groups placed temporally and socially on a different par to the mainstream societies As such this book is an excellent resource for labour regulators experts and student researchers in migration work and gender The book offers a deeply empathic and engaging portrayal of the production of disciplined and exploitable manual labor in permanent nightshift cities It cogently unpacks the experiences of embodied precarity through the largely unseen micro practices of workplaces that entrap migrant laborers The nightnographic component adds an original dimension to the inquiry Violetta Zentai Central European University     Wage Determination and the Market ,1983
