Dickey Chapelle Under Fire John Garofolo, 2015-11-02 It was dawn before I fell asleep and later in the morning I was only half awake as I fed a fresh sheet of paper into the typewriter and began to copy the notes from the previous day out of my book But I wasn't too weary to type the date line firmly as if I'd been writing date lines all my life from the front at Iwo Jima March 5 Then I remembered and added two words under fire They looked great In 1965 Wisconsin native Georgette Dickey Chapelle became the first female American war correspondent to be killed in action Now Dickey Chapelle Under Fire shares her remarkable story and offers readers the chance to experience Dickey's wide ranging photography including

several photographs taken during her final patrol in Vietnam Dickey Chapelle fought to be taken seriously as a war correspondent and broke down gender barriers for future generations of female journalists She embedded herself with military units on front lines around the globe including Iwo Jima and Okinawa the Dominican Republic and Vietnam Dickey sometimes risked her life to tell the story after smuggling aid to refugees fleeing Hungary she spent almost two months in a Hungarian prison For twenty five years Dickey s photographs graced the pages of National Geographic the National Observer Life and others Her tenacity courage and compassion shine through in her work highlighting the human impact of war while telling the bigger story beyond the battlefield In Dickey Chapelle Under Fire the American public can see the world through Dickey s lens for the first time in almost fifty years with a foreword by Jackie Spinner former war correspondent for The Washington Post

Effectiveness Of The 165th Infantry Regiment In The First World War Major David G. Fivecoat, 2015-11-06 Recent historiography has almost universally denounced the tactical prowess of the American Expeditionary Force However a detailed analysis of the performance of the 42nd Division's 165th Infantry Regiment tells a surprisingly different story Despite the challenges of the First World War battlefield the 165th Infantry Regiment compiled a remarkable record of tactical effectiveness in its 180 days of combat During its six campaigns the regiment repeatedly held the line and seized objectives against veteran German units in a variety of situations and under various conditions At the regimental level a de facto adoption of trench warfare doctrine enabled the unit to synchronize the combined arms and avoid the doctrinal dysfunction that plagued the majority of the AEF At the tactical level the Irish platoons and companies rapidly became adept at using Indian style or infiltration tactics to advance seize terrain and destroy German positions In addition superb

leadership throughout the regiment and stellar unit cohesion played significant roles in the unit's superior tactical proficiency. In sum, these four factors enabled the 165th to achieve a level of tactical effectiveness second to none among the non-regular regiments of the AEF and equal to the best units within the German Army.

The American Story: 100 True Tales from American History Jennifer Armstrong, 2006-08-22 American history comes alive in these 100 true stories that define our country. This magnificent treasury tells the story of America through 100 true tales. Some are tales of triumph: the midnight ride of Paul Revere, the Wright brothers taking to the air, Neil Armstrong's first steps on the moon. Some are tales of tragedy: the fate of the Donner Party, the great fire in Chicago, the eruption of Mount Saint Helens. There are stories of inventors and athletes and abolitionists and artists. Stories about struggling for freedom again and again in so many ways. With full-color illustrations on nearly every page and short, exciting stories, this book is perfect for browsing by the entire family. Notes at the end of each story direct readers to related stories. And a guide to thematic story arcs offers readers and teachers an easy way to follow their particular interests throughout the book. A treasure trove of a book that belongs in every home. This lively and engaging collection of stories recounting American history is a wonderful gift not only to the children of this country but also to their parents. I can't wait to share it with my grandchildren. Tom Brokaw, [American Journalism](#) W. David Sloan, Lisa Mullikin Parcell, 2014-01-10 News consumers made cynical by sensationalist banners. AMERICA STRIKES BACK. THE TERROR OF ANTHRAX and lurid leads might be surprised to learn that in 1690 the newspaper *Publick Occurrences* gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that barbarous Indians were lurking about before the disappearance. Surprising too might be the media's steady adherence to, if continual tugging at its philosophical and ethical moorings. These 39 essays, written and edited by the nation's leading professors of journalism, cover the theory and practice of print, radio, and TV news reporting. Politics and partisanship, press and the government, gender and the press corps, presidential coverage, war reportage, technology and news gathering, sensationalism: each subject is treated individually. Appropriate for interested lay persons, students, professors, and reporters. Instructors considering this book for use in a course may request an examination copy here.

Conduct Under Fire John A. Glusman, 2006-04-25 The fierce, bloody battles of Bataan and Corregidor in the Philippines are legendary in the annals of World War II. Those who survived faced the horrors of life as prisoners of the Japanese. In *Conduct Under Fire*, John A. Glusman chronicles these events through the eyes of his father, Murray, and three fellow navy doctors captured on Corregidor in May 1942. Here are the dramatic stories of the fall of Bataan, the siege of the Rock, and the daily struggles to tend the sick, wounded, and dying during some of the heaviest bombardments of World War II. Here also is the desperate war doctors and corpsmen waged against disease and starvation amid an enemy that viewed surrender as a disgrace. To survive, the POWs functioned as a family. But the ties that bind couldn't protect them from a ruthless counteroffensive waged by American submarines or from the B-29 raids that burned Japan's major cities to the ground. Based on extensive interviews with

American British Australian and Japanese veterans as well as diaries letters and war crimes testimony this is a harrowing account of a brutal clash of cultures of a race war that escalated into total war Like *Flags of Our Fathers* and *Ghost Soldiers* *Conduct Under Fire* is a story of bravery on the battlefield and ingenuity behind barbed wire one that reveals the long shadow the war cast on the lives of those who fought it

Journalism Under Fire Stephen Gillers, 2018-08-07 A healthy democracy requires vigorous uncompromising investigative journalism But today the free press faces a daunting set of challenges in the face of harsh criticism from powerful politicians and the threat of lawsuits from wealthy individuals media institutions are confronted by an uncertain financial future and stymied by a judicial philosophy that takes a narrow view of the protections that the Constitution affords reporters In *Journalism Under Fire* Stephen Gillers proposes a bold set of legal and policy changes that can overcome these obstacles to protect and support the work of journalists Gillers argues that law and public policy must strengthen the freedom of the press including protection for news gathering and confidential sources He analyzes the First Amendment's Press Clause drawing on older Supreme Court cases and recent dissenting opinions to argue for greater press freedom than the Supreme Court is today willing to recognize Beyond the First Amendment *Journalism Under Fire* advocates policies that facilitate and support the free press as a public good Gillers proposes legislation to create a publicly funded National Endowment for Investigative Reporting modeled on the national endowments for the arts and for the humanities improvements to the Freedom of Information Act and a national anti SLAPP law a statute to protect media organizations from frivolous lawsuits to help journalists and the press defend themselves in court Gillers weaves together questions of journalistic practice law and policy into a program that can ensure a future for investigative reporting and its role in our democracy

The Columbia Companion to American History on Film Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as *The Birth of a Nation* 1915 *Roots* 1977 *Apocalypse Now* 1979 and *Saving Private Ryan* 1998 how much is entertainment and how much is rooted in

insightful informative and provocative book about America at a crossroads but idealism isn't dead It can be reawakened What will it take to make America a better stronger truer country asks the bestselling author former Knicks star and onetime presidential candidate Bill Bradley believes that America is at a teachable moment when we are compelled to reevaluate our political system our leadership our agenda as a nation and ourselves as citizens With clarity and urgency Bradley shows why the story we are being told now about who we are as a people is not true He then offers a new story about our nation based on America's rich heritage and his belief in the character of the American people Bradley explores what changes need to be made in our parties in our politics and in citizen activism to ensure America's future He asserts that the American people are ready for the truth and suggests that the party that chooses to embrace this new story will be in power for a generation Writing from his own experience in politics and drawing on his knowledge of history Bradley shows how the Republican Party has built a solid pyramid structure since the 1970s at the base of which are money ideas and media whereas the Democratic Party's structure is an inverted pyramid with too much emphasis put on the need for a charismatic leader to hold the pyramid up Each party for different reasons fails to deal with the real issues that now confront America This informed and inspiring call to action is addressed not only to the parties and elected leaders but to citizens as well Bradley proposes things every American can do to shape our nation's future He points out that if eighty percent of the electorate voted instead of fifty percent it would be the most important change in American politics since women got the vote Now more than ever he says we need to embrace an ethic of connectedness a combination of collective action and individual responsibility to solve our nation's most pressing problems and he argues that the fate of all countries is bound together as never before Writing today with the freedom of a private citizen Bradley provides this transformative and eye opening book about the danger and the promise of America's choice at this crucial moment in the nation's history
