Bibliography of Bioethics LeRoy Walters,1975 **Dialogue and Universalism** ,1995 **Global Bioethics** ,1994 **Social Science Perspectives on Medical Ethics** G. Weisz,2012-12-06 Medical or bio ethics has in recent years been a growth industry Journals Centers and Associations devoted to the subject proliferate Medical schools seem increasingly to be filling rare positions in the humanities and social sciences with ethicists Hardly a day passes without some media scrutiny of one or another ethical dilemma resulting from our new found ability to transform the natural conditions of life Although bioethics is a self consciously interdisciplinary field it has not attracted the collaboration of many social scientists In fact social scientists who specialize in the study of medicine have in many cases watched its development with a certain ambivalence No one disputes the significance and often the painfulness of the issues and choices being addressed But there is something about the way these issues are usually handled which seems somehow inappropriate if not wrong headed to one trained in a discipline like sociology or history In their analyses of complex situations ethicists often appear grandly oblivious to the social and cultural context in which these occur and indeed to empirical referents of any sort Nor do they seem very conscious of the cultural specificity of many of the values

and procedures they utilize when making ethical judgments The unease felt by many in the social sciences was given articulate expression in a paper by Renee Fox and Judith Swazey which appeared in 1984 **Hospital Ethics**, 1989

New Reproductive Technologies Canada. Royal Commission on New Reproductive Technologies, 1993 The first paper in this volume of studies presents the ethical framework the Commission adopted a modified ethic of care and a set of guiding principles that were used as a prism through which to view the technologies The volume then goes on to explore some of the ethical issues raised by the development and use of new reproductive technologies **Canadian Philosophical Reviews**, 1988 **Publishers' Trade List Annual, 1991** Bowker Editorial Staff, 1991-09 *Military Medical Ethics* Anthony E. Hartle, Edmund D. Pellegrino, 2003 2 volumes sold as a set Textbooks of Military Medicine Section editors Edmund D. Pellegrino Anthony E. Hartle and Edmund G. Howe et al Addresses medical ethics within a military context Medical Ethics and Law Dominic Wilkinson, Julian Savulescu, Tony Hope, Judith Hendrick, BA, LL.M., 2008-03-06 This is a short textbook of ethics and law aimed primarily at medical students The book is in two sections The first considers general aspects of ethics in the context of medicine the second section covers the topics identified in the consensus agreement The content of medical law is not intended to be comprehensive and relates very much to the ethical issues The law will be updated throughout including consent in light of Mental Capacity Act mental health law in light of Mental Health Act end of life depending on outcome of Burke case and the passage of the Joffe Bill assisted reproduction in light of expected changes in HFEA New guidelines to be added the guidelines and processes around medical research are under review and likely to develop and change GMC guidelines are under continual revision the Burke case in particular may have direct impact but it is also likely that the confidentiality guidelines will undergo revision particularly in view of the increasing importance of genetic data The new legal aspects outlined above will require some changes to the ethical analysis the ethical issues of new technology will be included cloning transgenesis and chimera i.e. forming organisms from more than one species and stem cells resource allocation ethics is moving on to examining a wider range of issues than covered in the first edition and this will be discussed the whole area of mental disorder and capacity to consent is an active area of ethical research and the second edition would cover some of this new work *American Book Publishing Record*, 1999 Military Medical Ethics, Volume 1, **Justice, Law and Method in Plato and Aristotle** Spiro Panagiotou, 1987
