Death and the Afterlife in Byzantium Vasileios Marinis, 2016-12-22 For all their reputed and professed preoccupation with the afterlife the Byzantines had no systematic conception of the fate of the soul between death and the Last Judgement Death and the Afterlife in Byzantium marries for the first time liturgical theological literary and material evidence to investigate a fundamental question what did the Byzantines believe happened after death This interdisciplinary study provides an in depth analysis and synthesis of hagiography theological treatises apocryphal texts and liturgical services as well as images of the fate of the soul in manuscript and monumental decoration It also places the imagery of the afterlife both literary and artistic within the context of Byzantine culture spirituality and soteriology The book intends to be the definitive study on concepts of the afterlife in Byzantium and its interdisciplinary structure will appeal to students and specialists from a variety of areas in medieval studies

**Architecture and Ritual in the Churches of Constantinople** Vasileios Marinis, 2014-01-13 This book examines the interchange of architecture and ritual in the Middle and Late Byzantine churches of Constantinople ninth to fifteenth centuries It employs archaeological and archival data hagiographic and historical sources liturgical texts and commentaries and monastic typika and testaments to integrate the architecture of the medieval churches of Constantinople with liturgical and extra liturgical practices and their continuously evolving social and cultural context The book argues against the approach that has dominated Byzantine studies that of functional determinism the view that architectural form always follows liturgical function Instead proceeding chapter by chapter through the spaces of the Byzantine church it investigates how architecture responded to the exigencies of the rituals and how church spaces eventually acquired new uses The church building is described in the context of the culture and people whose needs it was continually adapted to serve Rather than viewing churches as frozen in time usually the time when the last brick was laid this study argues that they were social constructs and so were never finished but continually evolving

provide a thorough understanding of both **Byzantine Art and Diplomacy in an Age of Decline** Cecily J.

Hilsdale, 2014-02-20 The Late Byzantine period 1261-1453 is marked by a paradoxical discrepancy between economic weakness and cultural strength. The apparent enigma can be resolved by recognizing that later Byzantine diplomatic strategies, despite or because of diminishing political advantage, relied on an increasingly desirable cultural and artistic heritage. This book reassesses the role of the visual arts in this era by examining the imperial image and the gift as reconceived in the final two centuries of the Byzantine Empire. In particular, it traces a series of luxury objects created specifically for diplomatic exchange with such courts as Genoa, Paris, and Moscow, alongside key examples of imperial imagery and ritual. By questioning how political decline refigured the visual culture of empire, Cecily J. Hilsdale offers a more nuanced and dynamic account of medieval cultural exchange that considers the temporal dimensions of power and the changing fates of empires.
