Totally Unofficial The Autobiography Of Raphael Lemkin:

Pioneers of Genocide Studies (Clt) Samuel Totten, Steven Leonard Jacobs, 2002 New areas of research are not the result of a snap of the finger They are carved out of the marrow of human existence The study of genocide well illustrates this raw fact From the early efforts that emerged in the struggle against Nazism and over the past half century the field has now reached a point where there at least five genocide centers across the globe and well over one hundred Holocaust centers This work emerged out of an earlier effort at an oral history project one that would enable a new generation of scholars researchers and policy makers to assess the major foci of the field efforts to develop ways and means to intervene and prevent future genocides and review the successes and failures of the field The editors of *Pioneers of Genocide Studies* emphasize that contributors should approach the questions of greatest relevance in a personal way crafting a statement that reveals ones individual voice persuasions literary style scholarly perspectives and relevant details of ones life The book succeeds admirably in the above aims and in so doing epitomizes scholarly autobiographical writing at its best The book also includes the most important works by each author on the issue of genocide As a result the collective portrait enhances the usefulness of the volume for those new to the field Among the contributors are experts in the Armenian Bosnian Cambodian genocides as well as the Holocaust against the Jewish people The contributors are Rouben Adalian M Cherif Bassiouni Israel W Charney Vahakn Dadrian Helen Fein Barbara Harff David Hawk Herbert Hirsch Irving Louis Horowitz Richard Hovannisian Henry Huttenbach Leo Kuper Raphael Lemkin James E Mace Eric Markusen Robert Melson R J Rummel Roger W Smith Gregory H Stanton Ervin Staub Colin Tatz Yves Ternan and the co editors The work has been five years in the making and represents a high watermark in the reflections and self reflections on the comparative study of genocide Samuel Totten is professor of curriculum and instruction in the College of Education and Health Professions at the University of Arkansas Fayetteville He is the editor of *First Person Accounts of Genocidal Acts* and *Century of Genocide Eyewitness Accounts and Critical Views* and book review editor for the *Journal of Genocide Research* Steven Leonard Jacobs is associate professor and Aaron Aronov Chair of Judaic Studies in the department of religious studies at the University of Alabama Tuscaloosa He is the author of *Shirot Bialik A New and Annotated Translation of Chaim Nachman Bialiks Epic Poems* Raphael Lemkins *Thoughts on Nazi Genocide Not Guilty and Contemporary Christian and Contemporary Jewish Religious Responses to the Shoah* *Totally Unofficial* Raphael Lemkin, 2013-06-24 Presents the never before published autobiography of Raphael Lemkin who immigrated to the U S during World War II and made it his life s work to fight genocide a term he coined with the might of the U N Genocide Convention *Raphaël Lemkin and the Concept of Genocide* Douglas Irvin-Erickson, 2016-10-14 Rapha l Lemkin 1900 1959 coined the word genocide in the winter of 1942 and led a movement in the United Nations to outlaw the crime setting his sights on reimagining human rights institutions and humanitarian law after World War II After the UN adopted the Convention on the Prevention and Punishment of the Crime of Genocide in 1948

Lemkin slipped into obscurity and within a few short years many of the same governments that had agreed to outlaw genocide and draft a Universal Declaration of Human Rights tried to undermine these principles This intellectual biography of one of the twentieth century s most influential theorists and human rights figures sheds new light on the origins of the concept and word genocide contextualizing Lemkin s intellectual development in interwar Poland and exploring the evolving connection between his philosophical writings juridical works and politics over the following decades The book presents Lemkin s childhood experience of anti Jewish violence in imperial Russia his youthful arguments to expand the laws of war to protect people from their own governments his early scholarship on Soviet criminal law and nationalities violence his work in the 1930s to advance a rights based approach to international law his efforts in the 1940s to outlaw genocide and his forays in the 1950s into a social scientific and historical study of genocide which he left unfinished Revealing what the word genocide meant to people in the wake of World War II as the USSR and Western powers sought to undermine the Genocide Convention at the UN while delegations from small states and former colonies became the strongest supporters of Lemkin s law

Rapha l Lemkin and the Concept of Genocide examines how the meaning of genocide changed over the decades and highlights the relevance of Lemkin s thought to our own time

Great Catastrophe Thomas de Waal, 2015-01-02 The destruction of the Armenians of the Ottoman Empire in 1915 16 was the greatest atrocity of World War I Around one million Armenians were killed and the survivors were scattered across the world Although it is now a century old the issue of what most of the world calls the Armenian Genocide of 1915 is still a live and divisive issue that mobilizes Armenians across the world shapes the identity and politics of modern Turkey and has consumed the attention of U S politicians for years In Great Catastrophe the eminent scholar and reporter Thomas de Waal looks at the aftermath and politics of the Armenian Genocide and tells the story of recent efforts by courageous Armenians Kurds and Turks to come to terms with the disaster as Turkey enters a new post Kemalist era The story of what happened to the Armenians in 1915 16 is well known Here we are told the history of the history and the lesser known story of what happened to Armenians Kurds and Turks in the century that followed De Waal relates how different generations tackled the issue of the Great Catastrophe from the 1920s until the failure of the Protocols signed by independent Armenia and Turkey in 2010 Quarrels between diaspora Armenians supporting and opposing the Soviet Union broke into violence and culminated with the murder of an archbishop in 1933 The devising of the word genocide the growth of modern identity politics and the 50th anniversary of the massacres re energized a new generation of Armenians In Turkey the issue was initially forgotten only to return to the political agenda in the context of the Cold War and an outbreak of Armenian terrorism More recently Turkey has started to confront its taboos In an astonishing revival of oral history the descendants of tens of thousands of Islamized Armenians who have been in the shadows since 1915 have begun to reemerge and reclaim their identities Drawing on archival sources reportage and moving personal stories de Waal tells the full story of Armenian Turkish relations since the Genocide in all its extraordinary twists and turns He looks behind the propaganda to examine the realities

of a terrible historical crime and the divisive politics of genocide it produced The book throws light not only on our understanding of Armenian Turkish relations but also of how mass atrocities and historical tragedies shape contemporary politics

The Law of Nations in Global History C. H.

Alexandrowicz, 2017-03-10 The history and theory of international law have been transformed in recent years by post colonial and post imperial critiques of the universalistic claims of Western international law The origins of those critiques lie in the often overlooked work of the remarkable Polish British lawyer historian C H Alexandrowicz 1902-75 This volume collects Alexandrowicz's shorter historical writings on subjects from the law of nations in pre colonial India to the New International Economic Order of the 1970s and presents them as a challenging portrait of early modern and modern world history seen through the lens of the law of nations The book includes the first complete bibliography of Alexandrowicz's writings and the first biographical and critical introduction to his life and works It reveals the formative influence of his Polish roots and early work on canon law for his later scholarship undertaken in Madras 1951-61 and Sydney 1961-67 and the development of his thought regarding sovereignty statehood self determination and legal personality among many other topics still of urgent interest to international lawyers political theorists and global historians

Psychotherapy for a Democratic Mind Israel W. Charny, 2018-01-19 Psychotherapy for a Democratic Mind proposes that the optimal goal of psychotherapy lies in cultivating a free mind with integrity that will not seek to do major harm to one's life or to the lives of others This book looks at a wide range of psychiatric disorders including classic conditions of neurosis personality disorders and psychoses through a different lens Rather than simply enumerating symptoms namely how a person is addressing the opportunity of his/her life and the lives of others and whether a person is doing harm to themselves and/or others This book proceeds to grapple with several critical life experiences and styles tragedy violence and evil all of which often have posed insurmountable problems in therapy

Sharp Knife Alfred A. Cave, 2017-10-03 Drawing on a wide range of sources this book exposes Andrew Jackson's failure to honor and enforce federal laws and treaties protecting Indian rights describing how the Indian policies of Old Hickory were those of a racist imperialist in stark contrast to how his followers characterized him believing him to be a champion of democracy Early in his career as an Indian fighter American Indians gave Andrew Jackson a name Sharp Knife that evoked their sense of his ruthlessness and cruelty Contrary to popular belief and to many textbook accounts in 1830 Congress did not authorize the forcible seizure of Indian land and the deportation of the legal owners of that land In actuality U S President Andrew Jackson violated the terms of the Indian Removal Act of 1830 choosing to believe that he was not bound to protect Native Indian individuals' rights Sharp Knife Andrew Jackson and the American Indians draws heavily on Jackson's own writings to document his life and give readers sharp insight into the nature of racism in ante bellum America Noted historian Alfred Cave's latest book takes readers into the life of Andrew Jackson paying particular attention to his interactions with Native American peoples as a militia general treaty negotiator and finally as president of the United States Cave clearly depicts the many ways in which Jackson's various dishonorable actions and often illegal means undermined the political and economic rights that were supposed to be guaranteed under numerous treaties Jackson's own economic interests as a land speculator and slave holder are carefully documented exposing the hollowness of claims that Old Hickory

was the champion of the common man

Convention Kurt Mundorff, 2020-08-25 This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s ideas were held widely in the immediate postwar period Reconstructing the mid century conversation on genocide and situating it in the

much broader mid century discourse on justice and society he demonstrates that culture is not a distraction to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law It will be of interest to scholars of genocide human rights international law the history of international law and human rights and treaty interpretation The Faces of Human Rights Kasey McCall-Smith, Jan Wouters, Felipe Gómez Isa, 2019-05-16 As human rights discourse increasingly focuses on analysing states and the institutions that promote and support the human rights machinery that states have created this volume serves to recall that despite the growing size of the machinery and unwieldy nature of states human rights began with real people It samples a broad range of actors and localities where everyday people fought to ensure that the basic principles of human rights became a reality for all This volume will give a face to the everyday people to whom credit is due for shaping human rights It also responds to the perennial question of how to begin a career in human rights by highlighting that there is no single path into this dynamic field a field built on the back of small initiatives by people across a broad spectrum of career paths *Economic Aspects of Genocides, Other Mass Atrocities, and Their Prevention* Charles H. Sysyn, 2022-01-15 Since the 1980s the study of genocide has exploded both historically and geographically to encompass earlier epochs other continents and

new cases The concept of genocide has proved its worth but that expansion has also compounded the tensions between a rigid legal concept and the manifold realities researchers have discovered The legal and political benefits that accompany genocide status have also reduced complex discussions of historical events to a simplistic binary is it genocide or not a situation often influenced by powerful political pressures Genocide addresses these tensions and tests the limits of the concept in cases ranging from the role of sexual violence during the Holocaust to state induced mass starvation in Kazakh and Ukrainian history while considering what the Armenian Rwandan and Burundi experiences reveal about the uses and pitfalls of reading history and conducting politics through the lens of genocide Contributors examine the pressures that great powers have exerted in shaping the concept the reaction Rapha l Lemkin originator of the word genocide had to the United Nations final resolution on the subject France s long held choice not to use the concept of genocide in its courtrooms the role of transformative social projects and use of genocide memory in politics and the relation of genocide to mass violence targeting specific groups Throughout this comprehensive text offers innovative solutions to address the limitations of the genocide concept while preserving its usefulness as an analytical framework Reducing Genocide to Law Payam Akhavan,2012-01-26 Why is genocide the ultimate crime and does this distinction make any difference in confronting evil
