Theopolitical Imagination Christian Practices Of Space And Time:

Theopolitical Imagination William T. Cavanaugh, 2002-01-01 A critique of modern Western civilization including contemporary concerns of consumerism capitalism globalization and poverty from the perspective of a believing Catholic Responding to Enlightenment and Postmodernist views of the social and economic realities of our time Cavanaugh engages with contemporary concerns consumerism late capitalism globalization poverty in a way reminiscent of Rowan Williams Lost Icons Nicholas Boyle Who Are We Now and Michel de Certeau Consumption of the Eucharist he argues consumes one into the narrative of the pilgrim City of God whose reach extends beyond the global to embrace all times and places He develops the theme of the Eucharist as the basis for Christian resistance to the violent disciplines of state civil society and globalization

Karl Rahner, Culture and Evangelization Anthony Mellor, 2019-05-15 The situation of religious institutional diminishment in many Western countries requires new approaches to the proclamation of Christian faith As a response to these complexities Karl Rahner suggested a mystagogic approach as a future pathway for theology A mystagogical approach seeks modes of spiritual and theological conversation which engage the religious imagination and draws upon personal experiences of transcendence and religious sensibility In Karl Rahner Culture and Evangelization New Approaches in an Australian Setting Anthony Mellor develops a reflective process of contemporary mystagogia describing how different fields of engagement require different patterns of mystagogical conversation While focussing on the Australian setting these differentiate arenas of engagement are also applicable to other cultural settings and offer fresh perspectives for evangelization today

The Crisis of Global Capitalism Adrian Pabst, 2012-10-25 The current economic crisis stems from a deeper crisis of cultural imagination and civilisational ethics here is the starting point of this collection of essays which draw a new political economy facing the crisis of Western civilization This book gathers together a range of audacious and provocative readings of Caritas in Veritate the first papal encyclical that addresses issues immediately relevant for political economic and social theory These readings embody the kind of fruitful dialogue Pope Benedict XVI wanted to generate with his radical discourse for an alternative political economy

The Many Faces of Christianity, 2025-08-28 Is the Russian invasion of Ukraine a Holy War This book offers insights into the complex ideology of the Russki Mir or Russian World which must be understood as Russian shaped world order or peace but above all a claim to the sacred The collected essays describe how Far Right politics in Europe and its resonances with the Russian World nod to the changing meaning of Christianity defying and transforming the categories of religion and politics and challenging common conceptions of the role of Christianity in European politics

Security after Christendom John Heathershaw, 2024-02-13 We live in the wealthiest and most heavily defended world in history so why do we feel so insecure In a secular world what does Christian theology have to say about this problem Security after Christendom combines practical examples social scientific research and an ecumenical approach to political theology to answer these questions It argues that Christendom was a plural phenomenon of

imagined security communities of East and West whose unravelling continues to have implications for global politics today as dramatically illustrated by Russia's war in Ukraine. While notions of a new Christendom are idolatrous and delusional, secular imaginaries of national security or the liberal international order are both destructive and unstable. True security, radical inclusion, nonviolent protection, and abundant provision is an eschatological phenomenon inaugurated by Christ. Security after Christendom is neither found in faithful government nor an exclusive church as polis approach but in relations of tension where the fallen powers are continuously confronted by prophetic practices. A post-Christendom community expresses its love for the world by seeking its security providentially, limiting the disorders of the secular age and offering glimmers of a new earth.

Commodified Communion Antonio Eduardo Alonso, 2021-06-01 WINNER 2021 HTI BOOK PRIZE. Resist. This exhortation animates a remarkable range of theological reflection on consumer culture in the United States. And for many theologians, the source and summit of Christian cultural resistance is the Eucharist. In *Commodified Communion*, Antonio Eduardo Alonso calls into question this dominant mode of theological reflection on contemporary consumerism. Reducing the work of theology to resistance and centering Christian hope in a Eucharist that might better support it, he argues, undermines our ability to talk about the activity of God within a consumer culture. By reframing the question in terms of God's activity in and in spite of consumer culture, this book offers a lived theological account of consumer culture that recognizes not only its deceptions but also traces of truth in its broken promises and fallen hopes.

The Mennonite Quarterly Review Harold Stauffer Bender, 2005. *The Gravity of Sin* Matt Jenson, 2006. Looks at the influential metaphor of describing sin as homo incurvatus in se, humanity being curved in on oneself from its origins in Augustine to Luther, Barth, and the Feminist theology. This book argues that the image of being curved in on oneself is the best paradigm for understanding sin relationally.

God, Grace, and Creation Philip J. Rossi, 2010. Sixteen peer-reviewed essays that explore the work of God's grace in today's world. Major contributors include David Burrell (Notre Dame) and Uganda Martyrs University and Denis Edwards (Flinders University in Australia) on the role of God's grace in creation and Ilia Delio (Trinity Georgetown University).

T&T Clark Handbook of Christian Prayer, 2021-12-16. The essays collected in this volume provide a resource for thinking theologically about the practice of Christian prayer. In the first of four parts, the volume begins by reaching back to the biblical foundations of prayer. Then each of the chapters in the second part investigates a classical Christian doctrine, including God, creation, Christology, pneumatology, providence, and eschatology, from the perspective of prayer. The chapters in the third part explore the writings of some of the great theorists of prayer in the history of the Christian tradition. The final part gathers a set of creative and critical conversations on prayer responding to a variety of contemporary issues. Overall, the T&T Clark Handbook of Christian Prayer articulates a theologically expansive account of prayer, one that is deeply biblical, energetically doctrinal, historically rooted, and relevant to a whole host of critical questions and concerns facing the world today.
