Tour Du Monde C Lins:

Beneath the Lines Jacobo García-Álvarez, Paloma Puente-Lozano, 2022-05-03 This book brings together ten empirically rich and theoretically informed contributions that aim to clarify both geo historical specificities and common transnational and global features of the cultures and practices of boundary making that shaped modern statehood Written by scholars from Spain France Italy Argentina Brazil and Mexico the essays included in this volume provide a comparative international perspective on the processes of border formation as well as an integrative approach that seeks to strengthen the links between renewed geo historical studies and more contemporary oriented border studies The book is addressed to a wide range of researchers including geographers historians political scientists and specialists in geopolitics and the history of international relations Federal Register ,1997-08 **Second Catalogue of the Library of the Peabody Institute of the City of Baltimore, Including the Additions Made Since 1882** George Peabody Library, 1896 **Drawing the Line** Juliet Fall, 2017-11-30 This book provides the first comprehensive and critical examination of the spatial assumptions underpinning transboundary protected areas in Europe at a time of surging global enthusiasm in creating and managing such areas It explores how the reliance on the natural science approach to space within environmental planning has led to a return of exclusionary discourses in paradoxical contrast to the stated claims of designing peace parks The book builds a much needed link between the critical geopolitical literature on boundaries and social approaches to nature and hybridity Drawing the Line is theoretically informed yet grounded in substantial fieldwork from sites in France Germany Italy Poland Romania Slovakia and the Ukraine It uses material from the field to build and question theoretical debates moving beyond site specific issues to wider patterns and trends American Education ,1918 Recherches sur la germination des graines de lin et des amandes douces Armand Jorissen, 1884 *L.
