West Europa In Het Nauw:

The West at Bay. West-Europa in Het Nauw. (Vertaling Door Richter Roegholt.). afterwards JACKSON WARD (Baroness Jackson of Lodsworth., Barbara Mary),Richter F. ROEGHOLT,1949

Archaeological and Historical Aspects of West-European Societies Marc Lodewijckx,1996 The contents of this volume of essays in his honour gives a good overview of the fields in which Prof Van Doorselaer has been active throughout his academic career This book is especially an Album Amicorum filled with reminiscences and intentions to continue the work The voluminous size of this book may be considered as an adequate measure of the overall sympathy for Prof Van Doorselaer We hope that this publication may encourage him to remain active in the field of archaeology and that the co operation among colleagues stimulated by this project may be continued in the future

The Battle of Gettysburg: The Country, The Contestants, The Results William C. Storrick,2020-09-28 It is difficult to present a great battle with sufficient detail to please both the student of tactics and the average reader If the visitor is not satisfied with the brief outline here presented he is recommended to read further in the books listed and especially to employ a guide without whose trained and supervised services the best manual is inadequate The reader in search of romance is recommended to the successive Incidents of the Battle as herein presented According to official records the Gettysburg campaign of 1863 began on June 3rd and ended on August 1st No effort will be made to describe the movements counter movements and fifty minor engagements that occurred before the armies crossed the Mason and Dixon s line and finally concentrated at Gettysburg where they engaged in battle on July 1st 2nd and 3rd It is necessary however that the visitor should understand the approach to the field On June 3rd the Union Army called the Army of the Potomac lay at Falmouth Va on the north side of the Rappahannock River Major General Joseph Hooker in command The Confederate Army called the Army of Northern Virginia occupied the south bank with headquarters at Fredericksburg General Robert E Lee in command Both armies were resting after the major engagement at Chancellorsville in which the Confederates were victorious The Army of the Potomac was made up of seven infantry and one cavalry corps It numbered at the time of the battle approximately 84 000 The Army of Northern Virginia was made up of three infantry corps and one division of cavalry It numbered at the time of the battle about 75 000 Following the text is a roster of officers which should be consulted both for an understanding of the battle and because of the obligation to honor brave men During the month of May General Lee visited Richmond to discuss with the Confederate government various plans involving political and military considerations Up to this time the South had won the major victories but her resources both in men and sinews of war were diminishing and a prolonged conflict would be disastrous It was decided that the army should invade the North via the Shenandoah and Cumberland valleys with Harrisburg as an objective This route not only afforded a continuous highway but put the army in a position to threaten Baltimore Philadelphia and Washington from the north The Blue Ridge Mountains to the east would screen the advance and the rich agricultural section would furnish supplies of food and forage The time was

propitious General Lee's army was in the prime of condition. The North was discouraged by losses, distrustful of Lincoln, weary of war. The South believed that one great victory would assure her the friendliness of the leading powers of Europe. Her independence once acknowledged, she could import the materials of war and the necessities of life which she lacked. It was thought certain that at the prospect of invasion the North would withdraw troops from the siege of Vicksburg, then being conducted by General Grant. With high hopes the march was begun. On June 3rd Lee put his army in motion northward with Ewell's Corps preceded by Jenkins and Imboden's Cavalry in the advance, followed by Longstreet and lastly by Hill. Longstreet moved on the east side of the Blue Ridge in order to lead Hooker to believe that Washington would be threatened. On reaching Snicker's Gap he crossed the Ridge into the Shenandoah Valley and followed Hill who was now in advance. The great army was strung out from Fredericksburg, Va. on the south to Martinsburg, W. Va. on the north, with the cavalry division under Stuart guarding the gaps along the Blue Ridge. Since 1863 the population of Gettysburg has increased from 2,000 to 5,500. After driving out Union forces stationed at Winchester under Milroy, Lee's Army crossed the Potomac at Williamsport and Shepherdstown on June 23rd, 24th and 25th and advanced northward unopposed through the Cumberland Valley toward Harrisburg.

The British Library General Catalogue of Printed Books to 1975 British Library, 1986 *Close to the Edge* Theunis Piersma, 1994 **Cultuur & Lichaam** Paul Voestermans, Theo Verheggen, 2007-05-21

I was deeply impressed by this book. It is a fresh and original analysis of cultural psychology; there is nothing like this on the market. The argument is so clear and the material so well constructed that one can't help but argue with the authors at the same time as one is urging them on. In one fell swoop they take on the trend to evolutionary psychology, the worst of social psychology, integrate little known facts with the better known, make a plea for the centrality of the body and a practice orientation to psychology, explain religious tolerance and intolerance, add aging to the mix and come out with a coherent picture of the relation between culture and psychology. Brilliant, really. Professor Henderikus Stam, University of Calgary.

The book is, in one word, a gem. Compared to the many books in the cultural studies field, this book reaches far deeper and higher. Tom ter Bogt, professor Music and Youth Culture, Utrecht University.

The book is written in a lively, stimulating, provocative style. It draws on a wide variety of disciplines apart from psychology, sociology, anthropology, history, religious studies, philosophy, etc., as indeed any good book about culture should. Indeed, this multidisciplinary perspective is perhaps the book's main strength. David Ingleby, Professor of Intercultural Psychology, Utrecht University.

This book presents both an innovative theoretical account of the persistence of behavioural patterns and an intriguing and detailed analysis of five central areas of cultural problem-solving. Both theory and empirical analysis are coherent and consistent, and complicated issues usually are clarified by many well-chosen examples that can easily be related to current cultural themes and debates. Moreover, the book is written in a fluent style. Ruud Abma, Professor of Social Science, Utrecht University.

There is an element of fascination which many people feel about geographical maps because these maps

allow fantasies about strange landscapes other peoples travels even adventures Distribution maps depicting the area which a plant or animal species occupies would appear to be less romantic but they are equally able to exercise our imagination or rather to stimulate our scientific curiosity Some distribution patterns are repeated time and time again although rarely fully identical and with their study comes the inescapable question what is it that determines a plant s area of distribution Almost immediately we find ourselves in the area of ecology for it is the plant s demands of its environment climate soil which determines where it will be able to grow and where not However that is not all there is to it for species as well as landscapes have their history and one needs to be informed about the climate and about the distribution of land and sea in the past for instance before one can understand present distributions This aspect of change in space and time historical plant geography is possibly the most fascinating part of plant geography However this atlas covering a minuscule part of the world is not meant to be primarily a book of historical plant geography It is true that a dynamic aspect is very prominent but this is on the smaller time scale of man made changes which mostly led to impoverishments

Vragen des tijds, 1916 **Systeembreuk** Kohei Saito, 2023-11-21

Wat kan de mensheid doen om de klimaatcrisis te bezweren In zijn verpletterende bestseller Systeembreuk betoogt de jonge Japanse filosoof Kohei Saito onomwonden dat we afscheid moeten nemen van het kapitalisme Omdat het eeuwige groei boven alles stelt is het kapitalisme niet in staat het tij te keren De roep om zogenaamd duurzame groei vormt een gevaarlijk compromis die zorgt niet voor de noodzakelijke grondige systeemverandering In plaats daarvan zoekt Saito de oplossing in deceleratie en degrowth oftewel het vertragen en inkrimpen van de economische activiteit via democratische hervormingen Zo pleit hij onder andere voor een herwaardering van essentieel werk boven bedrijfswinsten en verkorting van de arbeidsduur Daarbij laat hij zich inspireren door de latere ecologische inzichten van Karl Marx

Geschiedenis van de geneeskunde Roy Porter, 2010 Dit boek geeft een overzicht van de opkomst van de geneeskunde in het Westen vanaf de klassieke Oudheid tot het heden De auteurs behandelen zowel de sociale als de wetenschappelijke geschiedenis van de geneeskunde en schetsen de chronologie van de belangrijkste ontwikkelingen en gebeurtenissen Terzelfder tijd wordt ingegaan op de vragen ontdekkingen en controverses die de medische vooruitgang hebben omringd en gekenmerkt Het is een verhaal dat een verband legt tussen ziekte dokters eerstelijnszorg chirurgie de opkomst van ziekenhuizen behandeling met medicijnen en farmacologie geestesziekte en psychiatrie De lezer maakt kennis met de cruciale ontwikkelingen van de laatste 150 jaar maar verneemt ook meer over de klassieke middeleeuwse islamitische en Oost Aziatische geneeskunde Het boek is zeer toegankelijk geschreven en uitermate geschikt voor iedereen die een levendige en informatieve inleiding wil tot de medische geschiedenis

Voltooid Verleden Tijd? Chamalaun, 1980 *Religie als sociale constructie. Een menswetenschappelijke rondleiding* Guido Dierickx, 2015-09-07 De religie geeft aanleiding tot vele vaak heftige debatten in academische en minder academische kringen Bij nader toezien gaan die debatten meestal over de sociale constructie die de religieuze beleving bevordert of verzwakt en niet over de kern van de religie de religieuze beleving Ze gaan over de omstandigheden die de participatie aan de religieuze gemeenschap en cultuur ondersteunen of hinderen die haar geloofwaardigheid ondermijnen of bevestigen Dit werk wil een aantal van die debatten verhelderen met behulp van een sociologische zienswijze en de beschikbare empirische gegevens Daarmee is alvast n thema aangestipt dat herhaaldelijk zal weerkeren het onderscheid tussen de theologische en de filosofische zienswijze en de sociologische en de menswetenschappelijke De stelling van de auteur luidt dat in debatten over religie de theologisch filosofische zienswijze zij het vaak in haar ge vulgariseerde vorm te veel aan bod komt en de sociologische te weinig Dit geldt paradoxaal genoeg zowel

voor de vrienden als voor de vijanden van de religie Dat is begrijpelijk omdat levensbeschouwelijke debatten nu eenmaal heet zijn en meer aantrekkingskracht hebben dan menswetenschappelijke debatten die veeleer koel zijn *Nederlandsch tijdschrift voor geneeskunde* ,1929 *Landen en volken der aarde* Antony Winkler Prins,1891 **De geheele aarde als handels- en nijverheidsterrein** Antony Winkler Prins,1896 **Geïllustreerde aardrijksbeschrijving** Antony Winkler Prins,1892 **Economisch-statistische Berichten** ,1926
