Genre et fondamentalismes/Gender and Fundamentalisms Fatou
Sow, 2018-09-26 When why and how can religion and culture be both sources and places of expression for fundamentalisms
particularly in relation to politics Those are the central questions asked throughout this book alongside a discussion on the
result when religion strengthened by culture is used as a political tool to access moral and social power Cultural and religious
messages often form the basis of decisions laws and programs made in politics and have a direct effect on society in general
and on women and gender relations in particular The various forms taken by fundamentalisms in some African countries and
the contexts under which they have emerged the ways in which they re shape identities and relationships between men and
women are also analysed in this book These fundamentalisms are frequently sources of concern in social debates in feminist
and feminine organizations as well as in academia and politics The manipulation of cultures and religions are becoming
progressively political and consequently can cause social discrimination or even physical moral and symbolic violence Le
