The Historical Harpsichord Howard Schott, 1984 Volume IV of The Historical Harpsichord contains two monographs of major importance Harpsichord Decoration A Conspectus by Sheridan Germann and A Fable Deconstructed The 1770 Taskin at Yale by Richard Rephann Sheridan Germann an acclaimed scholar and practitioner in the field of harpsichord decoration offers the first comprehensive illustrated conspectus of the subject In Part I Ms Germann tells us that the styles of the decoration of harpsichords and spinets virginals and clavichords tended to follow contemporary furniture fashions but usually lagged conservatively behind the prevailing fashions Because unlike most furniture the instruments are often dated they provide rare documentation of how long these styles remained in common use This survey follows chronologically the five major regional traditions of keyboard instrument decoration Italian Flemish French German and English but with emphasis on the international changes in taste on which each region produced its own variations In Part II Richard Rephann of the Yale

Musical Instrument Collection describes his research into the uniquely experimental construction of the 1770 Pascal Taskin harpsichord This essay forms a pendant to William Dowd s in Vol I that treats the surviving instruments of the Blanchet Taskin workshop up to 1770 The romantic provenance of the 1770 Taskin concocted by the antique trade to enhance the instrument s market value is revealed as a fable **Eighteenth-Century Keyboard Music** Robert Marshall,2004-03-01

18th Century Piano Music focuses on the core composers of the 18th century repertoire The book begins with an overview of the keyboard instruments that were in use during the period and a chapter on performance practice Then the book proceeds through each major composer beginning with Bach and then progressing through the French Masters Scarlatti C P E and J C Bach Haydn Mozart and Early Beethoven **Musica mechanica organoedi / Musical mechanics for the organist, Part 2** Jacob Adlung,Quentin Faulkner,2011-10-25 Part I includes all of Volume One of the original edition except the Stoplists from Chapter 10 Part 2 of this edition includes all of Volume 2 of the original Part 3 includes all the Stoplists printed in the original Mmo Musica mechanica organoedi and all the stoplists cited from other sources but not originally included plus bibliography index etc Back cover *Harpsichord and Lute Music in 17th-Century France* D. Ledbetter,2019-06-12 The works of the 17th century French harpsichord composers the clavecinistes are among the principal treasures of the harpsichord repertoire It is a commonplace of music histories that their style was strongly influenced by contemporary lutenists yet the assessment of this influence has until now been limited to pointing out a few superficial resemblances This book is the first comprehensive account of the relationship between the two styles The nature and extent of the influence can now be seen as much more far reaching than has been supposed The clavecinistes adopted many details of lute style and an understanding of these is essential for the proper performance of their works More importantly the lute style opened up the possibility of an entirely new expressive dimension in the playing of the harpsichord in exploring this the clavecinistes evolved a style which dominated European keyboard music in the 17th century and provided a basis for the subsequent development of idiomatic keyboard style *Instruments À Claviers, Expressivité Et Flexibilité Sonore* Thomas Steiner,2004 Conference organized by Fondation Harmoniques
