Uncontrolling Love God Relational Providence:

The Uncontrolling Love of God Thomas Jay Oord, 2015-11-09 Rarely does a new theological position emerge to account well for life in the world including not only goodness and beauty but also tragedy and randomness Drawing from Scripture science philosophy and various theological traditions Thomas Jay Oord offers a novel theology of providence essential kenosis that emphasizes God's inherently noncoercive love in relation to creation *Uncontrolling Love* L Michaels, Gloria Coffin, Craig Drurey, Chris Baker, Donna Fiser Ward, Graden Kirksey, 2017-08-07 What if God is not in control And what if instead God always expresses uncontrolling love Eighty leading thinkers explore the implications of a new way to think about God the world and our everyday lives Their conclusions are radical whether their writing is in story form or more academic Essayists take ideas in Thomas Jay Oord's award winning book *The Uncontrolling Love of God An Open and Relational Account of Providence* IVP Academic Each contributor explores how we might think and live in light of uncontrolling love

Uncontrolling Love Lisa Michaels, 2017-06-24 What if God is not in control And what if this lack of control isn't because God is weak or uninvolved What if instead God's powerful and universal love is inherently uncontrolling In this book more than eighty writers explore uncontrolling love an idea first suggested by Thomas Jay Oord in his award winning work *The Uncontrolling Love of God An Open and Relational Account of Providence* IVP Academic Contributors explore uncontrolling love in practical political scientific personal economic biblical ethical and philosophical dimensions Many tell stories and pose questions Others offer novel ideas to make sense of life or promote well being Oord offers introductions to key ideas and concepts This book is amazing Each essay contains precisely worded insights and thoughtful practical responses to Oord's book *The Uncontrolling Love of God* Essayists cite their own reasons for recognizing claiming and articulating what Oord calls essential kenosis theology In an array of accessible vignettes essayists illustrate Oord's relational thesis God's love is necessarily self giving and others empowering Karen Winslow Professor and Chair of the Department of Biblical Studies Azusa Pacific University Jesus proclaimed God as a loving parent and this basic approach dominates in the New Testament But many people revere controlling power more than love Thomas Jay Oord has reclaimed the good news of the uncontrolling love of God Many rejoice and respond with uncontrolling love for one another and all God's creatures This book embodies the response of the church lay people and pastors students and teachers liberals and conservatives Readers can join in this work of theology by witnessing to what a loving God is doing in the world John B Cobb Jr Professor Emeritus Claremont School of Theology and Claremont Graduate University **A Classical Response to Relational Theism** Brian J. Orr, 2022-02-17 The classical doctrine of God expresses that the God of the Bible is triune a self simple immutable impassible eternal and the sovereign Lord over his creation which he created from himself Modern streams of theology within the evangelical circle continue to promote a doctrine of God that sharply contrasts the classical view the traditional view of God in Christian theism Therefore a critical response to such a theology is needed This study is a comprehensive analysis and sustained critique of

Thomas Jay Oord's open relational doctrine of God Oord's model substitutes process metaphysics for classical metaphysics while attempting to retain foundational Christian doctrines that were established within a classical metaphysical framework

A Modern Relation of Theology and Science Assisted by Emergence and Kenosis Bradford McCall, 2018-02-28

How should we attempt to understand the relationship between theology and science in the twenty first century In this book I will attempt to answer this question by examining several previous attempts to classify this relationship I also develop my personal view of the relation thereafter discussing some Catholic contributions to this project and then revisit some of my previously published material highlighting the role of panentheism therein and noting an emergent implication from the literature the resultant possibilities for God an implication that creates space for a broadly relational perspective of the process of emergence These movements allow me to argue that kenosis and emergence can add to the discussion of understanding the theology and science relationship Herein I advocate a monistic process based view of the overlapping relationship between theology and science

All Things Wise and Wonderful E. Janet Warren, 2021-01-19 The Covid 19 pandemic provoked many questions It is human nature to want to know how and why things happen The sovereign God has created a beautiful intricate world in which multiple factors interact to cause an event We are called to properly understand creation but often fail because we tend to be lazy fearful and self-serving We make judgments based on often incorrect assumptions about cause and effect relations and we seek reassuring explanations for both trivial and serious events Christians have the added complication of figuring out God's role in making things happen *All Things Wise and Wonderful* examines what the Bible and Christian theology say about cause and effect how science views causation in the world and how human mind brains judge causation Using illustrations from everyday life it offers guidance

for Christians to think and act wisely with respect to how and why things happen in creation **The Great Open Dance** Jon Paul Sydnor, 2024-04-24 The Great Open Dance offers a progressive Christian theology that endorses contemporary ideals environmental protection economic justice racial reconciliation interreligious peace gender equality and LGBTQ celebration Just as importantly this book provides a theology of progress an interpretation of Christian faith as ever changing and ever advancing into God's imagination Faith demands change because Jesus of Nazareth started a movement not a tradition He preached about a new world the Kingdom of God and invited his followers to work toward the divine vision of universal flourishing This vision includes all and excludes none Since we have not yet achieved the world that Jesus describes we must continue to progress The energizing impulse of this progress is the Trinity Abba Jesus and Sophia three persons united by love into one perfect community God is fundamentally relational and humankind made in the image of God is relational as a result We are inextricably entwined with one another sharing a common purpose and a common destiny In this vision we find abundant life by practicing agape the universal unconditional love that Abba extends Jesus reveals and Sophia inspires

What's with Free Will? Philip Clayton, James W. Walters, 2020-03-10 Are humans free or are we determined by our genes and the world around us The question of freedom is not only one of philosophy's greatest conundrums but also one of the most fundamental questions of human existence It's particularly pressing in societies like ours where our core institutions of law ethics and religion are built around the belief in individual freedom Can one still affirm human freedom in an age of science And if free will doesn't exist does it make sense to act as though it does These are the issues that are presented probed and debated in the following chapters A dozen experts specialists in medicine psychology ethics theology and philosophy grapple with the multiple and often profound challenges presented by today's brain science After examining the arguments against traditional notions of free will several of the authors champion the idea of a chastened but robust free will for today one that allows us still to affirm the value of first person experience **Divine Impassibility** Robert J.
