[Welcoming tourists]

Hello everyone. My name is Luca. On behalf of Suntan Tours I'd like to welcome you all to Los Cabos. The bus ride to your hotel will take about fifteen minutes. Right now I'd like to take a minute to familiarize you with the area and discuss some brief safety precautions. Firstly, I ask that you remain seated until we reach our destination and that you not eat or drink while on the bus. Secondly, please realize that it is against the law to get drunk in public. Enjoy your vacation, but do drink responsibly and do not drink and drive.

[Describing the location]

I promise you are going to enjoy your stay here in San Jose, Los Cabos. This is a beautiful, quiet city where you can relax, sit by the beach, enjoy great meals and feel very safe. You can walk into town and enjoy the fountains or take a moonlit walk along the water. Please do not swim here. This is not a safe place to swim because there is a strong undertow. Cabos San Lucas is the place to go if you want to enjoy swimming in the ocean. You can take a short bus ride from your hotel. There you will also enjoy entertainment and dancing.

The Tour Guide Jonathan R. Wynn, 2011-08-11 Everyone wants to visit New York at least once The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs This title provides long history of tour giving across the globe as well as the

ups and downs of New York's tour guide industry in the wake of 9/11 **Manual for Guiding Techniques** Ettore Amato, 2021-06-15 As far as I am aware Tourist Guide Techniques have not previously been the subject of many manuals I have decided then to offer the future tourist guides everything my long career in the tourism field has taught me about the technical aspects of guiding This to help them to better understand their role as interpreters of what is observed and how to practise it efficiently There is no such thing as a universal way in which to guide tourists since this art and profession derives its uniqueness from the spontaneity and individual charisma of each tourist guide What is presented in this manual is a method based on assorted suggestions and procedures that will assist the tourist guides and establish a sound understanding of what they must know This manual therefore does not intend to supply a set formula which must be followed slavishly since that would inhibit the individual creativity which each tourist guide should possess Instead this manual provides a means to better prepare them TECHNICALLY for their future tasks Author **The Tourist's Guide to Lucknow** Edward Hilton, 1916

Learning-Through-Touring Juliet Sprake,2012-03-26 Learning through Touring uncovers ways in which people interact with the built environment by exploring the spaces around between and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment
