Western Balkans Western Balkans:

The Western Balkans in the World Florian Bieber, Nikolaos Tzifakis, 2019-06-26 This book provides a detailed understanding of how different types of engagements impact upon the reform and EU integration of the Western Balkan region. It examines the influence of Russia, China, Turkey and the UAE in the region and analyses the range of existing links. Contributors offer an academic and multifaceted perspective of the role of external and non-Western actors in the region that goes beyond on the one hand the tendency of some Western decision makers to perceive all engagement by third powers as a sinister threat and on the other the view of regional governments of all external involvement as a boon coming at a time of Western neglect and reduced foreign investments. By looking at the importance of Russia, Turkey, China and the UAE in the Western Balkans, the book sheds light on one key arena of global competition, offers new insights on the strengths and weaknesses of Euro-Atlantic integration and advances our knowledge of foreign policy and its economic, social and security dimensions for small and medium-sized countries. It will be of interest to academics, postgraduate and research students and think tankers with research interest in IR and Southeast European Studies. European decision makers will also gain an insight into the extent of non-Western influence in the region. Peace and Security in the Western Balkans Nemanja Džuverović, Věra Stojarová, 2022-08-16 This book outlines the main security threats, actors and processes in the Western Balkans following the dissolution of Yugoslavia. Exploring the state of peace and security in the region, it asks if a stable peace is achievable. The comparative framework explores state perspectives from Serbia, Montenegro, Northern Macedonia, Bosnia and Herzegovina, Albania and Kosovo alongside military, political, societal, economic and environmental security concerns. The interplay of international actors is also considered. Academics, scholars and practitioners who deal with Balkan issues either as a focus or comparatively and have interests in security and peace studies will find the volume invaluable along with students of political science, security studies, peace studies, area studies, Eastern European studies and/or Southeast European studies and international studies in general. Peace, Conflict and Developments in the Western Balkans. The Role of EU Integration Reina Zenelaj Shehi, Eglantina Hysa, 2020-09-10 The Western Balkan countries are characterized by an entanglement of different national, ethnic and religious groups. Within all Balkan states, nationalist rivalries have been and are exploited by political leaders as a propaganda tool when faced with internal unrest or unpopularity. Yet the proximity of ethnic communities to their countries of ethnic origin tie all the Balkan states into a common problem: the spillover effect of regional insecurity. Existing and future disputes require an exhaustive survey of national, ethnic, religious, territorial, economic and political problems and this is precisely what this volume sets out to do. *European Integration of Western Balkans* Lucia Vesnic-Alujevic, 2012-04-29 PDF available for free on <http://martenscentre.eu/publications/european-integration-western-balkans-reconciliation-european-future>. While most of Europe decided to unite in the 20th and 21st century, a country in the Balkans split into seven independent states. The efforts of these states to join the European Union and the reconciliation

initiatives between the countries are detailed in this research paper Despite the efforts of the countries of the region and of the EU a lot of work is needed before these countries will become sufficiently mature in political economic and societal sense to become members of the European Union The promotion of dialogue grassroots movements civil society and cross border projects is needed in order to tackle unresolved problems in the region

The Western Balkans and the EU Morton Abramowitz, 2011 Today more than fifteen years after the end of the wars that accompanied Yugoslavia's dissolution the Balkan question remains more than ever a European question In the eyes of many Europeans in the 1990s Bosnia was the symbol of a collective failure while Kosovo later became a catalyst for an emerging Common Foreign and Security Policy CFSP In the last decade however the overall thrust of the EU's Balkans policy has moved from an agenda dominated by security issues related to the war and its legacies to one focused on the perspective of the Western Balkan states accession to

the European Union This Chaillot Paper which features contributions from authors from various parts of the region examines the current state of play in the countries of the Western Balkans with regard to EU accession It brings together both views from the Balkans states themselves and overarching thematic perspectives For the first time the European Union has become involved in the formation of new nation states that also aspire to become members of the Union The EU s transformative power has proved effective in integrating established states now it is confronted with the challenge of integrating new and sometimes contested states Against this background this paper makes the case for a concerted regional approach to EU enlargement and a renewed and sustained commitment to the European integration of the Western Balkans **The**

Aftermath of War Professor Albert Simkus, Professor Kristen Ringdal, 2013-01-28 At a time when most observers saw war in Europe as belonging to an ever more distant past the wars of Yugoslav succession shattered this illusion The direct and indirect consequences of these wars for people in the region are still not fully understood but it is clear that the war has had far reaching social and political consequences for each national society as a whole This groundbreaking volume provides a series of analyses of experiences and social attitudes in the Western Balkans in the aftermath of those wars Based on survey data from 22 000 respondents the editors have created a volume which contributes to our understanding of both specific war related effects as well as a detailed description of contemporary attitudes and values across these societies This book will be of interest to academic specialists and students interested in the effects of war on psychological health and on ethnic relations in the Western Balkans as well as how this applies to other post conflict societies It will also be of interest to sociologists political scientists and historians studying differences in attitudes between the countries ethnic groups and generations in this region related to diverse topics from ethnic tolerance to states responsibility for equality and gender roles

Integrating the Western Balkans into the EU Milica Uvalić, 2023-10-10 Among the main stumbling blocks of European Union Western Balkan integration are the differences in perceptions on both sides Today the gap between what the Western Balkan politicians and citizens think about the European Union and what the politicians and citizens in the EU member states think about the Western Balkans is probably wider than ever This volume offers fresh insights about these misperceptions and how to possibly bridge the gap It examines perceptions about the region s European perspectives both on the side of the six Western Balkan countries Albania Bosnia and Herzegovina Kosovo Montenegro North Macedonia and Serbia and the key European Union member states Italy Germany Croatia international donors USA An analysis of the diverse views regarding the prospects of EU Western Balkan integration is today highly relevant in view of the current uncertainties regarding European Union s enlargement policy particularly after the attack of Russia on Ukraine and candidate status granted to Ukraine and Moldova **Western Balkan Integration and the EU** Sanjay Kathuria, 2008-01-01 This title explores ways for the Western Balkan countries to improve growth prospects through deepening of regional integration and improving selected elements of their investment climate It analyzes areas relating to trade in goods and services regional integration and

selected aspects of the investment climate It suggests that countries in the region could reap sustained growth payoffs by focusing on deepening regional integration improving human capital reducing telecommunication costs and pre-empting energy shortages *Government at a Glance: Western Balkans* OECD,2020-07-07 *Government at a Glance Western Balkans* presents information on public governance in the Western Balkan region covering Albania Bosnia and Herzegovina Kosovo Montenegro North Macedonia and Serbia and compares it to OECD and OECD EU countries

The EU and Member State Building Soeren Keil,Zeynep Arkan,2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union's policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU's actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

Western Balkans: Increasing Women's Role in the Economy Mr.Ruben V Atoyan,Jesmin Rahman,2017-09-01 The Western Balkan countries have some of the lowest female labor force participation and employment rates across Europe Almost two thirds of working age women in the region are either inactive or unemployed a huge bite into human capital for a region that endures high emigration and faces declining working age population The paper uses both macro and micro level data to explore what explains low participation and employment rates among women in the region Our findings show that improving educational attainment having a more balanced family leave policy and reducing tax wedge help improve participation of women in the labor force However these measures are not enough to notably improve employability of women which require stronger growth supported by robust institutions

[The Pandemic in the Balkans](#) Giorgio Fruscione,2021-05-12 One year after reaching Europe the Covid 19 pandemic has left a profound mark on the Western Balkans It has exacerbated geopolitical dynamics that had been ongoing for decades While the EU has continued to be inconclusive proceeding at a snail's pace with its carrot and stick approach China has seized the opportunity and

expanded its footprint The pandemic has also had major consequences for domestic politics Local trends can largely be summarised using the terms continuity and new hope with both these notions very much on display in the Balkans and shaping the speed and direction of democratic transitions which remain far from complete How has geopolitical competition among the superpowers developed in the Balkans over the last year What effects has the pandemic had on local democratic standards Is there room for new hopes in terms of regime change and citizen participation
