Theology Of Religions Theology Of Religions:

Christianity and World Religions Gavin D'Costa, 2009-03-09 An engaging and accessible introduction to Christianity's relationship with other world religions addressing the questions of why the reality and vitality of other religions has become a challenge and showing how Christianity is equipped to deal with religious plurality at both the doctrinal and social level Timely and accessible this book tackles the question of why the reality and vitality of other religions has become a challenge for Christianity Makes a decisive contribution to debates about the clash between Islam and the West arguing that the major threat to religious freedoms come from secularism and that Islam and Christianity both have the resources to develop a vibrant and pluralist public square one informed by intellectual rigor and debate Considers the wider issue of how modernity has defined religion and provides a substantial critique of secular ways of controlling religions Shows how Christianity is very well suited to deal with religious plurality at the doctrinal and social level Addresses the core issues and describes the various answers that have been proposed in recent years making it an ideal introduction to the field and one which will stimulate ideas and discussions

Christianity and the Religions Edward Rommen, Harold A. Netland, 1995-09-15 The Majesty and Greatness of God Unprecedented opportunities and challenges await the Christian church as it approaches the 21st century Just fifty years ago we could not have dreamed how advanced technologies and the remarkable rise of non Western missionaries would open doors for world evangelization At the same time the church finds itself increasingly troubled by internal and external pressures resulting in a deep sense of insecurity about its mission in the world The current theological and missiological ferment is seen in debates about religious pluralism What is the relationship between the Christian faith and other religious traditions Missiologist Gerald Anderson says No issue in missiology is more important more difficult more controversial or more divisive for the days ahead than the theology of religions This is the theological issue for mission in the 1990s and into the 21st century The essays in this book take a fresh look at the biblical data to address pressing questions raised by religious pluralism With a greater understanding of these issues God's people will not only have increased confidence in the one true God they will be further emboldened to carry on the work of world missions

Christians and Religious Pluralism Alan Race, 1993 *Faithful Interpretations* Philip Geister, Gosta Hallonsten, 2021-02-26 Theology of Religions is among the most burning issues within Christian theology today The challenge to study and discuss different ways of handling conflicting truth claims and religious narratives between religions is taken up by a growing number of theologians across denominational boundaries This is a common and ecumenical effort undertaken by Christian theologians all over the world And yet the impact of specific ecclesiastical or theological traditions on different concepts of theology of religions should not be underestimated As well known the Second Vatican council with its pivotal decree *Nostra Aetate* On the relation to other religions not only set the agenda for Catholic theology but even influenced the wider discussion on the topic The papers of this volume were all given at a conference in Uppsala Sweden in October 2017

The structure of Faithful Interpretations follows closely the way the conference was conducted A general introduction to the development and present status of Theology of Religions by Marianne Moyaert opens the book Archbishop J Augustine Di Noia of the Vatican Congregation for the Doctrine of Faith then treats the recent developments in the teaching of the Magisterium regarding theology of religions Anna Bonta Moreland addresses the issue of Muhammad and Christian Prophecy Diego R Sarri Cucarella focuses on early Christian theological views of Islam and concludes that Islam has been from the beginning a disturbing factor in the Christian view of salvation history Wilhelmus G B M Valkenberg discusses the impact of Nostra Aetate on the Church's relation to Muslims using especially the precedent of Nicolaus of Cues as regards a constructive approach to Islam Klaus von Stosch addresses a sensitive issue in Muslim Christian relations and illustrates the advantages of the comparative theology approach for the theology of religions Complementing this perspective Peter Jonkers offers a hermeneutical perspective on truth claims and reflects on the religious Other with references to Jacques Derrida among others Reinhold Bernhardt argues in favour of a biblically grounded relational existential theory of truth which would be most helpful with regard to other religions To conclude the prominent Catholic specialist on Theology of Religions Gavin D Costa widened the perspective by addressing the relation to Judaism from the point of view of the covenant and the promises of the land Altogether the papers of this volume give a clear impression of the status of Roman Catholic Theology of Religions

Understanding Religious Pluralism Peter C. Phan, Jonathan Ray, 2014-08-01 Our contemporary world is fast becoming religiously diverse in a variety of ways Thanks to globalization and migration to mention only two current worldwide trends people of diverse and sometimes mutually hostile faiths are now sharing neighborhoods and encountering one another's religious traditions on a daily basis For scholars in religious studies and theology the issue to be examined is whether religious diversity is merely the result of historical development and social interaction or whether it is inherent in the object of belief part of the very structure of faith and our attempts to understand and express it The essays in this volume range from explorations of the impact of religious diversity on religious studies to examples of interfaith encounter and dialogue and current debates on Christian theology of religion These essays examine not only the theoretical issues posed by religious pluralism to the study of religion and Christian theology but also concrete cases in which religious pluralism has been a bone of contention Together they open up new vistas for further conversation on the nature and development of religious pluralism

God Beyond Boundaries Perry Schmidt-Leukel, 2017 Fruitful relationships and constructive interaction between religions have become more important than ever But what about the issues of truth and conflicting truth claims Is it a betrayal of one's own faith to acknowledge the truth of other religions The current work is the first English translation of Gott ohne Grenzen published in 2005 In this much acclaimed study Perry Schmidt Leukel defends religious pluralism showing under which presuppositions Christians can accept other religions as equally valid without denying their differences He discusses in detail how the pluralist position opens up new perspectives in Christianity's dialogue with Jews Muslim

Hindus and Buddhists Schmidt Leukel Perry Prof Dr ist Professor für Religionswissenschaft und interkulturelle Theologie an der Universität Münster Er ist am Exzellenzcluster Religion und Politik der Universität Münster beteiligt Er ist Mitglied im international advisory board des Forschungsprojektes Religion und Dialog in modernen Gesellschaften an der Akademie der Weltreligionen der Universität Hamburg Seine Schwerpunkte sind unter anderem Theologie der Religionen interreligiöse Beziehungen christlich buddhistischer Dialog und Pluralismus

Theology of Religions Eugene F. Gorski, 2008 What should Catholics and indeed all followers of Jesus think about the other great religions of the world Hinduism Buddhism Judaism Islam Zoroastrianism Jainism Daoism Sikhism Shinto Might it be that the one true God is operative in these other religions working out the divine plan of salvation Or are they hindrances to God's plan What in fact is the relationship of Christianity to the other religions These are some of the questions dealt with in this book On the basis of an historical and phenomenological study of the world religions this book examines what the scriptures tradition and the teaching of the Catholic Church have to say about the ultimate meaning and value of the non Christian religions and how Catholics are to relate to the adherents of the other religions with understanding and appreciation Locating the historical origins of the world religions tracing their historical development observing the experiential phenomena from which they arise seeking to identify elements that unify them as well as pondering the questions that become evident as the result of such a study these procedures of historical and phenomenological analysis deal with issues of great significance and facilitate the author's search for and interpretation of the strictly theological data

that disclose the ultimate significance of the non Christian religions Readers will appreciate this comprehensive work that reflects from a Christian Catholic point of view on the ultimate meaning and value of the non Christian religions emphasizing how they may relate to the adherents of the other religions with understanding and appreciation They will also understand more deeply the reality of Jesus the Father and the Spirit as a result of their dialogue with religious pluralism Beyond the Impasse Amos Yong,2014-09-25 Can Christians learn from other religions This book offers a fascinating account of the nature role and purposes of religious diversity within God s providential plan **Religions View Religions** ,2006-01-01 Because religion is so central to the lives and experience of the vast majority of people throughout the world it figures very prominently in a variety of ways in interhuman relations Unfortunately religion often appears to be one of the potent sources of mistrust discord and strife between and among individuals groups and cultures What frequently lies at the root of such suspicion and dissension is general ignorance concerning the religious other a lack of knowledge about his or her beliefs aspirations and views of the good and morally honorable life And even if people have some factual knowledge about other religions they regularly display little understanding of them and their adherents Learning both to know and understand people of other faiths and their religions is absolutely requisite to the realization of paradigms of coherent and intelligent convivance that is living together in sensible peaceable and cooperative harmony An effective agency for fostering such knowledge and understanding is the discipline of theology of religions which examines how religions have and ought to view other religions And it is particularly the practice of comparative theology of religions which bears the most promise in this regard The present symposium consists of precisely this kind of comparative exercise and may be viewed as an important contribution to the development of a new project which endeavors to enlarge the horizon and broaden the focus and reflection of theology of religions as that has been gradually developed during the last few decades a new enterprise in other words which seeks to universalize and mutualize theology of religions discourse One of the important things this volume shows is that the views religions have of other religions differ from one another in very substantial ways which is explained by the fact that they derive from diverging paradigms of faith belief and ritual and specific cultural and social contexts This textbook demonstrates how strongly different Hindu Buddhist Shinto and Confucian views are from those of Islam Judaism and Christianity which latter in turn also exhibit considerable differences among themselves These differences are greater than people immersed in their own cultures often realize or expect It is becoming ever more clear that ignorance of or disinclination to acknowledge or refusal to accept these real differences constitute major root causes of serious conflicts in the world The essays in this book written by representatives of the major world religions offer descriptive and or prescriptive appraisals of other religions in general or one other religion in particular from the perspective of the religion of the author concerned It is hoped that this unique exercise in intercultural theology of religions will generate insights and new forms of understanding which can be used by religious leaders and other educators to help correct the disposition toward religious

haughtiness insularity and communalism and the dangerous leanings toward interreligious suspicion antipathy and animosity which are all too often evident in our contemporary societies

Karl Barth's Theology as a Resource for a Christian Theology of Religions Sven Ensminger, 2016-01-28 This book uses Karl Barth's theology as a resource for Christian theology of religions For this purpose it examines Barth's theology under the doctrinal aspects of revelation revelation and religion theological anthropology and election addressing questions such as the possibility of and context for revelation Barth's understanding of religion the theological approach to the human being and soteriology Furthermore Barth's thought is put into conversation with other approaches in the field of theology of religions notably Karl Rahner's inclusivism and John Hick and the pluralist paradigm It is shown that Barth's theological system as a whole can serve as a resource for the Christian approach to and interaction with those of other faiths or no faith at all This is achieved through maintaining a balance between the commitment to the own faith and the openness to the sovereignty of God impacting the whole of creation Central to Barth's approach is the challenge to the Christian community to see their presuppositions challenged in the most unexpected circumstances while looking beyond human categories to affirm the dignity bestowed upon all of humanity through the divine Yes in the person Jesus Christ Barth's theology with its starting point in the person of Jesus Christ is advocated as a framework for the members of the Christian community as they live alongside those with a different faith from their own

An Emerging Cosmotheandric Religion? Jyri Komulainen, 2004-12-01 Raimon Panikkar b 1918 a Catalan born Hindu Christian is a prominent theorist of interreligious dialogue This study gives a detailed analysis of his theology of religions On the basis of the most recent sources available it appears that even his radical pluralism cannot eschew the inherent problems characteristic of pluralistic theologies of religions Unlike other pluralists Panikkar does not subscribe to the Enlightenment tradition Instead his plea for the transformation of existing religions is based on an idiosyncratic cosmotheandricism which draws on both primordial religious traditions and existentialist philosophy The prerequisites of interreligious dialogue as outlined in his work thus entail commitment to a particular cosmology and mode of consciousness

Religion Past & Present, 2007 John Hick's Pluralist Philosophy of World Religions Paul R. Eddy, 2002 According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how current ideas could be further developed to offer a more accurate presentation of the various options in the theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and a summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in overcoming the pluralist's most difficult conceptual

problem providing an adequate account of the fact that the world's religions understand the divine in often contradictory ways. Ultimately Hick's own solution threatens two of his long cherished goals: a robust religious realism and a consistent religious pluralism.

Religion Hent de Vries, 2008. What do we talk about when we talk about religion? Is it an array of empirical facts about historical human civilizations? Or is religion what is in essence unpredictable, perhaps the very emergence of the new? In what ways are the legacies of religion—its powers, words, things, and gestures—reconfiguring themselves as the elementary forms of life in the twenty-first century? Given the Latin roots of the word religion and its historical Christian uses, what sense, if any, does it make to talk about religion in other traditions? Where might we look for common elements that would enable us to do so? Has religion as an overarching concept lost all its currency, or does it ineluctably return, sometimes in unexpected ways, the moment we attempt to do without it? This book explores the difficulties and double binds that arise when we ask, "What is religion?" Offering a marvelously rich and diverse array of perspectives, it begins the task of rethinking religion and religious studies in a contemporary world. Opening essays on the question "What is religion?" are followed by clusters exploring the relationships among religion, theology, and philosophy, and the links between religion, politics, and law. Pedagogy is the focus of the following section. Religion is then examined in particular contexts, from classical times to the present. Pentecostal revival leads into an especially rich set of essays on religion, materiality, and mediatization. The final section grapples with the ever-changing forms that religion is taking, such as spirituality movements and responses to the ecological crisis. Featuring the work of leading scholars from a wide array of disciplines, traditions, and cultures, *Religion: Beyond a Concept* will help set the agenda for religious studies for years to come. It is the first of five volumes in a collection entitled *The Future of the Religious Past*, the fruit of a major international research initiative funded by the Netherlands Organization for Scientific Research.

Ways of Meeting and the Theology of Religions David Cheetham, 2016-02-24. Exploring the different points of view and tones of voice adopted in theology for the meeting of religions, this book presents a contemporary philosophical and theological engagement with key issues of how different faiths might meet: of comparative philosophy of religion, of the use of aesthetics, of inter-religious ethics, and issues relating to the self. Providing a critical evaluation of contemporary liberal, post-liberal, and conservative voices, and an engagement with movements such as Radical Orthodoxy and Scriptural Reasoning, to mention a few, this book highlights the use of the creative imagination and explores new ideas for the meeting of religions.

Studies in Religion Glyn Richards, 2016-07-27. These studies in religion embrace Hindu, Buddhist, and Christian themes and examine the spiritual insights and philosophical reflections of prominent thinkers from different religious traditions. Where appropriate, comparisons are drawn between the views of representatives of the different traditions from an empathetic standpoint and in a way that would meet with the approval of adherents of those religions. The main aim of these essays in the pluralistic religious situation of today is to enable us to escape from the small island of our own cultural tradition and to explore the richness and diversity of other
