By More Than Providence Michael J. Green, 2017-03-21 Soon after the American Revolution certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural resources at stake there Over the coming generations the United States continued to ask how best to expand trade with the region and whether to partner with China at the center of the continent or Japan looking toward the Pacific Where should the United States draw its defensive line and how should it export democratic principles In a history that spans the eighteenth century to the present Michael J Green follows the development of U S strategic thinking toward East Asia identifying recurring themes in American statecraft that reflect the nation's political philosophy and material realities Drawing on archives interviews and his own experience in the Pentagon and White House Green finds one overarching concern driving U S policy toward East Asia a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade values and forward defense *By More Than Providence*

works through these problems from the perspective of history's major strategists and statesmen from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger. It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America's stakes in the region especially when compared with those of Europe and the Middle East.

Asia-Pacific Issues, 1998 *Asia Pacific* Michael S. Dobbs-Higginson, 1995 An insight into the political and economic future of Pacific Asia, an area currently undergoing violent changes. The author speculates as to how stability might be introduced into the region by an alliance between its countries similar to the EC and NAFTA. *Asia Pacific Countries and the US Rebalancing Strategy* David W.F. Huang, 2016-06-29 This book examines the success of the US rebalancing or pivot strategy towards Asia, placing the US pivot in a historical context while highlighting its policy content and management dilemmas. Further, the contributors discuss the challenges and opportunities that each regional state confronts in responding to the US rebalancing strategy. In 2011, President Barack Obama laid out the framework for a strategic pivot of US policy towards the Asia Pacific region. Writers in this volume focus specifically on Asian perception of the strategy. Among the topics they explore are China's desire to be seen as equal to the US while maintaining foreign policy initiatives independent of the US strategic rebalance; the strengthening of Japan's alliance with the US through its security policies; the use of US-China competition by South Korea to negotiate its influence in the region; and Australia's embrace of the strategy as a result of foreign direct investment that provides economic benefits to the country. **The New US Strategy towards Asia** William T. Tow, Douglas Stuart, 2014-12-17 Barack Obama's rebalancing or pivot strategy intended to demonstrate continued US commitment to the Asia Pacific region in a variety of military, economic, and diplomatic contexts was launched with much fanfare in 2011. Implicit in the new strategy is both a focus on China engagement with and containment of and a heavy reliance by the United States on its existing friends and allies in the region in order to implement its strategy. This book explores the impact of the new strategy on America's regional friends and allies. It shows how these governments are working with Washington to advance and protect their distinct national interests while at the same time avoiding any direct confrontation with China. It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run. Overall, the book illustrates the deep complexities of the United States' exercise of power and influence in the region. *The Asia-Pacific* Gary Klintworth, 1991 **Asia-Pacific Cooperation**

Agenda: Moving from Regional Cooperation Toward Global Leadership CHARLES E. MORRISON., 2022 **Asia Pacific** Michael Stewart Dobbs-Higginson, 1994 **Asia-Pacific** David Lai, 2013 Dr David Lai provides a timely assessment of the geostrategic significance of Asia Pacific. His monograph is also a thought-provoking analysis of the US strategic shift toward the region and its implications. Dr Lai judiciously offers the following key points: First, Asia Pacific, which covers China, Northeast Asia, and Southeast Asia, is a region with complex currents. On the one hand, there is an unabated region-wide drive for economic development that has been pushing Asia Pacific forward for decades. On the other, this region is troubled with

aside from many other conflicts unsettled maritime disputes that have the potential to trigger wars between and among Asia Pacific nations Second on top of these mixed currents China and the United States compete intensely over a wide range of vital interests in this region For better or for worse the U S China relationship is becoming a defining factor in the relations among the Asia Pacific nations Third the U S strategic shift toward Asia Pacific is as President Obama puts it not a choice but a necessity Although conflicts elsewhere especially the ones in the Middle East continue to draw U S attention and consume U S foreign policy resources the United States is turning its focus toward China and Asia Pacific Fourth in the mid 2000s the United States and China made an unprecedented strategic goodwill exchange and agreed to blaze a new path out of the tragedy that often attends great power transition Fifth at this time of U S strategic reorientation and military rebalancing toward Asia Pacific the most dangerous consideration is that Asia Pacific nations having disputes with China can misread U S strategic intentions and overplay the U S card to pursue their territorial interests and challenge China Finally territorial dispute is becoming an urgent issue in the Asia Pacific

Asia-Pacific in the New World Order Christopher Brook, Anthony McGrew, 2013-11-05 Asia Pacific in the New World Order critically explores the notion that a distinctive regional power bloc is developing linking countries bordering the Pacific with East Asia at its core This student friendly volume sheds light on the complex interplay between global regional and national forces which have transformed the Asia Pacific area into one of the most vibrant and economically successful regions in the world Historical narratives alongside geopolitical and geoeconomic perspectives are deployed to examine the shifting pattern of power relations and security structures across the region set within a wider world context Key issues addressed include what are the primary security problems of the region and how are they being resolved does the dynamic growth of the region and particularly the rise of China pose a challenge to existing structures of world order The text has a strong interdisciplinary flavour drawing on analytical approaches from the international relations political economy and political geography literature Authors have been drawn from the Asia Pacific region and the UK and all are established scholars in their specialist fields

U.S. and the Asia-Pacific Countries Ferian A. Bell, Odam L. Richards, 2012 In the Autumn of 2011 the Obama Administration issued a series of announcements indicating that the United States would be expanding and intensifying its already significant role in the Asia Pacific particularly in the southern part of the region The fundamental goal underpinning the shift is to devote more effort to influencing the development of the Asia Pacific s norms and rules particularly as China emerges as an ever more influential regional power Given that one purpose of the pivot or rebalancing toward the Asia Pacific is to deepen U S credibility in the region at a time of fiscal constraint Congress s oversight and appropriations roles as well as its approval authority over free trade agreements will help determine to what extent the Administration s plans are implemented and how various trade offs are managed This book examines U S and Asia Pacific countries relations with a focus on Australia New Zealand Japan Indonesia South Korea the Philippines Vietnam Guam Singapore and Taiwan

International Relations in the Asia-Pacific Jörn Dosch, Manfred Mols, 2000 The focus of this book is the changing pattern of international politics in the Asia Pacific region on the eve of the 21st century with particular reference to the role of the United States ASEAN Japan China and the emerging role of Latin America as well as multilateral cooperation forums such as APEC ARF and CSCAP The analysis is not based on a single theoretical approach but instead employs different perspectives
