

What is **Macroeconomics**?

Macroeconomics is a branch of economics that studies the overall performance and behavior of an entire economy.

It focuses on aggregated indicators such as Gross Domestic Product (GDP), unemployment rates, inflation, and national income.

Macroeconomists analyze factors influencing the economy at a large scale, including government fiscal and monetary policies.

This field explores the relationships between economic variables to understand and formulate policies addressing issues like economic growth, unemployment, and inflation, providing insights into the broader patterns and trends that shape the economic health of a nation or region.
