Theater Of The Mind Imagination Aesthetics And American Radio Drama:

Theater of the Mind Neil Verma, 2024-05-31 For generations fans and critics have characterized classic American radio drama as a theater of the mind This book unpacks that characterization by recasting the radio play as an aesthetic object within its unique historical context In *Theater of the Mind* Neil Verma applies an array of critical methods to more than six thousand recordings to produce a vivid new account of radio drama from the Depression to the Cold War In this sweeping exploration of dramatic conventions Verma investigates legendary dramas by the likes of Norman Corwin Lucille Fletcher and Wyllis Cooper on key programs ranging from *The Columbia Workshop* *The Mercury Theater on the Air* and *Cavalcade of America* to *Lights Out* *Suspense* and *Dragnet* to reveal how these programs promoted and evolved a series of models of the imagination With close readings of individual sound effects and charts of broad trends among formats Verma not only gives us a new account of the most flourishing form of genre fiction in the mid twentieth century but also presents a powerful case for the central place of the aesthetics of sound in the history of modern experience *Word, Sound and Music in Radio*

Drama , 2023-11-27 This collection offers an in depth study of music s narrative functions in radio drama whether original or adapted alongside speech and sound It features a range of historical perspectives as well as case studies from Australia Europe and North America highlighting broadcasting institutions such as the BBC RAI ABC WDR and SWR from early radio to the medium s postwar golden age and contemporary productions Not limited to classical or popular music the chapters also pay attention to electronic varieties and musical uses of language in addition to intermedial exchanges with other art forms such as theatre opera and film In doing so the present volume sits at the crossroads of various disciplines musicology narratology history literary media sound and radio studies *Sound and Sense in Contemporary Theatre* Matthew

Tomkinson, 2025-01-11 This book is among the first to consider the subject of mad auralities in theatre and performance asking what does it mean to hear and listen madly Drawing widely upon mad studies critical disability studies theatre studies sound studies queer studies and critical race theory it seeks to explore the theatrical relationship between sound and mental health differences by examining a range of case studies in which audience members are immersed in auditory simulations of madness Ultimately however this critical study investigates the shortcomings of simulation as a representational practice in keeping with the critical tradition of disability studies and mad studies **Broadcast Hysteria** A. Brad

Schwartz, 2025-09-23 On the evening of October 30 1938 radio listeners across the United States heard a startling report of a meteor strike in the New Jersey countryside With sirens blaring in the background announcers in the field described mysterious creatures terrifying war machines and thick clouds of poison gas moving toward New York City As the invading force approached Manhattan some listeners sat transfixed while others ran to alert neighbors or to call the police Some even fled their homes But the hair raising broadcast was not a real news bulletin it was Orson Welles s adaptation of the H G Wells classic *The War of the Worlds* In *Broadcast Hysteria* A Brad Schwartz boldly retells the story of Welles s famed radio play and

its impact Did it really spawn a wave of mass hysteria as The New York Times reported Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast and his findings challenge the conventional wisdom Few listeners believed an actual attack was under way But even so Schwartz shows that Welles's broadcast became a major scandal prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country's vulnerability in a time of crisis When the debate was over American broadcasting had changed for good but not for the better As Schwartz tells this story we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the first time We follow Orson Welles's rise to fame and watch his manic energy and artistic genius at work in the play's hurried yet innovative production And we trace the present day popularity of fake news back to its source in Welles's show and its many imitators Schwartz's original research gifted storytelling and thoughtful analysis make *Broadcast Hysteria* a groundbreaking new look at a crucial but little understood episode in American history

Electrified Voices Kerim Yasar, 2018-10-23 Long before karaoke's ubiquity and the rise of global brands such as Sony Japan was a place where new audio technologies found eager users and contributed to new cultural forms In *Electrified Voices* Kerim Yasar traces the origins of the modern soundscape showing how the revolutionary nature of sound technology and the rise of a new auditory culture played an essential role in the formation of Japanese modernity A far reaching cultural history of the telegraph telephone phonograph radio and early sound film in Japan *Electrified Voices* shows how these technologies reshaped the production of culture Audio technologies upended the status of the written word as the only source of prestige while revivifying traditional forms of orality The ability to reproduce and transmit sound freeing it from the constraints of time and space had profound consequences on late nineteenth century language reform twentieth century literary musical and cinematic practices the rise of militarism and nationalism in the 1920s and 30s and the transition to the postwar period inaugurated by Emperor Hirohito's declaration of unconditional surrender to Allied forces a declaration that was recorded on a gramophone record and broadcast throughout the defeated Japanese empire The first cultural history in English of auditory technologies in modern Japan *Electrified Voices* enriches our understanding of Japanese modernity and offers a major contribution to sound studies and global media history

Thrillers, Chillers, and Killers Frank Krutnik, 2025-05-13 Film noir is one of the most exciting and most debated products of studio era Hollywood but did you know that American radio broadcast many programs in the noir vein through the 1940s and 1950s These included adaptations of such well known films as *The Maltese Falcon* *Murder My Sweet* and *Double Indemnity* detective series devoted to the adventures of private eyes Philip Marlowe and Sam Spade and the spine tingling anthology programs *Lights Out* and *Suspense* *Thrillers Chillers and Killers* is the first book to explore in detail noir storytelling on the two media arguing that radio's noir dramas played an important role as a counterpart to influence on or a spin off from the noir films Besides shedding new light on long neglected radio dramas and a medium that was cinema's

major rival this scrupulously researched yet accessible study also uses these programs to challenge conventional understandings of the much debated topic of noir

Anatomy of Sound Jacob Smith, Neil Verma, 2016-06-28 This collection of essays examines one of the most important yet understudied media authors of all time Norman Corwin using him as a critical lens to consider the history of multimedia authorship particularly in the realm of sound Known for seven decades as the poet laureate of radio Corwin is most famous for his radio dramas which reached tens of millions of listeners around the world and contributed to radio drama s success as a mass media form in the 1930s and 1940s But Corwin was a pioneer in multiple media including cinema theater TV public service broadcasting journalism and even cantata In each of these areas Corwin had a distinctive approach to sonic aesthetics and mastery of multiple aspects of media production relying in part on his inventive atmospheric effects in the studio both prerecorded and more impressively live in real time From the front lines of World War II to his role as Chief of Special Projects for United Nations Radio and his influence on media today the political and social aspect of Corwin s work is woven into these essays With a foreword by Michele Hilmes and contributions from Thomas Doherty Mary Ann Watson Shawn VanCour David Ossman and others this volume cements Corwin s reputation as perhaps the greatest writer in the history of radio while also showing that his long career is a neglected model of multimedia authorship Provided by publisher
