Underexposed Censored Pictures And Hidden History:

Underexposed Colin Jacobson, 2002 Produced to demonstrate the existence of censorship as practised by politicians and government officials who control publication of photographs of violent or controversial events *Unburied Memories: The Politics of Bodies of Sacred Defense Martyrs in Iran* Pedram Khosronejad, 2013-09-13 Today almost a generation has passed since the Iran Iraq war and the memory of it is set to diminish with each passing generation The following questions emerge Can we say that the gradual disappearance of war s memory means that increasingly Iranians will see the Iran Iraq war solely as an historical event How can we defend or reject this idea Today with which elements and values should we look at the Iran Iraq war memorials and ceremonies To what extent will war museums and materials culture be influenced by these new values In the period during and immediately after the Iran Iraq war 1980 88 national bereavement and commemoration of martyrs was neither apparent in common state policy nor a social need Even at the turn of the 21st century anyone walking through Iranian cities many of which had been the main scene of the bloody massacre and direct targets of the Iraqi Republican Guard will have found traces of the terrible almost unimaginable human losses However today s Iranians can see modern war memorials and monuments in many parts of the urban and rural landscape Yet at the same time the changing landscape has separated Iranians from such remnants of the violence It can be argued that many people in their wish to look forward to a more hopeful future do not wish to be reminded of this period in Iranian history This book was originally published as a special issue of *Visual Anthropology* *Criticizing Photographs* Terry Barrett, 2020-11-29 Emphasizing the understanding of images and their influences on how they affect our attitudes beliefs and actions this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers critics theoreticians historians curators and editors It invites informed conversations about meanings and implications of images providing multiple and sometimes conflicting answers to questions such as What are photographs Should they be called art Are they ethical What are their implications for self society and the world From showing how critics verbalize what they see in images and how they persuade us to see similarly to dealing with what different photographs might mean the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations It looks at how the worth of photographs is judged aesthetically and socially offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences This book is a clear and accessible guide for students of art history photography and criticism as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live *Inspired Photography* The Editors of Photopreneur, 2010 *Inspired Photography* is packed with creative ideas to enable any photographer from enthusiast to professional to push their work in new directions Divided into actions city scenes the great outdoors inspiring images and photographic subjects the book describes 189 sources of inspiration that stimulate creativity and help photographers get more from their passion You ll discover New subjects to
