in the treatment of taxable income and taxpayers that have led to inefficiency in the system as a whole The tax reforms also took a narrow technical view of the tax system The book employs political economy and optimal theory to explain the weaknesses in the tax system It is argued that the reforms although well designed were not likely to be successful given the timing and context of implementation The multidisciplinary and functionalist approach of the book is helpful in highlighting the constraints in which tax design and tax reform is undertaken in Uganda It is argued that the reforms were blunted by the manner of their formulation and context of implementation Taxation is a socio political issue and yet the IMF and World Bank which supported the reforms did not take into account the limited political will The lack of consensus in policy formulation has weakened the socio contract and allowed the government to blame external factors for the poor performance The weaknesses in governance and corruption have had an impact on the tax system by encouraging tax avoidance and evasion among political elites as well as on activities in the informal sector

Pockets of Effectiveness and the Politics of State-Building and Development in Africa Sam Hickey,2023 This book shows that politics is the driving factor that shapes how well state agencies perform their roles It deploys a new conceptual framework the power domains approach to explore the shifting fortunes of key state agencies in five countries Ghana Kenya Rwanda Uganda and Zambia over the past three decades

Aid and Authoritarianism in Africa Tobias Hagmann,Professor Filip Reyntjens,2016-03-15 In 2013 almost half of Africa s top aid recipients were ruled by authoritarian regimes While the West may claim to promote democracy and human rights in practice major bilateral and international donors such as USAID DFID the World Bank and the European Commission have seen their aid policies become ever more entangled with the survival of their authoritarian protégés Local citizens thus find themselves at the receiving end of a compromise between aid agencies and government elites in which development policies are shaped in the interests of maintaining the status quo Aid and Authoritarianism in Africa

sheds light on the political intricacies and moral dilemmas raised by the relationship between foreign aid and autocratic rule in Africa Through contributions by leading experts exploring the revival of authoritarian development politics in Ethiopia Uganda Rwanda Cameroon Mozambique and Angola the book exposes shifting donor interests and rhetoric as well as the impact of foreign aid on military assistance rural development electoral processes and domestic politics In the process it raises an urgent and too often neglected question to what extent are foreign aid programmes actually perpetuating authoritarian rule

The Role of Intergovernmental Fiscal Transfers in Improving Education Outcomes Samer Al-Samarrai, The World Bank, Blane Lewis, 2021-07-23 The majority of the world's children live in countries where local governments are responsible for the provision of basic education services Although subnational governments manage their own education systems they often rely on transfers from the central government for funding The main purpose of this study is to assess how these fiscal transfers affect public funding for education and how they ultimately affect student schooling and learning outcomes Through a careful analysis of how fiscal transfers have affected education systems in different contexts the investigation develops a set of principles to support improvements in the design and implementation of transfer systems with a specific focus on the provision of education services The study is centered on seven country case studies that aim to answer a set of common research questions using a similar approach Country case studies were conducted in Brazil Bulgaria China Colombia Indonesia Sudan and Uganda The analysis shows that fiscal transfer mechanisms can improve the adequacy of public education spending reduce spending inequalities between regions and improve spending efficiency Moreover the study highlights that carefully designed and implemented transfer systems can help raise overall education outcomes and reduce education inequality This publication was funded by a grant from the Results in Education for All Children REACH trust fund at the World Bank REACH is supported by the government of Germany through the Federal Ministry for Economic Cooperation and Development the government of Norway through NORAD and the government of the United States of America through the U S Agency for International Development

The Political Economy of Climate Finance Effectiveness in Developing Countries Mark Purdon, 2024 In The Political Economy of Climate Finance Effectiveness in Developing Countries Mark Purdon contributes to broader debates on the international climate cooperation by evaluating how three different climate finance instruments have been undertaken in three countries Tanzania Uganda and Moldova and evaluates their effectiveness in actually reducing emissions He shows that the effectiveness of climate finance tools depends on the interaction between a nation's development policy paradigms and its interests in other sectors of their economies Purdon's findings further inform the design of international and transnational efforts to engage developing countries on climate change mitigation by emphasizing the importance of domestic politics and the state

Devolution Without Disruption Kathy Whimp, 2012 *The 2nd Chronic Poverty Report*, 2013 **Africa Insider**, 2003 **Global Financial Turmoil and Reform** Barry Herman, 1999 As Asia's financial and economic crisis deepened and spread around the world United Nations

economists on five continents shared notes to understand the upheaval and suggest reforms at national and international levels This process led the Secretary General to present a set of recommendations to the General Assembly on methods to strengthen the capacity of developing and transitional economies to cope with international financial volatility and to reduce risks posed by the current international financial system It also resulted in a joint statement by UN economic and social affairs officials to the ministerial committees that oversee the Bretton Woods institutions This volume presents the results of these exercises including revised and updated papers and summaries of July 1998 discussions at which economists and scholars discussed the crisis in terms of the behavior of direct investors and financial markets In the rapidly changing discussions of financial policy reform ideas formerly outside of mainstream theory have gained a wider hearing This dynamic dialogue is reflected in this book

Uganda Confidential ,2000 **Uganda** ,1997 *Financial Sector Reforms in Uganda (1990-2000)* Justine Nannyonjo,2002 *Peace Research Abstracts Journal* ,2003 *Political Science Abstracts* ,1997

The Economist ,1997 **Current World Affairs** ,1997 *The Ugandan Banker* ,2000 World Bank Group Publications ... Catalog World Bank Group,1999 **Structural Adjustment in Africa** ,1995 Investigates the impact of structural adjustment on key aspects of development in Sub Saharan Africa Includes five country case studies
