The World Of Prometheus

**Michael Vincent O'Shea, Ellsworth D.
Foster, George Herbert Locke**

The World Of Prometheus:

The World of Prometheus Danielle S. Allen, 2009-01-10 For Danielle Allen punishment is more a window onto democratic Athens fundamental values than simply a set of official practices From imprisonment to stoning to refusal of burial instances of punishment in ancient Athens fueled conversations among ordinary citizens and political and literary figures about the nature of justice Re creating in vivid detail the cultural context of this conversation Allen shows that punishment gave the community an opportunity to establish a shining myth of harmony and cleanliness that the city could be purified of anger and social struggle and perfect order achieved Each member of the city including notably women and slaves had a specific role to play in restoring equilibrium among punisher punished and society The common view is that democratic legal processes moved away from the emotional and personal to the rational and civic but Allen shows that anger honor reciprocity spectacle and social memory constantly prevailed in Athenian law and politics Allen draws upon oratory tragedy and philosophy to present the lively intellectual climate in which punishment was incurred debated and inflicted by Athenians Broad in scope this book is one of the first to offer both a full account of punishment in antiquity and an examination of the political stakes of democratic punishment It will engage classicists political theorists legal historians and anyone wishing to learn more about the relations between institutions and culture normative ideas and daily events punishment and democracy
