Theories of Human Learning Guy R. Lefrancois, 1995-03 *Theories of Human Learning* Guy R. Lefrancois, 1999-08 The old man isn't just anyone. In fact, professors familiar with previous editions of this book may conclude that he is related to those extraterrestrials Kongor and Kro who so successfully guided students through the maze of historic and current theories that help us understand how humans learn. And wise as he is, the old man does the job even more effectively than his predecessors in this Fourth Edition of **THEORIES OF HUMAN LEARNING WHAT THE OLD MAN SAID**. Both a serious academic text and a delightful story, this book offers a clear, readable look at a full range of learning theories from behavioristic to cognitive, examining memory and motivation and concluding with a comprehensive synthesis. Its most apparent strength is its easily accessible style, but its greatest value lies in the clarity of its concepts. Theories of Human Learning Guy R.
