Theoretical Methodological Developments Processability Acquisition:

Theoretical and Methodological Developments in Processability Theory Kristof Baten, Aafke Buyl, Katja Lochtmann, Mieke Van Herreweghe, 2015-12-15 This edited volume is devoted to expanding the theoretical basis of Processability Theory a theory of second language development that combines insights in the way speakers generate language and store their language knowledge to predict describe and explain developmental sequences Pienemann 1998 2005 The aim of the book is to provide a forum for new perspectives focusing on three intersections 1 the interface between morpho syntax and discourse pragmatics semantics 2 constraints on processing and receptive processing and 3 developments in instructed second language learning Each part also includes a response paper in which the new perspectives in terms of the theoretical challenges and or the empirical results of the preceding chapters are discussed This collection of articles and response papers will be very relevant to students and researchers interested in theoretical aspects of second language acquisition and more specifically Processability Theory and clearly indicates that the field is lively and open

Widening Contexts for Processability Theory Anke Lenzen, Howard Nicholas, Jana Roos, 2019-11-15 This book explores relationships between Processability Theory approaches and other approaches to SLA It is distinctive in two ways It offers PT insiders a way to see connections between their familiar traditions and theories with other ways of working Parallel to this it offers readers who work in other traditions ways of connecting with a research tradition that makes specific testable claims about second language acquisition processes These dual perspectives mean that both beginning and established SLA researchers as well as those seeking to connect their work with views of language learning will find something of interest Studies of multiple languages and multiple aspects of language are included Chapters cover areas as diverse as literacy language comprehension language attrition and language testing *Teachability and Learnability across Languages* Ragnar Arntzen, Gisela Håkansson, Arnstein Hjelde, Jörg-U. Keßler, 2019-06-15 Teachability and Learnability across Languages addresses key issues in second foreign and heritage language acquisition as well as in language teaching Focusing on a Processability Theory perspective it brings together empirical studies of language acquisition language teaching and language assessment For the first time a research timeline for the role of instruction in language learning is presented showing how the field of second language acquisition SLA research has developed over the last four decades since Pienemann's work on learnability and syllabus construction over the 1980s The book includes studies of child and adult second as well as foreign language acquisition research covering a wide range of target languages including English German Hungarian Japanese Norwegian Polish Spanish Swedish and Turkish In addition future extensions of PT are discussed This volume is designed for advanced students in international programs of SLA and Applied Linguistics as well as for SLA researchers and second and foreign language teachers Linguistics and Language Behavior Abstracts, 1997
