Toward New Horizons Arab Economic Transformation Amid Political Transition:

Vers de nouveaux horizons : La transformation économique sur fond de transition politique dans le monde arabe

Mr.Harald Finger,Ms.Daniela Gressani,2014-05-12 Les mutations du paysage politique dans le monde arabe ouvrent des perspectives pour transformer l'économie en remédiant des problèmes économiques de longue date. Néanmoins, trois ans après le début de la transition politique dans le monde arabe, force est de constater qu'il est difficile de gérer les transitions et de mettre en œuvre les réformes économiques nécessaires. Ce document présente des éléments de réformes essentiels dans le domaine de la politique économique pour les pays arabes en transition.

Arab Countries in Transition - An Update on Economic Outlook and Key Challenges International Monetary Fund,2014-04-16 Despite uneven progress there are early signs of improvement and macroeconomic stabilization in some Arab Countries in Transition. ACTs 1 However, persistently weak growth and subdued private investment amid heightened regional insecurity continue to weigh on the task of reducing unemployment. This calls for accelerated reform efforts by the authorities to achieve higher, more inclusive and more private sector led growth supported by external partners. In addition, mobilizing affordable external financing could help boost well implemented public investment and provide a short term impetus to growth and employment, thereby stabilizing difficult socio-political conditions on the ground and providing space for deeper structural reforms.

Arab Countries in Transition - Economic Outlook and Key Challenges International Monetary Fund,2014-06-10 In spite of deepening and spreading conflicts in the region as well as in many cases a challenging internal socio-political environment, the Arab Countries in Transition (Egypt, Jordan, Libya, Morocco, Tunisia and Yemen) have broadly maintained macroeconomic stability. At the same time, however, their economies are not delivering the growth rates needed for a meaningful reduction in unemployment, in particular for the youth and women. Notwithstanding diversity of conditions, countries should quickly advance structural reforms to foster higher and more inclusive growth and continue to strengthen fiscal and external buffers to maintain stability amid heightened uncertainty. Coordinated support from the international community will be crucial in the form of financing improved trade access and capacity building assistance.

Publications Catalog, Fall 2014 International Monetary Fund,2014-09-25 This paper presents an overview of the book *Collapse and Revival: Understanding Global Recessions and Recoveries* that tracks the global business cycle through the destruction of a global recession to the renewal of recovery, drawing on four major episodes during the past half century. This book defines the terms of global recessions and recoveries, documents their main features, describes the events that take place around these episodes, puts the latest global recession and ongoing recovery in perspective and analyzes the interactions between fluctuations in the global growth and national growth over the different phases of the global cycle.

Civil Servants and Globalization Tony Verheijen,Katarina Staronova,Ibrahim Elghandour,Anne-Lucie Lefebvre,2022-06-24 This volume analyses the impact of globalization on civil service systems across the Middle East and North Africa. A collaboration between practitioners and academic/public policy

experts it presents an analytical model to assess how globalization influences civil servants illustrated by case studies of countries where there have been increased engagement with international actors It demonstrates how this increased interaction has altered the position of civil servants and traces the shifting patterns of power and accountability between civil servants politicians and other actors It is an original and important addition to the debate about globalization s role in transnational public administration and governance *Regional Economic Outlook, October 2014, Middle East and Central Asia*, International Monetary Fund. Middle East and Central Asia Dept.,2014-10-27 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards
