What America Needs The Case For Trump:

What America Needs Jeffrey Lord, 2016-01-08 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country The Case for Trump Victor Davis Hanson, 2019-03-05 This New York Times bestselling Trump biography from a major American intellectual explains how a renegade businessman became one of the most successful and necessary presidents of all time In The Case for Trump award winning historian and political commentator Victor Davis Hanson explains how a celebrity businessman with no political or military experience triumphed over sixteen well qualified Republican rivals a Democrat with a quarter billion dollar war chest and a hostile media and Washington establishment to become president of the United States and an extremely successful president Trump alone saw a political opportunity in defending the working people of America s interior whom the coastal elite of both parties had come to scorn Hanson argues And Trump alone had the instincts and energy to pursue this opening to victory dismantle a corrupt old order and bring long overdue policy changes at home and abroad We could not survive a series of presidencies as volatile as Trump s But after decades of drift America needs the outsider Trump to do what normal politicians would not and could not do **The Conservative Case for Trump** Phyllis Schlafly, Ed Martin, Brett M. Decker, 2016-09-06 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country **Trump and Autobiography** Nicholas K. Mohlmann, 2021-07-21 The 1970s and 1980s heralded the rise of neoliberalism in United States culture fundamentally reshaping life and work in the United States Corporate culture increasingly penetrated other aspects of American life through popular press CEO autobiographies and management books that encouraged individuals to understand their lives in corporate terms Propelled into the public eye by the publication of 1989 s The Art of the Deal ostensibly a CEO autobiography Donald Trump has made a career out of reversing the autobiographical impulse presenting an image of his life that meets his narrative needs While many scholars have sought a political precedent for Trump s rise to power this book argues that Trump s aesthetics and life production uniquely primed him for populist political success through their reliance on the tropes of popular corporate culture Trump and Autobiography contextualizes Trump s autobiographical works as an extension of the popular corporate culture of the 1980s in order to examine how Trump constructs an image of himself that is indebted to the forms genres and mechanisms of corporate speech and narrative Ultimately this book suggests that Trump s appeal and resilience rest in his ability to signify as though he is a corporation revealing the degree to which corporate culture has reshaped American society s interpretive processes Taming the President Andrea Carati, Andrea Locatelli, 2025-08-18 During his first term in office Donald Trump failed to implement his revolutionary foreign policy agenda To provide a plausible explanation for the multifaceted nature of Trump s foreign policy achievements and shortcomings this book brings together leadership trait analysis and bureaucratic politics to develop a model that frames their interactions and mutual influence *Labor in the Time of Trump* Jasmine Kerrissey, Eve

Weinbaum, Clare Hammonds, Tom Juravich, Dan Clawson, 2020-01-15 *Labor in the Time of Trump* critically analyzes the right wing attack on workers and unions and offers strategies to build a working class movement While President Trump's election in 2016 may have been a wakeup call for labor and the Left the underlying processes behind this shift to the right have been building for at least forty years The contributors show that only by analyzing the vulnerabilities in the right wing strategy can the labor movement develop an effective response Essays in the volume examine the conservative upsurge explore key challenges the labor movement faces today and draw lessons from recent activist successes Contributors Donald Cohen founder and executive director of In the Public Interest Bill Fletcher Jr author of *Solidarity Divided* Shannon Gleeson Cornell University School of Industrial and Labor Relations Sarah Jaffe co host of Dissent Magazine's Belabored podcast Cedric Johnson University of Illinois at Chicago Jennifer Klein Yale University Gordon Lafer University of Oregon's Labor Education and Research Center Jose La Luz labor activist and public intellectual Nancy MacLean Duke University MaryBe McMillan President of the North Carolina state AFL CIO Jon Shelton University of Wisconsin Green Bay Lara Skinner The Worker Institute at Cornell University Kyla Walters Sonoma State University

The Right Matthew Continetti, 2022-04-19 A magisterial intellectual history of the last century of American conservatism When most people think of the history of modern conservatism they think of Ronald Reagan Yet this narrow view leaves many to question How did Donald Trump win the presidency And what is the future of the Republican Party In *The Right* Matthew Continetti gives a sweeping account of movement conservatism's evolution from the Progressive Era through the present He tells the story of how conservatism began as networks of intellectuals developing and institutionalizing a vision that grew over time until they began to buckle under new pressures resembling national populist movements Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism Continetti argues that the more one studies conservatism's past the more one becomes convinced of its future Deeply researched and brilliantly told *The Right* is essential reading for anyone looking to understand American conservatism

In Search of Manhood Don H. Corrigan, 2024-08-30 American men began an earnest search for the meaning of manhood in the latter half of the 20th century and enlisted in such groups as Promise Keepers Million Man March National Congress of Men and fathers rights groups This study chronicles those movements as well as the more visible male activism of today in such groups as Proud Boys Three Percenters and Oath Keepers The book explores the misogyny and militancy embodied in these new quests for manhood The first section covers pop culture influences on conceptions of masculinity and moves from celebrity iconography to the institutional and organizational influences that men have relied on in the effort to make themselves masculine The second section describes masculinity and men's movements in the 20th century and the third section covers the 21st The final chapters analyze the contrast between the more thoughtful men's movements before the turn of the century and the more militant and physical movements after 2000 posing and addressing critical questions about the relationship between prevailing ideals of masculinity and events like the January 6th

insurrection World War Trump Hall Gardner, 2018 An expert on global politics details the dangers of Trump's nationalist agenda and its destabilizing effects on the world How will Donald Trump's America First policy impact international stability This sobering book argues that it will put the country on a path toward war International relations expert Hall Gardner analyzes the twists and turns of our president's foreign policy pronouncements from the beginning of his campaign to the present He argues that Trump's proposed economic nationalism and military buildup if implemented will alienate America's friends and rivals alike The unintended and perilous consequence could well be to press Russia Iran Turkey and China into a closer counter alliance versus the United States Europe Japan Taiwan South Korea Israel and Saudi Arabia Gardner has long warned that the uncoordinated NATO and European Union enlargement into former Soviet spheres of influence and security would not only provoke a Russian revanchist backlash but could also encourage Moscow to forge a Sino Russian alliance That Russian backlash has already taken place since the annexation of Crimea in 2014 during the Obama administration Now Trump's seeming contempt of trade pacts and multilateral relations plus his confrontation with both Iran and North Korea could push Russia to construct closer ties with a more assertive China to form a polarizing alliance At the same time America First trade and monetary disputes with allies could tempt some of those states to move into neutrality or else drift into the Russia China orbit Against this dangerous and destabilizing unilateralism Gardner makes a convincing case that the only workable means of maintaining a peaceful world order is through patient and thoroughly engaged diplomacy and a realist rapprochement with both Russia and China **Trumpocalypse** David Frum, 2024-01-17 I don't take responsibility at all Those words of Donald Trump at a March 13 2020 press conference are likely to be history's epitaph on his presidency A huge swath of Americans has put their faith in Trump and Trump only because they see the rest of the country building a future that doesn't have a place for them If they would risk their lives for Trump in a pandemic they will certainly risk the stability of American democracy They brought the Trumpocalypse upon the country and a post Trumpocalypse country will have to find a way either to reconcile them to democracy or to protect democracy from them In Trumpocalypse David Frum looks at what happens when a third of the electorate refuses to abandon Donald Trump no matter what he does Those voters aren't looking for policy wins They're seeking cultural revenge It is not enough to defeat Donald Trump on election day 2020 Even if Trump peacefully departs office the trauma he inflicted will distort American and world politics for years to come Americans must start from where they are build from what they have to repair the damage Trump inflicted on the country to amend the wrongs that under Trump they inflicted upon each other Americans can do better David Frum shows how and inspires all readers of all points of view to believe again in the possibilities of American life Trumpocalypse is both a warning of danger and a guide to reform that will be read and discussed for years to come **Milgram, the social mechanics of gross human rights violations, and President Trump** Stef Monaco, 2017-06-01 Seminar paper from the year 2017 in the subject Politics Topic Public International Law and Human Rights grade A course Understanding Human Rights language

English abstract Milgram's work in his 1974 book *Obedience to Authority* provides a useful analytical tool for understanding the social mechanics that lead to gross violations of human rights. A socially constructed locus of authority supported by an institutional machinery, the socialisation of a worldview based on an us versus them philosophy that supplies ideological legitimacy to the authority's commands and the fragmentation of acts into narrower tasks in hierarchically structured bureaucracies which profit from most people's tendency to obey authority. Based on available reports and key decisions made to date, it may be said that the social mechanics described by Milgram are in operation in the U.S. and that President Trump is both the product and the source of a political and social environment that is making it much easier for people to engage in behaviour that constitutes human rights violations such as discriminatory acts and that unless there is strong and consistent dissent, it is possible that the situation will continue to deteriorate.

Our Fractured World Volumes I David Diaz, 2023-07-08. I am a new European author of a book divided into two volumes that will cost 18 euros each to purchase in a digital PDF format. Each volume's title is the same as above and it focuses on global events, especially those occurring in the United States of America, a nation experiencing enormous unrest, and in Europe. I had intended to write only one book, but I was carried away and had to split it into two. I communicate my ideas and the realities of what is actually occurring in the world around us in a way that is politically incorrect, as I am not the type of person who likes walking on eggshells unless I deem it necessary. Political correctness is something I vehemently oppose in every sense of the word. Political correctness should only be used in the context of international relations within the political and corporate worlds. To fully express our freedoms, political correctness should be removed from all public discourse. It is possible to conduct debates without violating decorum through the use of political incorrectness. Political correctness gone mad hinders communication by limiting what we may say, think, write, and do. The rise of political correctness gone mad has a very Orwellian feel to it. I know that political correctness in small doses aims to foster balance in how we communicate with one another, but sadly, this goal has been perverted and exploited to the point of madness and to shield those who find offence in just about everything. I was inspired to publish my own opinions and the truths which left-wing politics likes to refer to as conspiracy theories, since they concern them and their transgressions by what is occurring around the globe, particularly in the United States. My two books are not for anyone who is easily offended, insulted, or micro-aggressed. Your comments, no matter how bizarre or sane they may seem, are always welcome without any guarantee that I will agree with them. Your feelings regarding the topics I am covering in my books are of very little concern to me. If you are a snowflake who is triggered easily by other people's opinions and the truth, I suggest that you do not read my works, but it is ultimately up to you to make that choice, since they are extremely alluring, even to people who practise political correctness to the hilt.

The MAGA Doctrine Charlie Kirk, 2020-03-03. NEW YORK TIMES BESTSELLER. Charlie was a giant of his generation, a champion of liberty, and an inspiration to millions and millions of people. President Donald Trump. The movement that brought Donald Trump to the White House has better ideas than the old

right or the new left It s time that the rest of America started listening In The MAGA Doctrine Charlie Kirk explains once and for all why the principles of America First and traditional values have found an audience among young people all over the country The Tea Party began as a protest for patriots who feared Big Government but President Trump has become a hero for patriots who are against Big Everything Silicon Valley Big Pharma The media Higher education Deep state swamp monsters Kirk describes why it took Trump a reality TV superstar to see past the sclerotic and power hungry institutions from the United Nations and Google to Harvard and Viacom working to crush real America The MAGA Doctrine is all about giving you a say in the future of America and a hand in making it happen As the mainstream media churn out lies about the real reasons behind the new conservative agenda this book is a powerful reminder of the true ideals of freedom and greatness that swept Donald Trump to the presidency The MAGA Doctrine urges a restoration of self rule by a populace long taken for granted by its rulers *The America We Deserve* Donald Trump,2000-01-15 The essential bestselling book that first defined President Donald Trump s political ideas The America We Deserve is the essential book for anyone who wants to understand the core of Donald Trump s political thinking In this book written as he first considered running for president in 2000 Trump offers no nonsense populist provocative and dramatic solutions to issues that continue to resonate with voters today In this book Trump lays out a vision for America that is strong optimistic and founded on core Republican principles of self reliance limited governance economic growth and equitable taxation Striking for its similarities to President Trump s current initiatives but also fascinating in its differences The America We Deserve reveals a man who is fully engaged with the nation and cares deeply about its future Readers and voters will discover Trump s ideas on Foreign policy and relations with China Russia North Korea and Israel How to fix our broken and underperforming education system Reducing regulations on business to help create jobs and economic growth A dramatic one time tax on the super wealthy to close the national debt and fuel tax cuts for the middle class Immigration crime terrorism and more The America We Deserve is essential reading for Trump watchers voters Republicans Democrats and anyone interested in how Trump the businessman became Trump the president *Marine Engineering* ,1903 [Marine Engineering Log](#) ,1903 [Summary of Victor Davis Hanson's The Case for Trump](#) Everest Media,2022-09-20T00:00:00Z Please note This is a companion version not the original book Sample Book Insights 1 The first red state was Rhode Island and the first blue state was Massachusetts The two were separated by less than a mile Fast forward to 2020 and one of the most similar states in size population and political leanings is California Yet in 2020 the state voted overwhelmingly for Trump while the Bay State voted overwhelmingly for Oprah And while California has some of the highest paid tech employees in America that state also has some of the highest taxes The American middle class is growing increasingly divided between red states and blue states While the Democrats tend to win coastal states Republicans control most of the vast expanses in between 2 Obama strategically divided America in order to win elections Trump inherited this divided America and continued Obama s strategy of widening the gap between red and blue states 3

Trump won by widening the gap between red and blue states 4 The coastal states are winning the culture war because the rural and the urban are increasingly different The Economist ,1929 **Cambridge Magazine** ,1915 The Cambridge Magazine ,1915
