images and moral reactions yet they often intertwine overlap and influence one another Tourism migration and exile evoke widely varying policies diverse popular reactions and contrasting imagery What are the ramifications of these siloed conceptions for people on the move To what extent do gender class ethnic and racial global inequalities shape moral discourses surrounding people's movements This book presents 12 predominantly ethnographic case studies from around the world and a pandemic focused conclusion that address these issues In recounting and juxtaposing stories of refugees and migrants returns marriage migrants voluntourists migrant retirees migrant tourism workers and entrepreneurs mobile investors and professionals and refugees pursuing educational mobility this book cultivates more nuanced insights into intersecting forms of mobility Ultimately this work promises to foster not only empathy but also greater resolve for forging trails toward mobility justice This accessibly written volume will be essential to scholars and students in critical migration tourism and refugee studies including anthropologists sociologists human geographers and researchers in political science and cultural studies The book will also be of interest to non academic professionals and general readers interested in contemporary mobilities

Going Abroad Christine Geoffroy, Richard Sibley, 2009-10-02 Going Abroad is a book not only for scholars academics and students who are interested in different approaches to mobility but also for non specialists who wish to explore and understand what lies behind the various forms of travel tourism and migration that are central to today's and no doubt tomorrow's globalized world If you are tempted by emigration enjoy being a tourist or just love the adventure of travel real or imaginary you can embark on a journey of discovery through time and across the continents to explore and reflect on diverse visions of mobility The practical problems and the differing states of mind experienced by past and present emigrants to France Spain Morocco Capri Latin America Canada and Australia the impact of immigration on the host communities and the reactions of turn of the century French immigrants to Britain offer contrasting and complementary perspectives Along with the real and symbolic meanings of the apparently mundane act of crossing the Channel stranger forms of travel are also explored Filipino sailors who are neither at home nor abroad backpacking across four continents the real and the fantasized exotic in nineteenth century orientalist art and the sanitized utopias of today's theme parks Within an interdisciplinary and a cross cultural framework the book explores the terminology concepts and methodology of a subject which has become the focus of curricula in many academic courses

Tourists, Migrants, and Refugees Milica Z. Bookman, 2022 As travelers increasingly seek out the exotic wildlife and idyllic sunsets of the developing world a complex relationship involving tourism the migration of workers and the involuntary displacement of peoples has emerged Milica Bookman explores that

relationship and the connection between population movements and economic development in third world countries Bookman s multicountry analysis demonstrates forcefully that tourism both induces migration and displacement and is enabled by them in a self reinforcing circular flow These population movements she argues likewise are both a cause and effect of economic growth They are not however a panacea for developing countries Throughout her study Bookman underscores the human costs of tourism led development emphasizing the need for greater attention to the social dislocations that it brings about
