Theology Of Migration In The Abrahamic Religions Christianities Of The World:

Theology of Migration in the Abrahamic Religions E. Padilla, P. Phan, 2014-10-02 This book provides an indispensable voice in the scholarly conversation on migration. It shows how migration has shaped and has been shaped by the three Abrahamic religions: Judaism, Christianity, and Islam. No theory of migration will be complete unless the theological insights of these religions are seriously taken into account.

Theology Without Borders Leo D. Lefebure, 2022 Theology without Borders: the title of this volume evokes the seminal contributions of Peter Phan, a remarkably productive and creative scholar who challenges us to make global humanity the starting point for theological reflection. Over several decades, Phan has persuaded us that the collapse of established bounded frameworks, especially that of a European Christianity with a monopoly on truth, is not to be feared but celebrated. His prodigious output has contributed to and enriched literatures in ecclesiology, Christology, missiology, patristics, and other fields. This volume brings together the contributions from a number of leading scholars and engages systematically with Phan's ideas across a range of vitally important topics: from global Christianity and migration to religious pluralism, the legacies of the Second Vatican Council, and eschatological controversies. Taken together, the essays provide an overview of Phan's scholarly contributions and a road map for better understanding theology without borders in our contemporary world.

A Pilgrim People Gerald W. Schlabach, 2019-09-16 2020 Catholic Press Association honorable mention award for future church. Recent decades have seen a steady trend in Roman Catholic teaching toward a commitment to active nonviolence that could qualify the church as a peace church. As a moral theologian specializing in social ethics, Schlabach explores how this trend in Catholic social teaching will need to take shape if Catholics are to follow through. Globalization, he argues, is an invitation to recognize what was always supposed to be true in Catholic ecclesiology: Christ gives Christians an identity that crosses borders. To become a truly Catholic global peace church in which peacemaking is church-wide and parish-deep, Catholics should recognize that they have always properly been a diaspora people with an identity that transcends tribe and nation-state.

Christian Theology in the Age of Migration Peter C. Phan, 2020-01-13 We are living in the Age of Migration, and migration has a profound impact on all aspects of society and on religious institutions. While there is significant research on migration in the social sciences, little study has been done to understand the impact of migration on Christianity. This book investigates this important topic and the ramifications for Christian theology and ethics. It begins with anthropological and sociological perspectives on the mutual impact between migration and Christianity, followed by a re-reading of certain events in the Hebrew Scripture, the New Testament, and Church history to highlight the central role of migration in the formation of Israel and Christianity. Then follow attempts to reinterpret in the light of migration the basic Christian beliefs regarding God, Christ, and church. The next part studies how migration raises new issues for Christian ethics, such as human dignity and human rights, state rights, social justice, and solidarity, and ecological justice. The last part explores what is known as Practical Theology by examining the implications of

migration for issues such as liturgy and worship spirituality architecture and education The Hermeneutical Spirit Amos Yong, 2017-11-06 In the contemporary biblical studies climate proposals regarding the theological interpretation of Scripture are contested particularly but not only because they privilege encourage and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural texts are read and understood Within this context confessional approaches have been emerging including some from within the nascent pentecostal theological tradition This volume builds on the author's previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time The Hermeneutical Spirit thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context Religion in the European Refugee Crisis Ulrich Schmiedel, Graeme Smith, 2018-02-15 This book explores the roles of religion in the current refugee crisis of Europe Combining sociological philosophical and theological accounts of this crisis renowned scholars from across Europe examine how religion has been employed to call either for eliminating or for enforcing the walls around Fortress Europe Religion they argue is radically ambiguous simultaneously causing social conflict and social cohesion in times of turmoil Charting the constellations the conflicts and the consequences of the current refugee crisis this book thus answers the need for succinct but sustained accounts of the intersections of religion and migration *Christian Theology in the Age of Migration* Peter C.
